**Report to the Committee on General Laws Relative to "trusts" and "sugar"** Jul 26 2019

**Equity and Trusts** Jan 15 2021 "Alastair Hudson's Equity and Trusts is an ideal textbook for undergraduate courses on the law of trusts and equitable remedies. It provides a clear, current and comprehensive account of the subject through which the author's enthusiasm and expertise shine through, helping to bring to life an area of the law which students often find challenging. Beginning with the core principles, Professor Hudson reinforces the key points by means of clear examples throughout each chapter, helping students to build and develop their own knowledge of equity and trusts. A set of lively, discursive essays reflecting on the law then begin to outline the broader political, social and economic context of the subject and encourage the reader to begin to engage with their own critical analysis. Although aimed at Students, Alastair Hudson is also the author of a practitioner text and brings that experience. A detail to Equity and Trusts, which has now come to be cited in courts across different jurisdictions. The seventh edition is supported by a companion website which includes: over 50 short podcast lectures by the author discussing and clarifying key topics from within the book, which cover an entire course; a set of brief video documentaries filmed on location which provide context and bring to life selected key topics; a brief introductory video presentation from the author introducing the viewer to the subject of Equity and Trusts and to the book in particular.

**Text, Cases and Materials on Equity and Trusts** 24 2021 Text, Cases and Materials on Equity and Trusts has been considerably revised to broaden the focus of the text in line with most LLB core courses to encompass equity, remedies and injunctions and to take account of recent major statutory and case law developments. The new edition features increased pedagogical support to outline key points and principles and improve navigation; 'notes' to encourage students to reflect on areas of complexity or controversy; and self-test questions to consolidate learning at the end of each chapter. New to this edition: is a detailed examination of The Civil Partnership Act 2004 and the Charities Act 2006 important case law developments such as Stack v Dowden (constructive trusts and family assets), Oxley v Hiscock (quantification of family assets), Barlow Clowes v Eurotrust (review of the test for dishonesty), Abou-Ramah v Ab (dishonest assistance and change of position defence), AG for Zambia v Meer Care & Desai (review of the test for dishonesty), Horley Town Football Club (gifts to unincorporated association), Re Loftus (defences of limitation, estoppel and laches), Templeton Insurance v Penningtons Solicitors (Quistclose trust and damages) and many more are new chapters on the equitable remedies of specific performance, injunctions, rectification, rescission and account are extracts from the Law Commission's Reports and consultation papers on 'Sharing Homes' and 'Trustee Exemption Clauses' as well as key academic literature and debates. The structure and style of previous editions have been retained, with an emphasis on introductory text and case extracts of sufficient length to allow students to develop analytical and critical skills in reading legal judgments. Substantial author commentary helps the text give the flow, coherence and direction of a textbook whilst providing the reader with a wide range of primary and secondary material from a variety of sources. A supporting Companion Website provides twice-an update to the cases and legislation discussed within the text; answers to the questions contained within the text, and sample essay questions.

