The Chickasaws Aug 08 2020 For 350 years the Chickasaws—one of the Five Civilized Tribes—made a sustained effort to preserve their tribal institutions and independence in the face of increasing encroachments by white men. This is the first book-length account of their valiant-but doomed-struggle. Against an ethnohistorical background, the author relates the story of the Chickasaws from their first recorded contacts with Europeans in the lower Mississippi Valley in 1540 to final dissolution of the Chickasaw Nation in 1906. Included are the years of alliance with the British, the dealings with the Americans, and the inevitable removal to Indian Territory (Oklahoma) in 1837 under pressure from settlers in Mississippi and Alabama. Among the significant events in Chickasaw history were the tribe's surprisingly strong alliance with the South during the Civil War and the federal actions thereafter which eventually resulted in the absorption of the Chickasaw Nation into the emerging state of Oklahoma.

LIFE May 29 2022 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century. It now lives on at LIFE.com, the largest, most amazing collection of professional photography on the internet. Users can browse, search and view photos of today's people and events. They have free access to share, print and post images for personal use.

A Critic Writes Feb 23 2022 Few twentieth-century writers on architecture and design have enjoyed the renown of Reyner Banham. Born and trained in England and a U.S. resident starting in 1976, Banham wrote incisively about American and European buildings and culture. Now readers can enjoy a chronological cross-section of essays, polemics, and reviews drawn from more than three decades of Banham's writings. The volume, which includes discussions of Italian Futurism, Adolf Loos, Paul Scheerbart, and the Bauhaus as well as explorations of contemporary architecture by Frank Gehry, James Stirling, and Norman Foster, conveys the full range of Banham's belief in industrial and technological development as the motor of architectural evolution. Banham's interests and passions ranged from architecture and the culture of pop art to urban and industrial design. In brilliant analyses of automobile styling, mobile homes, science fiction films, and the American predilection for gadgets, he anticipated many of the preoccupations of contemporary cultural studies. Los Angeles, the city that Banham commemorated in a book and a film, receives extensive attention in essays on the Santa Monica Pier, the Getty Museum, Forest Lawn cemetery, and the ubiquitous freeway system. Eminently readable, provocative, and entertaining, this book is certain to consolidate Banham's reputation among architects and students of contemporary culture. For those acquainted with his writing, it offers welcome surprises as well as familiar delights. For those encountering Banham for the first time, it comprises the perfect introduction.

The Embassy in Grosvenor Square Apr 27 2022 Covering the period 1938 to 2008, *The Embassy in Grosvenor Square* explores the role of the embassy in the Anglo-American 'special relationship', both in terms of transatlantic affairs and issues of international relations.

The Indian Civil Service and Indian Foreign Policy, 1923–1961 Dec 24 2021 This book provides an authoritative account of the first significant overseas diplomatic missions and forays made by Indian civil servants. It recounts the key events in the formative decades of Indian foreign policy and looks at the prominent figures who were at the centre of this decisive period of change. The book explores the history and evolution of the civil and foreign services in India during the last leg of British rule and the following era of post-independence Nehruvian politics. Rich in archival material, it looks at official files, correspondences and diaries documenting the terms served by the pioneers of Indian diplomacy, Girja Shankar Bajpai, K.P.S. Menon and Subimal Dutt, in Africa, China, the USSR and other countries and their relationship with the Indian political leadership. The book also analyses and pieces together the activities, strategies, worldviews and contributions of the first administrators and diplomats who shaped India's approach to foreign policy and its relationship with other political powers. An essential read for researchers and academics, this book will be a useful resource for students of international relations, foreign policy, political science and modern Indian history, especially those interested in the history of Indian foreign affairs. It will also be of great use to general readers who are interested in the history of politics and diplomacy in India and South Asia.

Nehru Oct 29 2019 Judith Brown explores Nehru as a figure of power and provides an assessment of his leadership at the head of a newly independent India with no tradition of democratic politics.

Israel and the Palestinian Refugee Issue Mar 27 2022 Examining the development of Israel's policy toward the Palestinian refugee issue, this book spans the period following the first Arab-Israeli War until the mid-1950s, when the basic principles of Israel's policy were finalized. *Israel and the Palestinian Refugee Issue* outlines and analyzes the various aspects that, together, created the mosaic of the "refugee problem" with which Israel has since had to contend. These aspects include issues of repatriation, resettlement, compensation, blocked bank accounts, internal refugees and family reunification. Drawing on extensive archival research, this book uses documents from Israeli government

meetings, from the Foreign Affairs and Defense Committee and files from the office of the Prime Minister's advisor on Arab affairs to address the many diverse aspects of this topic, and will be essential reading for academics and researchers with an interest in Israel, the Middle East, and political science more broadly.

Demise of the British Empire in the Middle East May 17 2021 Britain emerged from World War II dependent economically and militarily upon the US. Egypt was the hub of Britain's imperial interests in the Middle East, but her inability to maintain a large garrison there was clear to the indigenous peoples. These essays track the decline of the empire.

