*Expeditions Unpacked* Jan 03 2020 "A fascinating and unique look at these celebrated expeditions. Ed Stafford knows all too well how important an explorer's kit can be and this brilliant book gives great insight into the role it plays." —Sir Ranulph Fiennes In this unique and enthralling book, explorer and survivalist Ed Stafford curates 25 great expeditions through the lens of the kit these remarkable explorers took with them. In an environment where lack of preparation could mean certain death, the equipment carried, ridden and sailed into uncharted territories could mean the success or failure of an expedition. Was it simply a case of better provisions

and preparation that helped Amundsen beat Scott to the South Pole? And how has the equipment taken to Everest changed since Hillary's first ascent? Through carefully curated photographs and specially commissioned illustrations we can see at a glance the scale, style and complexity of the items taken into the unknown by the greatest explorers of all time, and the impact each item had on their journey. How it potentially saved a life, or was purely for comfort or entertainment, and how these objects of survival have evolved and adapted as science advances, and we plunge further into the extremes. Conquering fears and mountains, adversity and wild jungles, each item these explorers flew, pulled or hauled played a crucial role in their ambitious and dangerous missions to find out a little more about our world. Through each of these objects, we can gain a better understanding ourselves. Get an intimate view of these and more amazing expeditions: Roald Amundsen, race to the Pole: Norwegian expedition (snowshoes, Primus stove, piano, violin, gramophone...) Amelia Earhart, first woman to fly solo across the Atlantic Ocean (Bendix radio direction finder, parachutes, emergency life raft, rouge...) Tim Slessor, first overland from London to Singapore (machetes, crowbar, typewriter, Remington dry shaver, tea...) Nellie Bly, around the world in 72 days (Mumm champagne, accordion, silk waterproof wrap, dark gloves...)

**Ford Police Cars, 1932-1997** Jun 27 2019 This book offers tremendous detail about the Ford models used by law enforcement agencies between 1932 and today. The book highlights special police equipment such as heavy

duty suspensions and transmissions, high-performance engines, and special interiors.

## **Oxford Handbook of Expedition and Wilderness**

**Medicine** Oct 24 2021 Revised for its second edition to include the latest national and international guidelines, the Oxford Handbook of Expedition and Wilderness Medicine continues to be the essential resource for expedition medics and all well-informed travellers, including gap-year students. Clear and concise, readers can rely on this handbook to provide the knowledge and practical advice they need. It enables efficient preparation and planning before the journey, advises on camp logistics, risk management, and medical problems during the trip, as well as highlighting rare but important risks to those visiting remote areas. Focusing on preventative measures, the handbook also contains chapters dealing with crisis management, emergency care, and evacuation from challenging environments. Now containing more guidance about the obligations of a clinician joining an expedition, and the ethical approach to such work, the second edition of the Oxford Handbook of Expedition and Wilderness Medicine also provides an increased emphasis on medicine in various extreme environments. With revised and additional illustrations, more colour plates, and an increased use of important algorithms, this edition will give you the confidence and skills you need to travel to any extreme or remote environment. Updated with the support of the Royal Geographical Society, and incorporating the combined knowledge and experience of a team of experienced clinicians and expeditioners, this is a practical, easy-to-use guide to all aspects of expedition and wilderness medicine. Anyone who might ever step into the natural countryside, away from tarmac or gravelled

paths, to seek the freedom and beauty of unspoiled nature needs to be aware of the content of this book, to enhance their enjoyment, and minimise the risk of pursuing adventurous travel.

Riding on Air May 31 2022 Riding on Air covers the history of air suspension, from the earliest patents in the mid-19th century to more current developments. Beginning on buses, air suspension expanded into passenger rail vehicles, only to be followed by a crashing failure on passenger cars. But after several precarious years, air suspension began to win almost universal acceptance on trucks and trailers, and then in mass transportation, eventually making a successful return to passenger cars.

**The Forbidden Expedition** Feb 25 2022 Stella and the

gang travel to Witch Mountain to save Felix and what they find along the way could change the course of their adventures forever in this second novel in the whimsical Polar Bear Explorers' Club series. Stella Starflake Pearl has been eagerly awaiting her next adventure, ever since she and Felix returned from the Snowy Icelands. She fears, however, that she might never be sent on another expedition, especially since the president of the Polar Bear Explorers' Club himself is afraid of her ice princess powers. But when disaster strikes and Felix is snatched by a fearsome witch, Stella and the rest of the junior explorers—including a reluctant new ally from the Jungle Cat Explorers' Club—must set off into the unknown on a forbidden journey to the top of Witch Mountain. What awaits them there is a mystery. The only thing they know is this: No one ever returns from Witch Mountain. In the second installment of Alex Bell's magical The Polar Bear Explorers' Club series, Stella and the gang face villainous vultures, terrifying witch wolves, flying sharks, and eerie picnicking teddy bears on their daring quest to save one of their own.
