Tradition and Transition in Southern Africa Sep 03 2022 This volume brings together many of the most interesting anthropologists writing on the current situation in South Africa. Initially conceived as a tribute to the work of Philip Mayer, the author of *Townsmen and Tribesmen*, the volume continues a tradition of digging into the interstices of South African society at the folk, tribal, and national levels. Each chapter examines the myriad ways in which tradition is a critical factor for those who must cope with the trauma of social and economic transition. This theme, central to the work of Philip and Iona Mayer, allows the reader to probe the core issues of South Africa and provide a theoretical structure for the study of other societies in similar states of transition to modernity.

History from South Africa Jun 19 2021 More starkly than any other contemporary social conflict, the crisis in South Africa highlights the complexities and conflicts in race, gender, class, and nation. These original articles, most of which were written by South African authors, are from a special issue of the *Radical History Review*, published in Spring 1990, that mapped the development of interpretations of the South African past that depart radically from the official history. The articles range from the politics of black movements in the nineteenth and twentieth centuries to studies of film, television, and theater as reflections of modern social conflict. *History from South Africa* is presented in two main sections: discussions of the historiography of South Africa from the viewpoint of those rewriting it with a radical outlook; and investigations into popular history and popular culture—the production and reception of history in the public realm. In addition, two photo essays dramatize this history visually; maps and a chronology complete the presentation. The book provides a fresh look at major issues in South African social and labor history and popular culture, and focuses on the role of historians in creating and interacting with a popular movement of resistance and social change.

Globalization, Negotiation, and the Failure of Transformation in South Africa Dec 02 2019 The book explains the social forces, forms of consciousness and structural constraints that undermined Apartheid, preserved national unity and yet, later constrained democratic sovereignty, as the imperatives of global markets clashed

with the prior aspirations of the democratic revolution.

Cape Radicals Jan 03 2020 The history of a radical group of intellectuals who founded the New Era Fellowship, which shaped human rights precedents and social justice policy in South Africa In 1937 a group of young Capetonians, socialist intellectuals from the Workers' Party of South Africa, embarked on a project they called the New Era Fellowship (NEF). In doing so they sought to disrupt and challenge not only prevailing political narratives but the very premises - class and 'race' - on which they were based. In different forums - public debates, lectures, study circles and cultural events - the seeds of radical thinking were planted, nurtured and brought to full flower. Taking a position of non-collaboration and non-racialism, the NEF played a vital role in challenging society's responses to events ranging from the problem of taking up arms during the Second World War for an empire intent on stripping people of colour of their human rights to the Hertzog Bills, which foreshadowed apartheid in all its ruthless effectiveness. In subsequent narratives of liberation their significance has been overlooked, even disparaged, and has never been fully understood and acknowledged. By shining a contemporary light on the NEF and locating its contribution in current sociological and political discourse, educationist Crain Soudien shows how its members were at the forefront of redefining the debate about social difference in a racially divided society.

Christian and African Paradigms of Reconciliation in South Africa Jul 29 2019 This study seeks to compare paradigms of reconciliation in African tradition (including African indigenous religion and culture) and Christianity, in order to enhance the reconciliation process in South Africa. The aim is to enable and promote dialogue between African tradition and Christian tradition, with special reference to the reconciliation paradigms they offer. In order to accomplish this, the first step taken is to establish what African tradition has to offer in terms of reconciliation resources. The next step is to establish what the Christian faith tradition has to offer in terms of reconciliation paradigms. After having elaborated on certain reconciliation paradigms lodged in both African tradition and Christianity, the next step is to explore ways in which these paradigms interact. This study seeks to highlight points of agreement and connection between the paradigms of reconciliation provided by African tradition and Christian tradition. Moreover, it seeks to illustrate that the two cultural and religious traditions could interact fruitfully for the benefit of South African society.

The Dialectical Tradition in South Africa Dec 26 2021 This book brings into view the most enduring and distinctive philosophical current in South African history—one often obscured or patronized as Afrikaner liberalism. It traces this current of thought from nineteenth-century disputes over Dutch liberal theology through Stellenbosch existentialism to the prison writings of Breyten Breytenbach, and examines related themes in the work of Olive Schreiner, M. K. Gandhi, and Richard Turner. At the core of this tradition is a defence of free speech in its classical sense, as a virtue necessary for a good society, rather than in its modern liberal sense as an individual right. Out of this defence of free speech, conducted in the face of charges of heresy, treason, and immorality, a range of philosophical conceptions developed—of the self constituted in dialogue with others, of freedom as transcendence of the given, and of a dialectical movement of consciousness as it is educated through debate and action. This study shows the Socratic commitment to "following the argument where it leads," sustained and developed in the storm and stress of a peculiar modernity.