The Canadian Rangers Oct 10 2020 The Canadian Rangers stand sentinel in the farthest reaches of our country. For more than six decades, this dedicated group of citizen-soldiers has quietly served as Canada's eyes, ears, and voice in isolated coastal and northern communities. Drawing on official records, interviews, and participation in Ranger exercises, Lackenbauer argues that the organization offers an inexpensive way for Canada to "show the flag" from coast to coast to coast. The Rangers have also laid the foundation for a successful partnership between the modern state and Aboriginal peoples, a partnership rooted in local knowledge and crosscultural understanding.

Churchill and the Bomb in War and Cold War Jan 01 2020 Covering the development of the atomic bomb during the Second World War, the origins and early course of the Cold War, and the advent of the hydrogen bomb in the early 1950s, Churchill and the Bomb in War and Cold War explores a still neglected aspect of Winston Churchill's career – his relationship with and thinking on nuclear weapons. Kevin Ruane shows how Churchill went from regarding the bomb as a weapon of war in the struggle with Nazi Germany to viewing it as a weapon of communist containment (and even punishment) in the early Cold War before, in the 1950s, advocating and arguably pioneering "mutually assured destruction" as the key to preventing the Cold War flaring into a calamitous nuclear war. While other studies of Churchill have touched on his evolving views on nuclear weapons, few historians have given this hugely important issue the kind of dedicated and sustained treatment it deserves. In Churchill and the Bomb in War and Cold War, however, Kevin Ruane has undertaken extensive primary research in Britain, the United States and Europe, and accessed a wide array of secondary literature, in producing an immensely readable yet detailed, insightful and provocative account of Churchill's nuclear hopes and fears.

Popular Mechanics Oct 22 2021 Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

The Baghdad Pact Jul 27 2019 This book sets out to explore the formation of the Baghdad Pact and Anglo-American defence policies in the Middle East, 1950-1959.

Pakistan's Defence Policy 1947-58 Mar 15 2021

The Difficult Politics of Peace Nov 10 2020 A sweeping and theoretically original analysis of the India-Pakistan rivalry from 1947 to the present. Since their mutual independence in 1947, India and Pakistan have been engaged in a fierce rivalry. Even today, both rivals continue to devote enormous resources to their military competition even as they face other pressing challenges at home and abroad. Why and when do rival states pursue conflict or cooperation? In *The Difficult Politics of Peace*, Christopher Clary provides a systematic examination of war-making and peace-building in the India-Pakistan rivalry from 1947 to the present. Drawing upon new evidence from recently declassified documents and policymaker interviews, the book traces India and Pakistan's complex history to explain patterns in their enduring rivalry and argues that domestic politics have often overshadowed strategic interests. It shows that Pakistan's dangerous civil-military relationship and India's fractious coalition politics have frequently stymied leaders that attempted to build a more durable peace between the South Asian rivals. In so doing, Clary offers a revised understanding of the causes of war and peace that brings difficult and sometimes dangerous domestic politics to the forefront.

Tibetan Nation Jun 17 2021 This detailed history offers the most comprehensive account available of Tibetan nationalism, Sino-Tibetan relations, and the issue of Tibetan self-determination. Warren Smith explores Tibet's ethnic and national origins, the birth of the Tibetan state, the Buddhist state and its relations with China, Tibet's quest for independence, and the Chinese takeover of Tibet after 1950. Focusing especially on post-1950 Tibet under Chinese Communist rule, Smith analyzes Marxist-Leninist and Chinese Communist Party nationalities theory and policy, their application in Tibet, and the consequent rise of Tibetan nationalism. Concluding that the essence of the Tibetan issue is self-determination, Smith bolsters his argument with a comprehensive analysis of modern Tibetan and Chinese political histories.

The Sino-American Alliance Nov 22 2021 This study provides an analysis of the role the United States alliance with Nationalist China played in US strategy to contain first the Sino-Soviet alliance and then China during the 1950s and 1960s.

Lords of the Desert Mar 03 2020 'Beautifully written and deeply researched' *The Observer* Upon victory in 1945, Britain still dominated the Middle East. But her motives for wanting to dominate this crossroads between Europe, Asia and Africa were changing. Where 'imperial security' – control of the route to India – had once been paramount, now oil was an increasingly important factor. So, too, was prestige. Ironically, the very end of empire made control of the Middle East precious in itself: on it hung Britain's claim to be a great power. Unable to withstand Arab and Jewish nationalism, within a generation the British were gone. But that is not the full story. What ultimately sped Britain on her way was the uncompromising attitude of the United States, which was determined to displace the British in the Middle East. Using newly declassified records and long-forgotten memoirs, including the diaries of a key British spy, James Barr tears up the conventional interpretation of this era in the Middle East, vividly portraying the tensions between London and Washington, and shedding an uncompromising light on the murkier activities of a generation of American and British diehards in the region, from the battle of El Alamein in 1942 to Britain's abandonment of Aden in 1967. Reminding us that the Middle East has always served as the arena for great power conflict, this is the tale of an internecine struggle in which Britain would discover that her most formidable rival was the ally she had assumed would be her closest friend. 'Bustles impressively with detail and anecdote' *Sunday Times* 'Consistently fascinating' *The Spectator* 'Barr draws on a rich and varied trove of sources to knit a sequence of dramatic episodes into an elegant whole. Great events march through these pages' *Wall Street Journal*

