The British Book Trade and Spanish American Independence May 29 2020 The British Book Trade and Spanish American Independence is a pioneering study of the export of books from Britain to early-independent Spanish America, which considers all phases of production, distribution, reading, and re-writing of British books in the region, and explores the role that these works played in the formation of national identities in the new countries. Analysing in particular the publishing house of Rudolph Ackermann, which dominated the export of British books in Spanish to the former colonies in the 1820s, it discusses the ways in which the printed form of these publications affected the knowledge conveyed by them. After a survey of the peculiar characteristics of print culture in early-independent Spanish America and the trends in the import of European books in the region, the author examines the operation of Ackermann's publishing enterprise. She shows how the collaborative nature of this enterprise, involving a number of Spanish American diplomats as sponsors and Spanish exiles as writers and translators, shaped the characteristics of its publications, and how the notion of 'useful knowledge' conveyed by them was deployed in the service of both commercial and educational concerns. The hitherto unexplored mechanisms of book import, distribution, wholesale and retailing in Spanish America in the 1820s are also analysed as is the way in which the significance of the knowledge transmitted by those books shifted in the course of their production and distribution. The author examines how the question-and-answer form of Ackermann's textbooks constrained both publishers and writers and oriented their readers' relation with the texts. She then looks at the various ways in which foreign knowledge was appropriated in the construction of individual, social, national, and continental identities; this is done through the study of a number of individual reading experiences and through the analysis of the editions and adaptations of Ackermann's textbooks during the nineteenth century.

Racism and Discourse in Latin America May 09 2021 Racism and Discourse in Latin America investigates how public discourse is involved in the daily reproduction of racism in Latin America. The essays examine political discourse, mass media discourse, textbooks and other forms of text, and talk by the white symbolic elites, looking at the ways these discourses express and confirm prejudices against indigenous people and against people from African descent. The essays show that ethnic and racial inequality in Latin America continue to exacerbate the chasm between the rich and the poor, despite formal progress in the rights of minorities during the last decades. Teun A. van Dijk brings together a multidisciplinary team of linguists and social scientists from eight Latin American countries (Mexico, Guatemala, Colombia, Venezuela, Brazil, Argentina, Chile, and Peru), creating the first work in English that provides comprehensive insight into discursive racism across Latin America.

Democratic Enlightenment Aug 20 2019 That the Enlightenment shaped modernity is uncontested. Yet remarkably few historians or philosophers have attempted to trace the process of ideas from the political and social turmoil of the late eighteenth century to the present day. This is precisely what Jonathan Israel now does. In *Democratic Enlightenment*, Israel demonstrates that the Enlightenment was an essentially revolutionary process, driven by philosophical debate. The American Revolution and its concerns certainly acted as a major factor in the intellectual ferment that shaped the wider upheaval that followed, but the radical philosophes were no less critical than enthusiastic about the American model. From 1789, the General Revolution's impetus came from a small group of philosophe-revolutionnaires, men such as Mirabeau, Sieyès, Condorcet, Volney, Roederer, and Brissot. Not aligned to any of the social groups represented in the French National assembly, they nonetheless forged "la philosophie moderne"-in effect Radical Enlightenment ideas-into a world-transforming ideology that had a lasting impact in Latin America, Canada and Eastern Europe as well as France, Italy, Germany, and the Low Countries. In addition, Israel argues that while all French revolutionary journals powerfully affirmed that la philosophie moderne was the main cause of the French Revolution, the main stream of historical thought has failed to grasp what this implies. Israel sets the record straight, demonstrating the true nature of the engine that drove the Revolution, and the intimate links between the radical wing of the Enlightenment and the anti-Robespierrieste "Revolution of reason."

Art Museums of Latin America Nov 03 2020 Since the late nineteenth century, art museums have played crucial social, political, and economic roles throughout Latin America

because of the ways that they structure representation. By means of their architecture, collections, exhibitions, and curatorial practices, Latin American art museums have crafted representations of communities, including nation states, and promoted particular group ideologies. This collection of essays, arranged in thematic sections, will examine the varying and complex functions of art museums in Latin America: as nation-building institutions and instruments of state cultural politics; as foci for the promotion of Latin American modernities and modernisms; as sites of mediation between local and international, private and public interests; as organizations that negotiate cultural construction within the Latin American diaspora and shape constructs of Latin America and its nations; and as venues for the contestation of elitist and Eurocentric notions of culture and the realization of cultural diversity rooted in multiethnic environments.

