**A Century of Scouting Badges** Sep 23 2021 At the first Boy Scout camp held by founder Robert Baden-Powell on Brownsea Island in 1907, the pioneer Boy Scouts were organised into four patrols and presented with a brass fleur-de-lis badge. They were then taught practical outdoor activities, such as knotting, tracking and camping, and tested on these skills. Upon passing the tests, each boy received a bronze badge in the shape of a scroll, featuring the words "Be Prepared". The fleur-de-lis badge would later become the Scout's membership badge, also known as Tenderfoot, while the scroll badge became the Second Class Scout badge. This book compiles various collections of badges over the past century, from Boy Scouts and Wolf Cubs to Rover/Venture Scouts and adult Scouters. It also contains the collections of related accessories such as hat plumes and medals, as well as information about the history of Scouting. Informative and extensive, A Century of Scouting Badges is required reading for anyone with an interest in the Scouting movement and its story. Reader Reviews: "I spent many happy years of my childhood and youth in the scout movement. Scouting taught me good values and how to be a good leader. I thank Meng Hao for this wonderful book on 100 years of scout badges." — Professor Tommy Koh, Ambassador-At-Large, Ministry of Foreign Affairs "Wan Meng Hao is to be congratulated on achieving a Scouting first for his country that has yet to equalled in our

own. He has produced a systematic and comprehensive encyclopaedia of the badges and artefacts relating to Scouting in Singapore over a 100-year period, since its inception in 1907. (He starts with an illustration of a supposed replica of B-P's brass Brownsea badge). The book is a wonderful compendium of badges and other artefacts beautifully laid out and illustrated in full colour over 200 A4 pages with interesting and relevant text to tell the story. What makes this book of exceptional interest to our UK members is that up to the 1970s the Scout Association of Singapore relied on the UK Association for its badges and medals etc. The book covers all aspects and sections including WW2 and illustrates over 1,000 items, though it makes no claims to be a 'tick list'. Mr Wan uses his own collection and those of others to depict some very rare items, some of which I have never seen before, to lovingly tell the story of Scouting in his homeland. A wonderful example of what Scout Badge Collecting is all about!" — UK Scout Historian Colin Walker "After reading the first sample of this book, I was very moved! This book introduces Scouting badges, from the beginning of the movement more than one hundred years ago to today. The author introduces almost all the various identification badges carried on the uniforms of the Scout movement. When I look through the book, I can't help but marvel at the Scout movement. There have been so many creators who have contributed rich treasures to the movement. I have also written books on the history and origins of Scouting, and deeply feel the difficulty of writing such books. I believe the author must have incomparable enthusiasm and loyalty to scouts. He would have needed to verify the many details—such as the year, location, and origins—information that cannot tolerate errors. A lot of data collection and interview work is required. Every time you see such a high-quality Scout information book, you can feel the hardships that the author has gone through. For all Scouting people and even those who just agree with the concept of Scouting, this book is a treasure trove of information that should not be missed." — Ho Chung Keung, Hong Kong Scout Leader and writer "Scouting historian Wan Meng Hao's impressive *A Century of Scouting Badges* is a labour of love, almost two decades in the making. Meng Hao's encyclopaedic knowledge of and passion for Scouting has resulted in this excellent and invaluable contribution to the very limited literature on the Scouting Movement in Singapore and British Malaya. *A Century of Scouting Badges* weaves in the overarching story of how Scouting has evolved through the years and how the progressive and proficiency badge curriculum enables many scouts to challenge themselves in their Scouting pursuits, to learn useful skills, crafts, and hobbies, to grow in knowledge and understanding of the world around them, to imbibe values and perseverance, and to contribute to their communities in relevant and meaningful ways. The Scouting Movement's badges and awards, so thoughtfully recorded in this work, reminds us of the importance of striving not for its own sake but as a means of learning by doing and giving for the greater good." — Associate Professor Eugene Tan, Singapore Management University "This book is the result of Meng Hao's journey in documenting scout badges. He explains succinctly the historical evolution of badges, and the book is replete with photo-illustration of badges and how some of these badges were worn. It will undoubtedly serve as a handy compendium for scout badges in Singapore." — Associate Professor Yeo Kang Shua, Singapore University of Technology and Design

*Cancer Disparities* Jun 08 2020 The volume sheds new light on reducing disparities by complementing currently available monographs, through the provision of solutions that are

not only theoretically innovative but also empirically effective. Indeed, *Cancer Disparities: Causes and Evidence-Based Solutions* admirably achieves two key objectives that are crucial for advances in the field: (a) providing an up-to-date overview of cancer-related disparities and (b) describing evidence-based interventional approaches to close the cancer-related disparities gap. The implicit promise is that these approaches will enable public health practitioners, cancer control workers, and community members to use or adapt them in their own communities. This volume is essential to help make that promise a reality."--

**PsycCRITIQUES** Cancer is not randomly distributed in the United States. Its incidence varies by race, ethnicity, socioeconomic status, and other geographic and demographic factors. This volume, co-published with the American Cancer Society, is the first to examine the biological, racial, and socioeconomic factors that influence cancer incidence and survival. In addition, it presents 15 previously unpublished, evidence-based interventions to reduce and eliminate cancer disparities. The book explains the nature, scope, and causes of cancer disparities across different populations and then presents unique programs proven to reduce such inequalities in the areas of cancer prevention, screening and early detection, treatment, and survivorship. They represent a variety of cancers, populations, and communities across the U.S. Descriptions of each intervention include tests of effectiveness and are written in sufficient detail for readers to replicate them within their own communities. **Key Features:** Offers an in-depth look at the latest research behind cancer disparities Written by highly respected and published cancer researchers Includes 15 never-before published, evidence-based interventions that readers can replicate Discusses breast, colorectal, cervical, and other pernicious cancers Includes interventions for African-American, Hispanic, Native American, and other populations

*The SAGE Encyclopedia of Educational Technology* Jun 20 2021 Leveraging the power of technology to support teaching and learning is certainly not new. But with more low-cost, easy-to-use, easily accessible devices and systems than ever before, we are at a critical

inflection point where we must decide how technology powers and aids learning in the classroom. But is new technology the cure-all all? Some studies have shown students retain information better in traditional print formats. There's no question about the potential for new technologies to improve learning, but it's all in how it's approached, adapted, and used toward the service of achieving real gains in student performance. It's issues like this that are explored within the pages of this new Encyclopedia. To maximize shelf life, the editor and authors strove to focus on core topics and issues that will retain relevance in the face of perpetually evolving devices, services and specific techniques. Features include: A collection of 300-350 entries that are organized in A-to-Z fashion in two volumes available in a choice of print or electronic formats. Entries, authored by key figures in the field, conclude with cross references and further readings. Although organized A-to-Z, a Reader's Guide groups related articles within broad, thematic areas. A detailed Index, the Reader's Guide themes, and Cross References combine for search-and-browse in the electronic version.
