The Silk Road Trap Jul 22 2021 For almost two decades, China has claimed that its expanding economy benefits Europe, stimulating European growth, exports, and employment. But the reality is not so clear-cut. Whilst individual companies may have profited from China's economic rise, unbalanced trade with China has actually cost Europe over 1.4 trillion euros in the last ten years as well as undermining its political influence. China's monumental infrastructural project, the Belt And Road Initiative or New Silk Road as it has come to be known - is set to make this situation even worse. The Silk Road Trap is the first book to expose just how risky this uneven partnership is for Europe. In it, leading expert on Asian affairs Jonathan Holslag, argues that Europe must reduce its reliance on China and work on building a stronger and more sustainable European economic model. By revealing the political aspirations and economic strategy behind the new Silk Road, he lays out its implications for specific European industries, from steel over aircraft to robots. Holslag, though critical of China, does not, however, make the case for confrontational, Trumpian protectionism. Instead, he posits that the new Silk Road need not ensnare Europe; it offers the continent a unique opportunity to transition from a future "made in China" to one that is "made in Europe".

Lao People's Democratic Republic Mar 30 2022 In consultation with the Ministry of Finance (MOF) of Lao PDR, a virtual technical assistance (TA) mission supported by the IMF's Asia and Pacific Department (APD) was conducted during October 4–29, 2021, by the IMF Statistics Department (STA) and the Capacity Development Office in Thailand (CDOT). This ongoing peripatetic capacity development mission was delivered virtually by the CDOT-based LTX with staggered remote meetings. The TA mainly worked with the Fiscal Policy and Law Department (FPLD) and the External Finance and Debt Management Department (EFDMD) on compilation of government finance statistics (GFS) and public sector debt statistics (PSDS) in line with international standards, as the agreed work plan with the authorities in the April/May 2021 TA mission.

Forest Products Annual Market Review 2016-2017 Jun 01 2022 This publication provides a comprehensive analysis of markets in the UNECE region and reports on the main market influences outside the UNECE region. It covers the range of products from the forest to the end-user: from roundwood and primary processed products to value-added and housing. Statistics-based chapters analyse the markets for wood raw materials, sawn softwood, sawn hardwood, wood-based panels, paper, paperboard and woodpulp. Other chapters analyse policies, trade barriers affecting forest products, and markets for wood energy. The Review highlights the role of sustainable forest products in international markets. It also analyses the effects of the current economic situation on forest products markets.

[Refugees and Migrants in Law and Policy](#) Jan 16 2021 Refugees and migration are not a new story in the history of humankind, but in the last few years, against a backdrop of huge numbers of migrants, especially from war-torn countries, they have again been a topic of intensive and contentious discussion in politics, the media and scientific publications. Two United Nations framework declarations on the sustainable development goals and on refugees and migrants adopted in 2016 have prompted the editors – who have a background in international criminology – to invite 60 contributors from different countries to contribute their expertise on civic education aspects of the refugee and migrant crisis in the Global North and South. Comprising 35 articles, this book presents an overview of the interdisciplinary issues involved in irregular migration around

the world. It is intended for educationists, educators, diplomats, those working in mass media, decision-makers, criminologists and other specialists faced with questions involving refugees and migrants as well as those interested in improving the prospects of orderly, safe, regular and responsible migration in the context of promoting peaceful and inclusive societies for sustainable development. Rather than a timeline for migration policies based on “now”, with states focusing on “stopping migration now”, “sending back migrants now” or “bringing in technicians or low-skilled migrant workers now”, there should be a long-term strategy for multicultural integration and economic assimilation. This book, prefaced by François Crépeau, the United Nations Special Rapporteur on the human rights of migrants, and William Lacy Swing, Director-General of the International Organization for Migration, addresses the question of the rights and responsibilities involved in migration from the academic and practical perspectives of experts in the field of social sciences and welfare, and charts the way forward to 2030 and beyond, and also beyond the paradigm of political correctness.