Der Anerkennungskonflikt bei den drei Geschlechtern der Binnizá Apr 20 2022 Bei den Binnizá, den isthmischen Zapoteken, handelt es sich um ein indigenes Volk im Süden Mexikos mit drei sozialen Geschlechtern – Frauen, Muxe’ und Männern. Sie sind eine moderne, urbane Kultur, die ihre eigenen auffallenden Traditionen bewahrt hat, was eine Reihe mythisierender Vorurteile generiert. Die Autorin dekonstruiert daher zunächst Genese und Funktion des Matriarchatsmythos. Dann geht sie auf die lebensgeschichtliche Entwicklung der spannungsreichen Beziehungen dieser drei Geschlechter anhand psychoanalytischer Intersubjektivitätstheorie ein. Das spezifische frühkindliche und ödipale Setting sowie eine informelle Initiation in der Adoleszenz, wie der Rupto – die manuelle Defloration der Braut – oder die sexuelle Initiation der Jungen durch Muxe’, werden erläutert. Denn neben Frauen und Männern bestimmen die Muxe’, effeminierte Männer, den sozialen Alltag; durch ihre Allianz mit den Müttern und erotischen Beziehungen zu den Männern beruhigen und befeuern sie die konfliktiven heterosexuellen Beziehungen der Binnizá zugleich. Ihre traditionelle Rolle sowie die hybridisierenden, durch westliche Gay-Bewegungen und Massenmedien ausgelösten Veränderungen werden in Folge dargestellt. Weiter wird die legendäre Figur des Taganero, der kulturelle Topos der weiblichen Verräterin, das erwachsene Beziehungsgeschehen sowie die opulente Festkultur einschließlich der handbestickten Tracht der Binnizá behandelt.

Global education monitoring report, 2020 Nov 22 2019 This publication assesses progress towards Sustainable Development Goal 4 (SDG 4) on education and its ten targets, as well as other related education targets in the SDG agenda. It addresses inclusion in education, drawing attention to all those excluded from education, because of background or ability. The report is motivated by the explicit reference to inclusion in the 2015 Incheon Declaration, and the call to ensure an inclusive and equitable quality education in the formulation of SDG 4, the global goal for education. It reminds us that, no matter what argument may be built to the contrary, we have a moral imperative to ensure every child has a right to an appropriate education of high quality.

Marx and Freud in Latin America Apr 08 2021 This book assesses the untimely relevance of Marx and Freud for Latin America, thinkers alien to the region who became an inspiration to its beleaguered activists, intellectuals, writers and artists during times of political and cultural oppression. Bruno Bosteels presents ten case studies arguing that art and literature—the novel, poetry, theatre, film—more than any militant tract or theoretical essay, can give us a glimpse into Marxism and psychoanalysis, not so much as sciences of history or of the unconscious, respectively, but rather as two intricately related modes of understanding the formation of subjectivity.

A CHRISTIAN FROM EGYPT: LIFE STORY OF A NEUROSURGEON PURSUING THE DREAMS FOR QUINTUPLE CERTIFICATIONS Dec 04 2020 A CHRISTIAN FROM EGYPT LIFE STORY RAMSIS F. GHALY, MD, FACS This is my life story as a Coptic Christian, born and raised in Egypt in an environment of limited opportunities and scarce resources, especially for Christian minorities. Seeking the promise opportunity, I came to the United States nearly 30 years ago as a young man. As I flew westward on the plane, it did not occur to me that I would become a prominent neurosurgeon with a practice in one of the great cities of America. Nor did I anticipate that I would ever be in a position to fight for save lives and fight for patients’ lives, protecting them from the specter of financial greed permeates the health care industry. This book chronicles my journey in America from my early struggles to get past closed doors to my current practice serving the mission set before me with uncompromising zeal and devotion. Eventually I became a prominent American neurosurgeon among the only 4000 active nationwide and the only one nationally and internationally to achieve five board certifications in five acknowledged medical disciplines. My story takes the reader through my first hand experiences through the eight health care systems, and Chicago’s history of neuroscience over the last three decades, providing an in-depth view of the medical practices in the surrounding suburban communities. My book also includes the lessons that I have learned, my personal views and patient testimonials. What I have faced and seen since my plane landed in this country in 1984 is almost inexpressible. It is my sincere wish that others may find hope and inspiration from my story, as well as an understanding of the challenges that the healthcare industry faces today along with my own passion for excellence in neuroscience as I confront them. I owe my success to God, to my cherished parents, my teachers, my mentors and most importantly, my beloved patients.