**The Intelligent REIT Investor** Mar 05 2020 The go-to guide for smart REIT investing The Intelligent REIT Investor is the definitive guide to real estate investment trusts, providing a clear, concise resource for individual investors, financial planners, and analysts—anyone who prioritizes dividend income and risk management as major components to wealth-building. The REIT industry experienced a watershed event when Standard & Poors created a new Global Industry Classification Standard (GICS) sector called Real Estate. Publicly traded equity REITs have been removed from Financials, where they have been classified since their creation in 1960, and have begun trading as their own S&P Sector. This separation from banks and financial institutions has attracted new investors, but REITs require an industry-specific knowledge that is neither intuitive nor readily accessible to newcomers—until now. Using straightforward language and simple examples to illustrate important concepts, this book will enable any reader to quickly learn and understand the lexicon and valuation techniques used in REIT investing, providing a wealth of practical resources that streamline the learning process. The discussion explains terminology, metrics, and other key points, while examples illustrate the calculations used to evaluate opportunities. A comprehensive list of publicly-traded REITs provides key reference, giving you access to an important resource most investors and stockbrokers lack. REITs are companies that own or finance commercial rental properties, such as malls and apartment buildings. Despite historically high total returns relative to other investments, such as the Nasdaq or S&P 500 index, most investors are unfamiliar with the REIT industry, and wary of investing without adequate background. This book gets you up to speed on the essentials of REIT investing so you can make more informed—and profitable—decisions. Understand REITs processes, mechanisms, and industry Calculate key metrics to identify suitable companies Access historical performance tables and industry-specific terminology Identify publicly-traded REITs quickly and easily REITs have consistently outperformed many more widely known investments. Over the past 15-year period, for example, REITs returned an average of 11% per year, better than all other asset classes. Since 2009, REITs have enjoyed positive returns; large cap stocks and cash are the only other classes that paralleled that record. Even in 2015, a 'year of fear' related to rising rates, REITs returned 2.4%, beating most all other asset classes. REITs have a long history (over fifty years) of performance, and have entered the big leagues. If you feel like you've been missing out, don't keep missing out. Prepare yourself, and your portfolio, to benefit from the demand for REITs that have followed the creation of a Real Estate GICS sector. The Intelligent REIT Investor gives you the information you need to invest wisely and manage your real estate risk effectively. By maintaining a tactical exposure in the brick and mortar asset class, investors should benefit from the information contained in The Intelligent REIT Investor. Join the REIT world and look forward to owning stocks that will help you to sleep well at night.

**Unlocking Land Law** Feb 13 2021 Unlocking Land Law will help you grasp the main concepts of the subject with ease. Containing accessible explanations in clear and precise terms that are easy to understand, it provides an excellent foundation for learning and revising land law. The information is clearly presented in a logical structure and the following features support learning, helping you to advance with confidence: clear learning outcomes at the beginning of each chapter set out the skills and knowledge you will need to get to grips with the subject; key fact summaries throughout each chapter allow you to progressively build and consolidate your understanding; end-of-chapter summaries provide a useful check-list for each topic; cases and judgments are highlighted to help you find them and add them to your notes quickly; frequent activities and self-test questions are included so you can put your knowledge into practice; sample essay questions with annotated answers prepare you for assessment; glossary of legal terms clarifies important definitions. This edition has been extensively rewritten and updated to include discussion of recent changes and developments within the module. These include the decision in *Marr v Collie* [2017] UKPC 17 and its implications on implied trusts and rights in the family home; *Regency Villas Title Ltd v Diamond Resorts* [2017] EWCA Civ 238, which has reviewed the definition of an easement; *Smith v Molyneux* [2016] UKPC 35, which revisits the law on consent to a licence in adverse possession cases, and, not least, the interesting decision in *Baker v Craggs* [2018] EWCA 1126, which considers what constitutes a legal estate in land under s 2 Law of Property Act 1925.

Key Facts books are supported by the website www.UnlockingTheLaw.co.uk where you find extensive revision materials including MCQs and Key Q&As.

Public Trust in Government Statistics Feb 02 2020 In this report the Public Administration Select Committee (PASC) concludes that, despite the positive steps implemented by the Statistics and Registration Service Act 2007 (the Act), there remain issues and concerns about the way government statistics are produced and disseminated which remain a genuine risk to public confidence in the statistical system and must be addressed. The Act was intended to ensure that statistics are produced to the highest professional standards and that effective governance structures are in place to protect transparency and accountability and the Committee found the Act had helped to improve the operation of the statistical system. However, the Act needs to have greater clarity and transparency in the way it operates and in the functioning of the UK Statistics Authority (the Statistics Authority). Those who regulate the quality of National Statistics are in the same organisation as those officials who produce data: the two groups should have a clear separation in practice, but this is hard to demonstrate when they work in the same building and share support services. It is also not appropriate that ministers should have lengthy prior access to certain statistics but other interested parties do not. The Statistics Authority does not seem to have sufficient control over the quality and integrity of the different data sets and statistical products produced by departments and their agencies. Planning and improved data access both within Government and for users outside Government should be given greater attention by the Statistics Authority, as well as by Government departments.