Towards a Sustainable Economy Feb 03 2020 The Sustainable Development Goals (SDGs) were introduced by the United Nations (UN) for all member nations with a total of 17 goals and 169 targets to be achieved between 2016 and 2030. The recent pandemic has presented more challenges to achieving the UN’s SDGs. This book examines Bangladesh’s ascendancy in socio-economic terms and the prospects of Bangladesh overcoming the challenges to become a higher-middle-income nation by 2030. This book traces the transformation of Bangladesh from 1996 through 2020 and examines various factors contributing to its success from rural economy, external support, manufacturing, and structural transformation to energy consumption. This book also looks at the challenges and opportunities for Bangladesh as the Fourth Industrial Revolution unfolds and as climate change, to which Bangladesh is highly vulnerable, escalates. This book will be a useful reference document for those who are interested in gaining more insights into inclusive growth and sustainable development from the case study of Bangladesh.

Minecraft Annual 2017 Sep 04 2022 The official Minecraft Annual 2017 is a celebration of the game and its community. Inside you'll find challenges set by the Mojang team as well as famous YouTubers like Stampy Cat and FyreUK. There are build battle ideas, survival strategies and challenges, Story Mode and Realms features and step-by-step guides to recreate builds from your favourite YouTubers' worlds. And you can read about the ways in which Minecraft has changed the world, from the charitable Block-by-Block foundation, to the epic MineCon event. With all this and more, Minecraft fans will be enjoying the official Annual well into 2017.

Expectations and Aspirations Nov 01 2019 Education, which has been at the heart of the Middle East and North Africa (MENA) region’s history and civilizations for centuries, has a large untapped potential to contribute to human capital, well-being, and wealth. The region has invested heavily in education for decades, but it has not been able to reap the benefits of its investments. Despite a series of reforms, MENA has remained stuck in a low-learning, low-skills level. *Expectations and Aspirations: A New Framework for Education in the Middle East and North Africa* identifies four key sets of tensions that are holding back education in the region: credentials and skills, discipline and inquiry, control and autonomy, and tradition and modernity. These tensions are shaped by society and are reflected in classrooms. If they are not addressed, MENA will continue to operate at a level below its potential. This report outlines a new framework with a three-pronged approach that can help address these tensions and unleash the potential of education in MENA: • A concerted push for learning that starts early for all children regardless of background, with qualified and motivated educators, and that leverages technology, uses modern approaches, and monitors learning outcomes • A stronger pull for skills by all stakeholders in the labor market and society that involves coordinated multisystem reforms within and beyond the education system • A new pact for education at the national level with a unified vision, shared responsibilities, and accountabilities. Education is not just the responsibility of the education system—it is everyone’s business. The push, pull, and pact framework offers an opportunity for MENA to move forward to reclaim its heritage of a learned region and to meet the expectations and aspirations of its people. The current situation in MENA requires a renewed focus on education, not just as a national priority for economic growth and social development, but as a national emergency for stability, peace, and prosperity.

The Oxford Handbook of China Innovation Jun 08 2020 "The Oxford Handbook of China Innovation provides a contemporary and authoritative view of the role of innovation in China's extraordinary emergence. The Handbook consists of chapters written by over sixty experts from universities and research institutions worldwide, who describe and analyze this phenomenon with criticism, discussion of policy issues, and views about further development. It focuses on the microeconomic factors in China's growth, of which the critical force has been the steady drive for innovation. It identifies the many factors instrumental in the development of innovation and evaluates those that are specific to China's context, and those applicable to other nations. The scope of topics is comprehensive, covering China's development policies, the place of innovation in national priorities, the components of the national innovation system and the resources required for their effective deployment. These include the institutions and policies that provide incentives and support to technological development, including people, financial mechanisms, private ownership, rule of law and culture. The issue of foreign influence is also addressed, including the evolution of policy towards inward foreign direct investment and knowledge transfer and China's goals for outward foreign direct investment. The chapters include discussion of the capabilities and strategies of

world-class Chinese innovators, together with emerging issues such as environmental remediation, green energy, digital innovation, open innovation, mass innovation and China's future science and technology policy. As China emerges as a contender for global leadership in many fields, the Handbook provides a foundation for informed conjecture regarding the challenges ahead"--

Corruption Prevention and Governance in Hong Kong Sep 11 2020 This book analyses central questions in the continuing debate about success factors in corruption prevention and the efficacy and value of anti-corruption agencies (ACAs). How do ACAs become valued within a polity? What challenges must they overcome? What conditions account for their success and failure? What contributions can corruption prevention make to good governance? And in what areas might they have little or no effect on the quality of governance? With these questions in mind, the authors examine the experience of Hong Kong's Independent Commission Against Corruption (ICAC), widely regarded as one of the few successful examples of an ACA. The book is grounded in an analysis of ICAC documents and surveys, the authors' survey of social attitudes towards corruption in Hong Kong, and interviews with former officials.