Traditional South African Cooking Oct 24 2021 A collection of well-known South African recipes that will enable the modern cook to continue the tradition and produce the same delicious meals that our ancestors used to enjoy

Tradition, Culture and Development in Africa Nov 24 2021 The fact that Africa continues to lag behind all regions of the world on every indicator of development is hardly contentious. However, there is fierce debate on why this should be the case, despite national and international efforts to reverse this situation. While

this book does not attempt to answer this question per se, it addresses a largely ignored, but important issue, which might provide some insights into the matter. This issue is the link between culture/tradition and socio-economic development in Africa. By weaving a common thread through these concepts, this book breaks new ground in the discourse on development. It highlights the differences between Euro-centric culture, which is rooted in capitalist ideology and Protestant ethic, and traditional African culture, where concepts such as capital accumulation, entrepreneurial attitudes and material wealth are not of top priority. In doing so, it dispels popular myths, stereotypes and distortions, as well as discounting misleading accounts about major aspects of African culture and traditional practices.

The South Africa Reader Aug 29 2019 The South Africa Reader is an extraordinarily rich guide to the history, culture, and politics of South Africa. With more than eighty absorbing selections, the Reader provides many perspectives on the country's diverse peoples, its first two decades as a democracy, and the forces that have shaped its history and continue to pose challenges to its future, particularly violence, inequality, and racial discrimination. Among the selections are folktales passed down through the centuries, statements by seventeenth-century Dutch colonists, the songs of mine workers, a widow's testimony before the Truth and Reconciliation Commission, and a photo essay featuring the acclaimed work of Santu Mofokeng. Cartoons, songs, and fiction are juxtaposed with iconic documents, such as "The Freedom Charter" adopted in 1955 by the African National Congress and its allies and Nelson Mandela's "Statement from the Dock" in 1964. Cacophonous voices—those of slaves and indentured workers, African chiefs and kings, presidents and revolutionaries—invite readers into ongoing debates about South Africa's past and present and what exactly it means to be South African.

Relocations: Reading Culture in South Africa brings together a selection of these lectures by world-renowned artists, writers and thinkers in the form of essays, for the benefit of a wider readership, with a contemporary design which plays with words. The authors range from novelists André Brink and Imraan Coovadia (one of the collection's editors), to poets Gabeba Baderoon and Rustum Kozain, to artist William Kentridge and social activist Zackie Achmat. The topics are as wide as Don Quixote, Marx and Lincoln, trout fishing, Hamlet, the 19th-century Russian writer Gogol and Nabokov's novel Lolita. Today's readers are increasingly interested in finding new ways to understand and live with great texts and the world of ideas. Books like this demonstrate that thinking about these texts does not have to be an inaccessibly academic pursuit.

The God-Given Land. Religious perspectives on land reform in South Africa Nov 12 2020

South Africa - Culture Smart! Nov 05 2022 South Africa has been described as "A World in One Country" and a "Rainbow Nation." Its landscape ranges from miles of glorious beaches fringing the coastal plains to the inland desert of the Karoo, the sweeping grasslands of the Highveld plateau, the rugged peaks of the Drakensberg, and the subtropical bush of the Lowveld. Its ethnic makeup is equally varied. There are eleven official languages, nine major black African tribes, two major white tribes, and a host of other peoples, as well as a representation of all the world's major religions. Contradictions abound. It has a free market economy while communists share in government; one of the world's most liberal constitutions and a deeply patriarchal society; and very rich and very poor people of all races. Against all fears and expectations, the release of Nelson Mandela in 1994, followed by multiracial elections, brought a peaceful end to white domination and the decades-long struggle against apartheid. There was an outpouring of relief and optimism and an unleashing of homegrown talent. However, as the country's democracy has matured new elites have arisen, the gap between the haves and have-nots remains, and disillusionment has set in. South Africans of all backgrounds are trying to figure out their own place in their country, on the continent, and indeed the world. South Africa has come through fire, and although there is still considerable heat it is doing pretty well. This insiders' guide will introduce you to the universal warmth and cultural diversity of its people, explain the backdrop of their troubled past, and familiarize you with their everyday life so that you'll feel comfortable whether you're invited to a shack in the townships, a mansion in the suburbs, or a braai on the beach. You'll learn how to stay safe in potentially dangerous areas, and you'll know where to go if you want to feel like the only person on the planet. South Africans are big-hearted and positive. Make an effort to understand them, and they will welcome you unreservedly.

The Warrior Tradition in Modern Africa Jul 09 2020

African Spirits Speak May 19 2021 The moving story of an expatriate coming to terms with her country's history, and her joyous spiritual and emotional rebirth as an African healer. • One of the first accounts of the mysterious sangomas, the healers of South Africa's black population. • A mystical journey that will appeal to those wishing to reunite with their roots and a more spiritual life. Set against the stirring backdrop of a crumbling apartheid regime, *African Spirits Speak* is the lyrical account of white South African Nicky Arden's journey into the world of the sangomas, the diviners, doctors, psychologists, and priests of South Africa's black population. While in her early twenties Nicky fled South Africa with her husband as the stranglehold of apartheid tightened on her native land. For twenty-two years they lived in California as expatriates--never once returning to their homeland--until a deep depression, followed by a spiritual awakening in the California desert, compelled Nicky to return to South Africa. During her visit, while exploring deep in the bush, she unexpectedly met an old black medicine woman--a sangoma. This meeting would change her life. Few white South Africans are even aware of the world of the sangomas, but this prophetic old woman saw in Nicky the spirit of a fellow healer and set the author on a mystical journey that would reunite her soul with its African roots. Thus began her astonishing and complex initiation into a nearly unknown world and her quest to discover the truth about

herself and her heritage.

