The Mediating Effects of Goal Setting on Sobriety Among Persons with Co-occurring Mental Illness and Substance Abuse Disorders (dual Diagnosis). Sep 03 2020

Effective Goal Setting May 11 2021 If you are reading this book it means you want to know more about goal setting, and if you really want to then you will find at least one idea that, if applied, will change your life for the better. How much do you believe in your goals? How much do you believe you can achieve them? Are the goals yours or has someone else chosen them for you? What is faith? I think it is the ability to not doubt a fact or an outcome even if you initially lack the essential elements that confirm it. Faith has a lot to do with intuition, but also with positive thinking. There will always be three categories: promoters of those ideas, opponents and indifferent people. Personal development is no exception to this logic. There will always be people who believe in their ability to evolve and create a better future for themselves and their families, there will always be people who are indifferent and for whom the techniques of personal development do not exist, they are certainly in a different orbit and can only intersect with personal development perhaps accidentally, and people who fight against personal development by trying to criticise and discourage those who practice it. If you believe you can achieve more and better then setting goals is the step you need to start with immediately. Goals should be yours alone and therefore at first you should not share them with anyone or only with people who can help you achieve them. Faith, especially if coupled with positive thinking, will always pay off with results. Hard work and dedication are only a consequence of strong faith. Here you will find quality information, it's a book that can help you to go beyond your current level and walk your way to success. You will be surprised to discover that many of these techniques are not foreign to you, that you already know and apply them, and if this is the case I can only congratulate you and encourage you to keep going because you are on the right track. Next you must have the perseverance to keep going and the courage to face the new challenges that await you.

Financial Goal Setting Explained Sep 15 2021 No matter what stage of life you

are at, and regardless of your personal circumstances or financial position, all of us have hopes and dreams for the future. Some people have small aspirations, while some of us like to dream big. But just how do we go about making these dreams reality? One solution is to create a life road map, where you set goals to guide you over the next few decades. Research has proven that individuals who set goals and targets for themselves - whether it be in their personal or professional lives - are likely to do better than those who are content to amble along not really planning for the future at all. When you apply goal setting to your finances or your business, the results are even more profound. Through this book you'll discover why goal setting is so important and how a little time and effort on your part to create a robust life plan can really help boost your finances and lay the foundations for exactly the kind of future you want for you, your family, and your business.

GOAL SETTING for SUCCESS! Jun 19 2019 One of the most essential tasks for any individual, team or organization to be effective and successful is to set goals and pursue after it. Successful people think about what they want and how to get what they want which are their goals, and they get their goals by paying the price required to get to those goals. However, unsuccessful people discuss anything but what they want. They talk about their problems and worries, and look for who is to blame most of the time. Everyone wants success, but you must equip yourself with the right tools and skills to become the very best version of yourself. The best part however, is that these skills and tools can be learnt and this is what this Master Workbook will help you do- to invent your future instead of trying to dwell on the past, by providing a practical and step by step process to achieving all your goals and maximizing and boosting your own as well as your team's productivity. Remember that your life now is a result of what you did a year ago; and life a year from now will be the result of what you do RIGHT NOW! So ACT accordingly! The rung of the ladder was never meant to rest upon, but only to hold a man's foot long enough to enable him to put the other somewhat higher! So as the saying goes: If It's To Be, It's Up To Me! So go for it!!!