Spain at War Jan 05 2021 Spain's principal and most devastating war during the 20th century was, unusually for most of Europe, an internal conflict. During the Spanish Civil War of 1936 to 1939 two competing armies – the insurgent and counterrevolutionary Nationalist Army and the Republican Popular Army – engaged in a conflict to impose their version of Spanish identity and the right to shape the country's future. In its aftermath, Francoist Spain remained on a war footing for the duration of the Second World War. In spite of the unabated flood of books on the Spanish Civil War and its consequences, historians of Spain in the 20th century have focused relatively little on the interaction of society and culture, and their roles in wartime mobilization. Spain at War addresses this omission through an examination of individual experiences of conflict and the mobilization of society. This edited volume acknowledges the agency of low-ranking individuals and the impact of their choices upon the historical processes that shaped the conflict and its aftermath. In doing so, this new military history provides a more complex and nuanced understanding of Spain's most intense period of wartime cultural mobilization between the years 1936 to 1944 and challenges traditional political accounts of the period.

The Construction of Democracy Feb 06 2021 How should democracies balance the hopes and constraints of their societies with the architecture of their constitutions and institutions to secure freedom, promote citizenship, and foster prosperity? In *The Construction of Democracy*, leading scholars from seven different countries—and key decision makers from eight—come together to analyze the dimensions of democratic design and draw not only practical but feasible recommendations. Here citizens, politicians, and government officials offer valuable insight into the craft of politics with real examples of success and failures from some of the leading policy makers of our time—including the president of Portugal, former presidents of Brazil and Colombia, and a former prime minister of India. Drawing on the work of the Club of Madrid's Conference on Democratic Transition and Consolidation, the contributors discuss building and sustaining a contemporary democratic state, strengthening pluralism and public participation, designing effective constitutions, confronting economic challenges for new democracies, and controlling corruption. In a rare instance where the expertise of practical-minded scholars is melded with the experience of thoughtful policy makers, this volume offers much-needed insight to others seeking sensible and effective solutions. Contributors: Carlos Blanco, minister for the reform of the state, Venezuela; Fernando Henrique Cardoso, former president of Brazil; Aníbal Cavaco Silva, president of Portugal; Antônio Octávio Cintra, the Research Service of the Brazilian Chamber of Deputies; Rut Diamint, Universidad Torcuato Di Tella, Buenos Aires; Jorge I. Domínguez, Harvard University; Grzegorz Ekiert, Harvard University; César Gaviria, former president of Colombia; Anna Grzymala-Busse, University of Michigan; Inder Kumar Gujral, former prime minister of India; Anthony Jones, the Gorbachev Foundation of North America; Marcelo Barroso Lacombe, the Research Service of the Brazilian Chamber of Deputies; José Luis Méndez, El Colegio de México; Andrew Richards, Instituto Juan March of the Centro de Estudios Avanzados de Ciencias Sociales, Madrid; Susan Rose-Ackerman, Yale University; Richard Simeon, University of Toronto; Luc Turgeon, University of Toronto.

Losing Ground in the Employment Challenge Jul 31 2020 Most developing countries face significant and sometimes dramatic challenges in generating stable jobs that provide reasonable incomes and decent working conditions. For developing countries that have undergone lengthy periods of economic stagnation, these challenges are especially acute, and popular dissatisfaction correspondingly marked. Paraguay is a case in point. It is unlikely that any "employment policy" could lead to a major improvement in the quality of labor market outcomes unless designed and implemented in a sophisticated and coherent way. Such an approach has been infrequent in developing countries in general, and especially so in those that, like Paraguay, also suffer severe institutional weaknesses of governance. Paraguay's past failure in employment creation is mainly the result of a number of structural weaknesses described in this volume. Its current crisis is also the accumulated legacy of over a quarter century of economic stagnation and political failure flowing from those weaknesses. The new reformist administration of President Fernando Lugo has raised hopes that the future might be better than the past. This study aims to contribute to improved policy making by analyzing the source of the problems and providing policy recommendations. The chapters describe the potential contribution of various policy areas in the face of a dauntingly negative track record and identify a number of steps that have to be taken if success is to be achieved. They put into perspective the reforms that have been undertaken to date by the country's previous administration. Paraguay's experience offers insight into the problems faced by other developing countries in today's global economy. The central message is that policy improvements must be made in a number of areas and implemented in a coordinated fashion for there to be any reasonable hope of success.