Convening Black Intimacy Sep 22 2021 An unprecedented study of how Christianity reshaped Black South Africans' ideas about gender, sexuality, marriage, and family during the first half of the twentieth century. This book demonstrates that the primary affective force in the construction of modern Black intimate life in early twentieth-century South Africa was not the commonly cited influx of migrant workers but rather the spread of Christianity. During the late nineteenth and early twentieth centuries, African converts developed a new conception of intimate life, one that shaped ideas about sexuality, gender roles, and morality. Although the reshaping of Black intimacy occurred first among educated Africans who aspired to middle-class status, by the 1950s it included all Black Christians—60 percent of the Black South African population. In turn, certain Black traditions and customs were central to the acceptance of sexual modernity, which gained traction because it included practices such as lobola, in which a bridegroom demonstrates his gratitude by transferring property to his bride's family. While the ways of understanding intimacy that Christianity informed enjoyed broad appeal because they partially aligned with traditional ways, other individuals were drawn to how the new ideas broke with tradition. In either case, Natasha Erlank argues that what Black South Africans regard today as tradition has been unequivocally altered by Christianity. In asserting the paramount influence of Christianity on unfolding ideas about family, gender, and marriage in Black South Africa, Erlank challenges social historians who have attributed the key factor to be the migrant labor system. Erlank draws from a wide range of sources, including popular Black literature and the Black press, African church and mission archives, and records of the South African law courts, which she argues have been underutilized in histories of South Africa. The book is sure to attract historians and other scholars interested in the history of African Christianity, African families, sexuality, and the social history of law, especially colonial law.

Rediscovery of the Ordinary Aug 22 2021 Njabulo S. Ndebele's essays on South African literature and culture initially appeared in various publications in the 1980s. They encompass a period of trauma, defiance, and change—the decade of the collapse of apartheid and the challenge of reconstructing a future. In 1991, the essays were collected under the current title of *Rediscovery of the Ordinary: Essays on South African Literature and Culture*. Here, this collection is reprinted without revision, together with an interview provoked by Albie Sachs's paper *Preparing Ourselves for Freedom*. That it is possible to republish the essays without revision so many years after their first appearance is a tribute to Ndebele's prescience. The issues that he raises and the questions that he poses remain key to a people who, after apartheid, have started to rediscover the complex ordinariness of living in a civil society.

Intellectual Traditions in South Africa Aug 02 2022 "This rich volume not only deals with political traditions but gives attention to religious and communal intellectual practices. The scope covers interpretations of traditions such as African nationalism, Afrikaner thought, Black Consciousness, Christianity, feminism, Gandhian ways, Hinduism, Jewish responses, liberalism, Marxism, Muslim voices, Pan Africanism and positivism. Powerful institutions and individuals were central to the various colonising and apartheid projects that directly controlled and subordinated much of the population. But the social engineering they wrought failed - and

spectacularly so. In the wake of this, unintended and unforeseen spaces for individual agency and for the discovery of traditions of thinking have helped change the way we live today. "Only by thinking about these, the ideas that made us who we are, more deeply can we re-imagine our country and the world," says co-editor Peter Vale. This explains why this book, which looks at our past and our present through different lenses, fills an important gap in South Africa's historiography and says new things about its politics."--Back cover.

Religion, Politics, and Identity in a Changing South Africa Jul 21 2021 What is the role of religion in society? In the wake of September 11, public intellectuals provided easy answers. According to some, religion was the problem, others commented, religion was the solution. Generally, public debate about the force of religion in society has been organized by either/or propositions. Religion is a force for either freedom or bondage, for either peace or war, for either mutual recognition or antagonistic polarization. Analysis of religion and social change has also tended to be framed in terms of oppositions that inform research agendas and public policy. In this book, authors from South Africa, the United States of America, the Netherlands, and Germany test these oppositions.

The Black Theatre Movement in the United States and in South Africa Dec 14 2020 El creixement dels moviments sociopolítics entre els anys seixanta i noranta als Estats Units i a Sud-àfrica va establir els fermes fonaments sobre els quals, amb una força i ímpetu sense precedents, es va forjar el teatre negre d'aquests anys. Forma i contingut van sorgir a l'una del compromís polític i artístic adoptat per aquests artistes contra l'imperialisme, el colonialisme i el racisme occidentals. Per primera vegada en la història, el teatre negre dels Estats Units i de Sud-àfrica analitzava i valorava les arrels negres per a poder il·luminar la recerca d'un futur de llibertat. No obstant això, el context sociopolític i les circumstàncies específiques de cada país han generat igualment els trets distintius del teatre afronord-americà i negre sud-africà (incloses les diferències de gènere) manifestos en ramificacions artístiques totalment heterogènies i úniques.
