Vom Recht, Rechte zu haben 31 2022 Menschen haben Rechte, allein aufgrund der Tatsache, dass sie Menschen sind – so die Allgemeine Erklärung der Menschenrechte von 1948. Dem widerspricht Hannah Arendt mit ihrem Konzept vom "Recht, Rechte zu haben": Nur als Mitglieder politischer Gemeinschaft, eines Staates, kann eine Person Grundrechte in Anspruch nehmen, hat sie ein Recht auf Bildung, auf Arbeit, Gesundheit, Kultur etc. Arendts Befund ist die Unzulänglichkeit der Menschenrechte als kohärentes theoretisches Konzept für demokratische Politik. Die Autor\_innen aus unterschiedlichen Fachbereichen – darunter Geschichte, Recht, Politik und Literaturwissenschaft – analysieren den Satz von Arendt, kontextualisieren ihn in zeitgenössische Debatten und politische Problemlagen. Arendts Aussage ist heute, in Zeiten sogenannter Flüchtlingskrisen und außerstaatliche Kriege von erschreckender Aktualität und zum Zentrum einer entscheidenden und lebhaften Debatte in Politik und Wissenschaft geworden.

The Right to Have Rights 03 2022 Is it citizenship of a state or status as a human being that confers human rights on a person? If a person is stateless, how, and in what way, do human rights still apply to them? This book addresses these questions in the context of international human rights law and the notion of the 'right to have rights'.

Do Animals Have Rights? Sep 01 2022 In this highly accessible book Alison Hills steers a careful path between often impractical poles of thought. For once, provides a practical and liveable idea of the ethics of animals. Telling the story of how animals have been thought of through human eyes, she argues in particular that we must distinguish between species - all animals are not, in fact, equal.

The Right to Have Rights 02 2022 Five leading thinkers on the concept of 'rights' in an era of rightlessness. Sixty years ago, the political theorist Hannah Arendt, an exiled Jew deprived of her German citizenship, observed that before people can enjoy any of the "inalienable" Rights of Man, there can be any specific rights to education, work, voting, and so on—there must first be such a thing as "the right to have rights." The concept has received little attention at the time, but in our age of mass deportations, Muslim bans, refugee crises, and extra-state war, the phrase has become the subject of a crucial and lively debate. Here five leading thinkers from varied disciplines—including history, law, politics, and literary studies—discuss the concept of rights and the meaning of radical democratic politics today.

Debating the Ethics of Immigration 03 2020 Do states have the right to prevent potential immigrants from crossing their borders, or should they have the freedom to migrate and settle wherever they wish? Christopher Heath Wellman and Phillip Cole develop and defend opposing answers to this timely and important question. Appealing to the right to freedom of association, Wellman contends that legitimate states have broad discretion to restrict potential immigrants, even those who desperately seek to enter. Against this, Cole argues that the commitment to the moral equality of all human beings - which legitimate states can be expected to hold - means national borders must be open: equal respect requires equal access, both to territorial membership; and that the idea of open borders is less radical than it seems when we consider how many territorial and community boundaries are open nature. In addition to engaging with each other's arguments, Wellman and Cole address a range of central questions and prominent positions on this topic. The authors therefore provide a critical overview of the major contributions to the ethics of migration, as well as developing original and provocative positions of their own.

Elinor James Sep 28 2019 This volume makes available for the first time the complete surviving works of the London printer-author Elinor James (c.1645-1719). Uniquely in the history of early modern women, James wrote, printed and distributed more than ninety pamphlets and broadsides addressing political, religious and commercial concerns. Written over a period of 35 years, her works provide us with a running commentary on major national events of a tumultuous period such as the Revolution of 1688, the Union of England and Scotland in 1707, and the Jacobite uprising of 1715-16. During her lifetime, England saw the succession of six different monarchs. James petitioned all of them and claimed to have obtained audiences with three. In 1689 she was gaoled in Newgate prison, accused of disseminating seditious material condemning William III for accepting the English crown. James's texts address a staggeringly broad range of concerns. She petitioned Parliament concerning legislation affecting the trades and petitioned fellow printers concerning labour relations in London printing houses. She petitioned City authorities on issues such as enforcement of bylaws or who to vote for in City and parliamentary elections. It is hoped that by making available all of James's known works this volume will inspire the collective efforts of scholars from many different disciplines to decipher her references to contemporary events, issues and persons, as well as prompting further discoveries of as yet unidentified works.

Fathers Have Rights Too Don 29 2022 Fathers Have Rights Too— .What began as a loving reunion between father and son; becomes an intense custody dispute; including allegations of sexual abuse, child abuse, kidnapping; all which could potentially destroy the dad's life and career. After years of absentee, he's back and ready to be a father. In a bazaar twist of events, the ex-wife conducts an escalating campaign to revoke his rights at any cost. Fathers Have Rights Too, illustrates brutal custody events behind the scenes of divorce and the affects it has on the children and parties involved. It makes you re-think the process and compels the question, "Is it Worth the Sacrifice?"

You Have No Right to Kill: Humanism Diver Dec 12 2020 This book represents the demonized and demised social behaviours in human being since the knowledge war which increased the social and community closeness in human living style and to be civilized. Technology brought us near but kept us away from moral values. Hence this state of humility among humans to be changed to softer humanism. Societies must be based on the ability and moral stability of any country with dominance of moral value. So value based society that is provocative and promote human moral harmony with individual and collective synthesized and synchronized social development is to be called the growth index of potential morality. rigid social binding but flexible rubber band of social kindness and compassionate background of the society. SO LETS CHANGE !!!! NOT TO KILL !!!! WITHOUT RIGHT TO KILL !!!!