A War of Patrols Jul 31 2022 In June 1950, North Korea invaded South Korea. Responding to a United Nations' call, Canada deployed an 8000-man brigade to the peninsula to fight as part of an American-led UN force. This comprehensive account of the Canadian campaign in Korea provides the first detailed study of the training, leadership, operations, and tactics of the brigade under each of its three wartime commanders as well as its relationship with American and Commonwealth allies. This impeccably researched analytical history also examines the various units, from the "Special Force" to the army's regular battalions that replaced them.

Hitler Redux Sep 08 2020 After Hitler's death, several posthumous books were published which purported to be the verbatim words of the Nazi leader – two of the most important of these documents were Hitler's Table Talk and The Testament of Adolf Hitler. This ground-breaking book provides the first in-depth analysis and critical study of Hitler's so-called table talks and their history, provenance, translation, reception, and usage. Based on research in public and private archives in four countries, the book shows when, why, where, how, by and for whom the table talks were written, how reliable the texts are, and how historians should approach and use them. It reveals the crucial role of the mysterious Swiss Nazi Francois Genoud, as well as some very poor judgement from several famous historians in giving these dubious sources more credibility than they deserved. The book sets the record straight regarding the nature of these volumes as historical sources – proving inter alia The Testament to be a clever forgery – and aims to establish a new consensus on their meaning and impact on historical research into Hitler and the Third Reich. This path-breaking historical investigation will be of considerable interest to all researchers and historians of the Nazi era.

The Formulation of British Defense Policy Towards the Middle East, 1948–56 Sep 01 2022

Horn Man Dec 12 2020 Detroit and its strong Polish community share in America's rich history of Polish music and customs. This work documents that history and details the development of the Polish-American musicians in Detroit who became known as polka musicians, even though their music was very diversified.

Fishery Bulletin of the Jun 25 2019

The Imperialism of French Decolonisation Jan 25 2022 This book examines French motivations behind the decolonisation of Tunisia and Morocco and the intra-Western Alliance relationships. It argues that changing French policy

towards decolonisation brought about the unexpectedly quick process of independence of dependencies in the post-WWII era.

Medicare's Histories Aug 20 2021 Medicare is arguably Canada's most valued social program. As federally-supported medicare enters its second half-century, Medicare's Histories brings together leading social and health historians to reflect on the origins and evolution of medicare and the missed opportunities characterizing its past and present. Embedding medicare in the diverse constituencies that have given it existence and meaning, contributors inquire into the strengths and weaknesses of publicly insured health care and critically examine medicare's unfinished role in achieving greater health equity for all people in Canada regardless of race, status, gender, class, age, and ability.

Fundamental to the stories told in Medicare's Histories is the essential role played by communities — of activists, critics, health professionals, First Nations, patients, families, and survivors — in driving demands for health reform, in identifying particular omissions and inequities exacerbated or even created by medicare, and in responding to the realities of medicare for those who work in and rely on it. Contributors to this volume show how medicare has been shaped by politics (in the broadest sense of that word), identities, professional organizations, and social movements in Canada and abroad. As COVID lays bare social inequities and the inadequacies of health care delivery and public health, this book shows what was excluded and what was — and is — possible in health care.

Fighting World War Three from the Middle East Sep 20 2021 This description of Allied contingency plans for military operations in the Middle East - in the event of conflict with the Soviet Union - argues that diplomatic events and crises in the Middle East in 1945-55 are understandable only in the context of assets sought by the Allies in that region.

Seventy-five Years of the Turkish Republic Jun 29 2022 This collection examines the issues which - over the first 75 years of the Turkish Republic - have shaped, and will continue to influence, Turkey's foreign and domestic policy: the legacy of the Ottoman empire, the concept of citizenship, secular democracy, Islamicism and civil-military relations.

Japan's Postwar Economic Recovery and Anglo-Japanese Relations, 1948-1962 Apr 03 2020 Ever since Japan's economy recovered in the 1960s, scholars have been searching for the reasons for its meteoric postwar success. Until now, much research has been based on the study of Japan's society, its political and economic infrastructure, and its particular model of capitalism. But now that American and British government documents from the 1950s have been released, it emerges that the United States - as part of its Cold War economic and military strategy in East Asia - played a large part in assisting Japan out of its economic difficulties, whereas Britain's role seems to have been more ambivalent and circumspect. This book sets out to rectify the lack of full research into Anglo-Japanese trade relations from the late 1940s up to the early 1960s, and to examine the impact of cultural differences and perceptions on diplomacy, as well as the influence of prevailing political considerations like the Cold War. This book highlights the ebbs and flows in bilateral relations as Japan increased its economic and financial presence in Southeast Asia and Britain retreated politically and economically from its Empire in the East.