Handbook of Research on Socio-Cultural and Linguistic Perspectives on Language and Literacy Development Apr 27 2020 The teacher's role is to create opportunities that intrinsically motivate children to externalize their thoughts. Human beings have multiple means of expression: this is powerful when children have the opportunity to have a real voice. The realities of children's experiences in their local communities are powerful resources for the language curriculum and help to create an understanding of the value the languages and cultures of children and teachers bring from a multicultural perspective. Thus, teachers can help children develop their cultural and linguistic identities to promote multiculturalism, multilingualism, and translanguaging so they can thrive in a complex and changing world. The *Handbook of Research on Socio-Cultural and Linguistic Perspectives on Language and Literacy Development* approaches language and literacy development from a socio-cultural and linguistic perspective. This book offers global perspectives on language and literacy from international experts working with both children and educators. It offers readers a diversity of voices and experiences of professionals in the field that can inform their teaching and research. Covering topics such as critical literacy, emotional engagement, and multilingual resources, this major reference work is an indispensable resource for administrators and educators of both K-12 and higher education, pre-service teachers, teacher educators, biblio-therapists, librarians, researchers, and academicians.

The Oxford Handbook of Latino Studies Oct 22 2019 At the beginning of the third decade of the 21st century, the Latino minority, the biggest and fastest growing in the United States, is at a crossroads. Is assimilation taking place in comparable ways to previous immigrant groups? Are the links to the countries of origin being redefined in the age of contested globalism? How are Latinos changing America and how is America changing Latinos? The Oxford Handbook of Latino Studies reflects on these questions, offering a sweeping exploration of Latinas and Latinos' complex experiences in the United States. Edited by leading expert Ian Stavans, the handbook traces the emergence of Latino studies as a vibrant and interdisciplinary field of research starting in the 1980s, assessing the current state of the discipline while suggesting new paths for exploration. With its twenty-three essays and a conversation by established and emerging scholars, the book discusses various aspects of Latino life and history, from literature, popular culture, and music, to religion, philosophy, and language identity. The articles present new interpretations of important themes such as the Chicano Movement, gender and race relations, the changes in demographics, the tension between rural and urban communities, immigration and the US/Mexico border, the legacy of colonialism, and the controversy surrounding Spanglish. The first handbook on Latino Studies, this collection offers a multifaceted and thought-provoking look at how Latinos are redefining the American identity.

The Revolution from Within Oct 02 2020 What does the Cuban Revolution look like "from within?" This volume proposes that scholars and observers of Cuba have too long looked elsewhere—from the United States to the Soviet Union—to write the island's post-1959 history. Drawing on previously unexamined archives, the contributors explore the dynamics of sociopolitical inclusion and exclusion during the Revolution's first two decades. They foreground the experiences of Cubans of all walks of life, from ordinary citizens and bureaucrats to artists and political leaders, in their interactions with and contributions to the emerging revolutionary state. In essays on agrarian reform, the environment, dance, fashion, and more, contributors enrich our understanding of the period beginning with the utopic mobilizations of the early 1960s and ending with the 1980 Mariel boatlift. In so doing, they offer new perspectives on the Revolution that are fundamentally driven by developments on the island. Bringing together new historical research with comparative and methodological reflections on the challenges of writing about the Revolution, *The Revolution from Within* highlights the political stakes attached to Cuban history after 1959. Contributors: Michael J. Bustamante, María A. Cabrera Arús, María del Pilar Díaz Castañón, Ada Ferrer, Alejandro de la Fuente, Reinaldo Funes Monzote, Lillian Guerra, Jennifer L.