Jurisdictional Exceptionalisms Aug 30 2019 Examines a complex global legal problem to demonstrate a compelling method for comparative legal, cultural, and social understanding.

European Union Agencies as Global Actors Mar 18 2021 This book examines a largely unexplored dimension of the European agencies, namely their role in EU external relations and on the international plane. International cooperation has become a salient feature of EU agencies triggering important legal questions regarding the scope and limits of their international dimension, the nature and effects of their international cooperation instruments, their status within the EU and on the global level, and leading potentially to tensions between EU law and international law. This book fills the existing knowledge gap by scrutinizing the international cooperation legal framework and practice of EU agencies, including their mandate, tasks and instruments, together with their legal status as actors with a global dimension. It sets out a general legal-analytical framework which combines legal parameters from EU and international law to assess EU agencies as global actors, and examines in detail three case studies on carefully selected agencies to shed light on the complexities of EU agencies' daily international cooperation.

Small-Scale Fisheries in Europe: Status, Resilience and Governance Apr 06 2020 This book offers a comprehensive account of the status and dynamics of people participating in the small-scale fisheries (SSF) of Europe. It covers the situation of SSF in 25 coastal countries, thereby providing a portrait of almost every coastal country on the continent and analyzing the recent evolution of the sector. Small-scale fisheries are argued to be extremely important in Europe, as they provide employment and welfare, while increasing food sovereignty and maintaining communities in coastal areas. The recent worldwide focus on SSF derives from their environmental sustainability, which distinguishes many of their activities from those of large-scale fisheries. This book analyses the diversity of SSF and shows how fishing communities have sometimes developed successful governing models, demonstrating social and economic resilience. While the book emphasizes the strengths of SSF and the synergies that occur with other marine sectors, it also presents cases of failure, in which collective action and policy have actually contributed to a weakening of the sector. In this context, the book shows how governmental policies toward SSF vary considerably from country to country, in a way that is not entirely consistent with European policies.

[The Official LEGO Star Wars Annual 2017](#) Jul 02 2022 Discover a galaxy of adventures with Lego ♦ Star Wars™! And it comes with a fantastic Lego ♦ Star Wars™ minifigure! Lego ♦ Star Wars™ is the best-selling Lego ♦ theme ever!

America's Covert Border War Dec 03 2019 This thirteen-year work of journalism finally settles one of the nation's most controversial and politically powerful ideas about the American southern border: that Islamic jihadists might infiltrate it and commit terrorist acts. Perhaps no other idea about the border has sown more conflict, claims, counterclaims, rebuttals, and false narratives on all sides. This book provides a first comprehensive neutral baseline of truth about the threat, goring oxen on both sides of the partisan divide. It documents an ambitious and intrigue-laden covert American war on terror effort that stretches from the Mexican border to the tip of South America. Its existence to protect the homeland from terrorist infiltration was often regarded as entirely imagined—until migrating jihadists recently started killing and wounding hundreds in Europe. Americans concerned by unchecked global migration, porous borders, and national security also may feel surprised to learn that thousands of long-haul migrants from the Islamic world similarly breach the US-Mexican border each year—among them hardened jihadists—despite media insistence that none of this traffic exists. It does. The secret American campaign has prevented land border infiltration attack on US soil, safeguarding an unknowing nation—so far—from Europe's bloody ongoing experience. But this geographically sprawling effort is suffering from denialism and neglect at America's peril...just

as Europe was before its calamity. How much longer can these programs keep America safe without the public recognition that they exist and the needed care and attention that acknowledgment would bring? This book is much more than revelation and complaint; it provides solutions to better protect the homeland from this chronically misunderstood border threat.

NATO and the Gulf Countries Feb 14 2021 This book analyses the fifteen-year-long strategic partnership between NATO and the Gulf Cooperation Council (GCC). The book goes on to address several key questions raised in the year since the inception of the Istanbul Cooperation Initiative (ICI): Is the initiative a framework for consultation on Gulf and regional security issues? Is it a security initiative or a defensive one? Even more importantly, how was this initiative developed? Was there a mutual eagerness, on the part of NATO or that of the four Gulf States, to develop it? Is it possible for the initiative to be redeveloped and have other dimensions and outlooks in the future? Throughout the book, the author provides a comprehensive understanding and assessment of NATO's policies and their impact on the security of the Arab Gulf region.

