Resurrection of the Animals Jan 28 2020 The Resurrection of the Animals explores the trinity of the natural world, the humans adrift in it, and the animals that accompany them. Although each of the five sections centers on a particular theme, motifs of change, loss, cycles, and transformation thread through the collection, weaving the parts into a unified whole. These poems suggest that memory, association, and interaction with the tangible world can revive a part of the self that has slipped below the depths of consciousness.

Settling a Dispute Aug 05 2020 Family squabbles and fights over real estate were no less complex in sixth-century Egypt than they are in the modern world. In this unusual volume Peter van Minnen and Traianos Gagos investigate just such a struggle, as described in a two-part papyrus some five feet long. Composed by the ancient equivalent of a notary public, the papyrus describes the outcome (after mediation) of a family dispute about valuable real estate. Traianos Gagos and Peter van Minnen offer an English translation and a clear Greek text of the two papyrus fragments, as well as an important discussion of the nature of such mediation, its role in contemporary society, a consideration of the town of Aphrodito and its social and political elite, as well as many other topics that spring from this kind of document. The use of methodologies from modern jurisprudence and anthropology together with an accessible style of writing mean that *Settling a Dispute* will be of interest to persons in many fields, including history, Classics, and Near Eastern studies. All Greek is translated, and an extensive commentary offers much helpful information on the text. Traianos Gagos is Associate Archivist of the University of Michigan's papyri collection. Peter van Minnen is Senior Research Associate in the papyri collection at Duke University.

Greetings from Cutler County May 02 2020 Set on the banks of Lake Michigan, these sometimes humorous stories that explore the common triumphs and tragedies of coming of age are inseparable from the stark shoreline, cavernous woods,

and vast inland lakes that shape life in northern Michigan-- and create a landscape as rugged and dramatic as youth itself. **Mysterium** Aug 24 2019 Awakening in a strange world of repression, rationing, and fear, the citizens of small Michigan town Two Rivers, victims of a mysterious government plot, band together in a dangerous quest to discover what has gone wrong. Rhineland Radicals Sep 25 2019 This major interpretation of the Revolution of 1848-1849 in Germany stresses its character as a mass political phenomenon. Building skillfully on the theme of the interaction of self-conscious radicalism and spontaneous popular movements, Jonathan Sperber analyzes the social and religious antagonisms of pre-1848 German society and shows how they were politicized by the democratic political opposition.

Basic Interests Feb 08 2021 A generation ago, scholars saw interest groups as the single most important element in the American political system. Today, political scientists are more likely to see groups as a marginal influence compared to institutions such as Congress, the presidency, and the judiciary. Frank Baumgartner and Beth Leech show that scholars have veered from one extreme to another not because of changes in the political system, but because of

changes in political science. They review hundreds of books and articles about interest groups from the 1940s to today; examine the methodological and conceptual problems that have beset the field; and suggest research strategies to return interest-group studies to a position of greater relevance. The authors begin by explaining how the group approach to politics became dominant forty years ago in reaction to the constitutional-legal approach that preceded it. They show how it fell into decline in the 1970s as scholars ignored the impact of groups on government to focus on more quantifiable but narrower subjects, such as collective-action dilemmas and the dynamics of recruitment. As a result, despite intense research activity, we still know very little about how groups influence day-to-day governing.

Baumgartner and Leech argue that scholars need to develop a more coherent set of research questions, focus on large-scale studies, and pay more attention to the context of group behavior. Their book will give new impetus and direction to a field that has been in the academic wilderness too long.

The Development of Higher Education and Social

Change Oct 19 2021 Begun more than a decade ago while their author taught at the Ethiopian National University, this study examines the development of the institutions of higher education and the roles they played in transforming traditional Ethiopian society. Wagaw sets out to prove that, although other modernizing institutions of learning may contribute significantly to social and economic change, institutions of higher education and their students already

have effected profound revolution and proven indispensable to the established order. His study argues that Ethiopian institutions of higher education were germane to the emerging society. They led Ethiopia down an often unpeaceful path from its oppressively traditional past toward progress and enlightenment.

A Tennyson Companion Mar 12 2021 Though it gives separate treatment to genres such as idylls, epistolary poems, and popular dramatic monologues, this major assessment of Tennyson's work is broadly chronological. His variety of interest and the excellence of his later poetry are emphasized (most of the significant contributions to Idylls of the King belong to the final period of its development). Observing due proportion as far as possible, this perceptive and unusually comprehensive survey assesses the literary merits of Tennyson and the modern significance of his ideas. Its value is enhanced by a detailed biographical introduction and a generous selection of illustrations.