Peppa Pig: Official Annual 2017 Oct 05 2022

Militia Order in Afghanistan Aug 11 2020 This book offers a new insight into when and why paramilitary groups in Afghanistan engage in protective or predatory behavior against the civilians they purportedly defend. In Afghanistan's counterinsurgency environment, America leaned on militias to provide order and stabilize communities cut off from weak central government institutions. However, the lucrative market of protection challenged militia loyalty, as many engaged in banditry, vendettas, and predation. This book examines the varying militia experiments in Afghanistan from 2001 to 2020 and their outcomes through three sub-national case studies. It argues that successful militia experiments in Afghanistan involved inclusion of local orders, where communities had well-established social structures and accountability mechanisms in place, and state patrons relied upon those structures as a restraint against militia behavior. Complementary management ensured patrons leaned on communities for strong accountability systems. But such environments were far from the norm. When patrons ignored community controls, militias preyed on civilians as they monopolized the market of protection. This book adds to the rich literature on the U.S. experience in Afghanistan, but differs by focusing on the interplay between states, communities, and militias. This book will be of much interest to students of military and strategic studies, Asian politics, security studies and International Relations.

LEGO Official Annual 2017 Aug 03 2022 Packed with puzzles, activities, super stories and much more, this LEGO annual is perfect for LEGO fans everywhere!

Strategy-Making in the EU Jan 04 2020 This book provides a detailed analysis of the policy-making processes of EU strategies in foreign and security policy and external action. It uses the European Security Strategy and the EU Global Strategy to assess their policy-making dynamics both before and after the Lisbon Treaty. Inter-institutional relations in strategy-making are put into the context of current debates in European integration, questioning the assumption that the EU is a body increasingly ruled by intergovernmentalism - as reflected by the new intergovernmentalism literature. The book also provides a categorisation of EU strategies and considers them as policy-inspiration documents, acting as frameworks for policy-making. This reading of strategies lies behind the analysis of the policy-making processes of the ESS and the EUGS, unpacked into four phases: agenda-setting, policy formulation, policy output and implementation. By looking at the shifting policy-making dynamics from foreign and security policy to external action, the author sheds light on the current shape of EU integration.

The 2020 Yearbook of the Digital Ethics Lab Jul 10 2020 This annual edited volume presents an overview of cutting-edge research areas within digital ethics as defined by the Digital Ethics Lab of the University of Oxford. It identifies new challenges and opportunities of influence in setting the research agenda in the field. The 2020 edition of the yearbook presents research on the following topics: governing digital health, visualising governance, the digital afterlife, the possibility of an AI winter, the limits of design theory in philosophy, cyberwarfare, ethics of online behaviour change, governance of AI, trust in AI, and Emotional Self-Awareness as a Digital Literacy. This book appeals to students, researchers and professionals in the field.

The Palgrave Handbook of Development Cooperation for Achieving the 2030 Agenda Jul 30 2019 This open access handbook analyses the role of development cooperation in achieving the 2030 Agenda in a global context of 'contested cooperation'. Development actors, including governments providing aid or South-South Cooperation, developing countries, and non-governmental actors (civil society, philanthropy, and businesses) constantly challenge underlying narratives and norms of development. The book explores how reconciling these differences fosters achievement of the Sustainable Development Goals. Sachin Chaturvedi is Director General at the Research and Information System for Developing Countries (RIS), a New Delhi, India-based think tank. Heiner Janus is a researcher in the Inter- and Transnational Cooperation programme at the German Development Institute. Stephan Klingebiel is Chair of the Inter- and Transnational Cooperation programme at the German Development Institute and Senior Lecturer at the University of Marburg, Germany. Xiaoyun Li is Chair Professor at China Agricultural University and Honorary Dean of the China Institute for South-South Cooperation in Agriculture. Prof. Li is the Chair of the Network of Southern Think Tanks and Chair of the China International Development Research Network. André de Mello e Souza is a researcher at the Institute for Applied Economic Research (IPEA), a Brazilian governmental think tank. Elizabeth Sidiropoulos is Chief Executive of the South African Institute of International Affairs. She has co-edited *Development Cooperation and Emerging Powers: New Partners or Old Patterns* (2012) and *Institutional Architecture and Development: Responses from Emerging Powers* (2015). Dorothea Wehrmann is a researcher in the Inter- and Transnational Cooperation programme at the German Development Institute.

Penology Feb 26 2022 This textbook considers the full breadth of the criminal justice system, going beyond prisons to cover other punishments such as out-of-court disposals and community penalties, as well as issues around rehabilitation and reintegration. It offers a holistic and contemporary account of the penal system in England and Wales. Helping students to understanding the ever-changing environment of penal policy and practice, this book not only provides a strong foundation in penal theory but also has a strong focus on actual practice. Author Karen Harrison draws on a number of interviews with people who work within or for agencies associated with the penal system, as well as accounts of prison visits that build a picture of current prison life. Packed with helpful features, *Penology* includes Spotlight profiles of the penal system in countries across the globe. The text also covers a range of specific offenders, examining not just white adult men but women offenders, children and young people and BAME groups. This is essential reading for students in England and Wales studying penology, punishment and prisons at undergraduate or postgraduate level. It's also offers important insights for students of criminology, criminal justice, law and social science.

Pensions at a Glance 2017 OECD and G20 Indicators Dec 15 2020 The 2017 edition of *Pensions at a Glance* highlights the pension reforms undertaken by OECD countries over the last two years. Moreover, one special chapter focuses on flexible retirement options in OECD countries and discusses people's preferences regarding flexible retirement.

Superbike 2017/2018 Mar 06 2020 The 2017 championship is analyzed by the authors of this classic official annual. First published to informing the public on one of the most compelling and fascinating world championships. Among the new elements for this season is the starting grid of race two, which has been revolutionized, with the winner of the Saturday race starting from ninth place. But the variation of the technical regulation is marginal, apart from the confirmation once more of the various other championships, which were tested over many seasons and reserved for the 1000 and 600 cc, the new entry of the small SuperSport 300 stands out. The work of Fabrizio Porrozzini, one of the best photographers of the SBK World Championship, is displayed, along with stories from the authors.

The Future of Diplomacy After COVID-19 Nov 25 2021 This book considers the impact of the COVID-19 pandemic on international diplomacy, and the challenges and opportunities it presents for the future of multilateralism. Global cooperation and solidarity are central to responding to and mitigating the health and socio-economic effects of the COVID-19 pandemic, yet, to many, this was slow to mobilize and lacking in political leadership. This book takes a practical look at the lessons learned from the period spanning the World Health Organization's first declaration of a public health emergency of international concern in January 2020, to the commemoration of the 75th Anniversary of the United Nations in October 2020. This timespan covers a critical period in which to consider key areas of diplomacy, covering a range of tools of global cooperation: multilateral diplomacy, the rule of law, sustainable development, economics and financing, digital governance, and peace and security. Each chapter in this book introduces readers to the current situation in their respective areas, followed by a constructive consideration of lessons learned from the pandemic's impact on that field, and key recommendations for the future. The practical focus and future orientation is particularly important as the book injects pragmatism and guidance that will facilitate 'building back better' in COVID response plans, while creating space for continued focus on global commitments around sustainable development and the future of the UN. Written by a team of authors who have worked directly in International Public Policy and the establishment of global agendas at the United Nations, this book will be essential reading for professionals and policymakers involved in diplomatic roles, as well as students and scholars interested in the future of

international relations, global governance and sustainable development.

[The State of Open Data](#) Oct 13 2020 It's been ten years since open data first broke onto the global stage. Over the past decade, thousands of programmes and projects around the world have worked to open data and use it to address a myriad of social and economic challenges. Meanwhile, issues related to data rights and privacy have moved to the centre of public and political discourse. As the open data movement enters a new phase in its evolution, shifting to target real-world problems and embed open data thinking into other existing or emerging communities of practice, big questions still remain. How will open data initiatives respond to new concerns about privacy, inclusion, and artificial intelligence? And what can we learn from the last decade in order to deliver impact where it is most needed? The State of Open Data brings together over 60 authors from around the world to address these questions and to take stock of the real progress made to date across sectors and around the world, uncovering the issues that will shape the future of open data in the years to come.