The Theater and Cinema of Buster Keaton Nov 27 2019 Famous for their stunts, gags, and images, Buster Keaton's silent films have enticed everyone from Hollywood movie fans to the surrealists, such as Dalí and Buñuel. Here Robert Knopf offers an unprecedented look at the wide-ranging appeal of Keaton's genius, considering his vaudeville roots and his ability to integrate this aesthetic into the techniques of classical Hollywood cinema in the 1920s. When young Buster was being hurled about the stage by his comically irate father in the family's vaudeville act, *The Three Keatons*, he was perfecting his acrobatic skills, timing, visual humor, and trademark "stone face." As Knopf demonstrates, such

theatrics would serve Keaton well as a film director and star. By isolating elements of vaudeville within works that have previously been considered "classical," Knopf reevaluates Keaton's films and how they function. The book combines vivid visual descriptions and illustrations that enable us to see Keaton at work staging his memorable images and gags, such as a three-story wall collapsing on him (*Steamboat Bill, Jr.*, 1928) and an avalanche of boulders chasing him down a mountainside (*Seven Chances*, 1925). Knopf explains how Keaton's stunts and gags served as fanciful departures from his films' storylines and how they nonetheless reinforced a strange sense of reality, that of a machine-like world with a mind of its own. In comparison to Chaplin and Lloyd, Keaton made more elaborate use of natural locations. The scene in *The Navigator*, for example, where Buster brandishes a swordfish to fend off another swordfish derives much of its power from actually being shot under water. Such "hyper-literalism" was but one element of Keaton's films that inspired the surrealists. Exploring Keaton's influence on Salvador Dalí, Luis Buñuel, Federico García Lorca, and Robert Desnos, Knopf suggests that Keaton's achievement extends beyond Hollywood into the avant-garde. The book concludes with an examination of Keaton's late-career performances in Gerald Potterton's *The Railrodder* and Samuel Beckett's *Film*, and locates his legacy in the work of Jackie Chan, Blue Man Group, and Bill Irwin.

The Foundation of the Peabody Tradition Oct 07 2020 The

Peabody Education Fund, established in 1867 with a two million dollar endowment from philanthropist George Peabody, became a major force in the reestablishment of southern education after the Civil War. This study attempts to illuminate the aspirations and work of the Peabody Education Fund during the late nineteenth century. The focus of the book is the work of Peabody Normal College, the predecessor of George Peabody College. Although the Peabody Fund engaged in a number of educational endeavors, it ultimately made the training of teachers its main emphasis for assisting southern education. In refining this effort, the Fund adopted Peabody College as its central normal for the entire South and the lion's share of its revenue went to this institution. In fulfilling its role, Peabody College developed a respected program, attracted a highly qualified faculty for the time, drew students broadly from the southern region, and sent graduates throughout the South and beyond imbued with the Peabody tradition.

Irish in Michigan Jan 10 2021 Irish immigration to the United States can be divided into five general periods, from 1640 to the present: the colonial, prestarvation, great starvation, post-starvation, and post- independence periods. Immigration to the Great Lakes region and, more specifically, to Michigan was differentially influenced during each of these times. The oppressive historical roots of the Irish in both Ireland and nineteenth century America are important to understand in gaining an appreciation for their concern with socioeconomic status. The Irish first entered the Great Lakes by way of the Ohio River and Appalachian passes, spreading north along the expanding frontier. After

the War of 1812, the Irish were heavily represented in frontier military garrisons. Many Irish moved into the Detroit metropolitan area as well as to farming areas throughout Michigan. In the 1840s, a number of Irish began fishing in the waters off Beaver Island, Mackinac Island, Bay City, Saginaw, and Alpena. From 1853 to 1854, Irish emigrants from the Great Starvation dug the Ste. Marie Canal while others dug canals in Grand Rapids and Saginaw. Irish nationalism in both Michigan and the United States has been closely linked with the labor movement in which Irish Americans were among the earliest organizers and leaders. Irish American nationalism forced the Irish regardless of their local Irish origins to assume a larger Irish identity. Irish Americans have a long history of involvement in the struggle for Irish Freedom dating from the 1840s. As Patrick Ford, editor of Irish World has said, America led the Irish from the "littleness of countyism into a broad feeling of nationalism." **University of Michigan Statistical Reference Book Jun 26 2022**

The Rise of the Chinese Empire: Nation, state, & imperialism in early China, ca. 1600 B.C.-A.D. 8 Feb 29 2020 Chun-shu Chang uses newfound documents to analyze the ways in which political, institutional, social, economic, military, religious, and thought systems developed and changed in the critical period from early China to the Han empire (ca. 1600 B.C. - A.D. 220). In addition to exploring the formation and growth of the Chinese empire and its impact on early nation-building and later territorial

expansion, Chang also provides insights into the life and character of critical historical figures such as the First Emperor (221- 210 B.C.) of the Ch'in and Wu-ti (141- 87 B.C.) of the Han, who were the principal agents in redefining China and its relationships with other parts of Asia. As never before, Chang's study enables an understanding of the origins and development of the concepts of state, nation, nationalism, imperialism, ethnicity, and Chineseness in ancient and early Imperial China, offering the first systematic reconstruction of the history of Chinese acquisition and colonization.

Approaching the Center Apr 12 2021 Poetry. Cultural Writings. "Myronn Hardy is a poet of the world, universal in the truest sense. He brings [to us] the plazas of Havana, the villages of Madagascar, a tin schoolhouse in Soweto, an ancient wall in Rome scarred with racist graffiti. Hardy is sensitive to suffering and defiance of suffering all around him. The poet awakens ghosts, invoking Hughes and Lorca, two voices that resonate throughout the poems. Just as the poet spreads a map across a picnic table in Arkansas, showing his grandparents the "ghost lands" of Africa they have forgotten, so he maps a world of poetry for the rest of us, drawing a line from Soweto to Little Rock" - Martin Espada.