Global Forum on Transparency and Exchange of Information for Tax Purposes Peer Reviews: Saint Vincent and the Grenadines 2014 Phase 2: Implementation of the Standard in Practice Jan 03 2020 This report contains the 2014 "Phase 2: Implementation of the Standards in Practice" Global Forum review of the Saint Vincent and the Grenadines.

An Introduction to the Law of Trusts Sept 22 2021 A comprehensive, stimulating introduction to trusts law, which provides readers with a clear conceptual framework to aid understanding of this challenging area of the law. Aimed at readers studying trusts at an undergraduate level, it provides a succinct and enlightening account of this area of the law. Concise and clear, this book also identifies and discusses many analytical perspectives, encouraging a deeper understanding of the issues at hand. It offers an outstanding treatment of specific areas, in particular remedial constructive trusts and trusts of family homes. Ideal for providing a broad background to the issues before embarking on an in-depth study of trusts, it can also be used to help a reader to develop their understanding. For those looking to challenge themselves, detailed footnotes highlight further issues and point the direction for future reading. Fully revised to take account the Charities Act 2006, judicial developments through case law, and recent academic work in this area, this new edition in the renowned Clarendon Law Series offers a well-written, careful, and insightful introduction to the law of trusts.

Formal Aspects in Security and Trust Jun 27 2019 Second International Workshop on Formal Aspects in Security and Trust is an essential reference for both academic and professional researchers in the field of security and trust. Because of the complexity and scale of deployment of emerging ICT systems based on web service and grid computing concepts, we also need to develop new, scalable, and more flexible foundational models of pervasive security enforcement across organizational borders and in situations where there is high uncertainty about the identity and trustworthiness of the participating networked entities. On the other hand, the increasingly complex set of building activities sharing different resources but managed with different policies calls for new and business-enabling models of trust between members of virtual organizations and communities that span the boundaries of physical enterprises and loosely structured groups of individuals. The papers presented in this volume address the challenges posed by "ambient intelligence space" as a future paradigm and the need for a set of conceptual tools and methodologies to enable the user's trust and confidence in the underlying computing infrastructure. This state-of-the-art volume presents selected papers from the 2nd International Workshop on Formal Aspects in Security and Trust, held in conjunction with the 18th IFIP World Computer Congress, August 2004, in Toulouse, France. The collection will be important not only for computer security experts and researchers but also for teachers and administrators interested in security methodologies and research.

Equity and Trusts Apr 17 2021 Nutcases are a revision aid that approach case law in the acclaimed Nutshells style. They present the basic facts and key principles of the important cases in each area of law, in clear, straightforward language. Cases are organised by topic areas illustrating key principles of the law. Facts and decisions are summarised concisely, and additional commentary draws together major themes. They are the painless way to understand and learn key cases.

Formal Aspects of Security and Trust Apr 05 2020 This book constitutes the thoroughly refereed post-proceedings of the 7th International Workshop on Formal Aspects of Security and Trust, FAST 2010, held as part of the 8th IEEE International Conference on Software Engineering and Formal Methods, SEFM 2010 in Pisa, Italy in September 2010. The 14 revised full papers presented together with one invited paper were carefully reviewed and selected from 42 submissions. The papers focus on formal aspects in security and trust policy models, security protocol design and analysis, formal models of trust and reputation, logics for security and trust, distributed trust management systems, trust-based reasoning, digital assets protection, data protection, privacy and id issues, information flow analysis, language-based security, security and trust aspects in ubiquitous computing, validation/analysis tools, web service security/trust/privacy, grid security, security risk assessment, and case studies.

Contains sample essay and multiple choice questions with model answers and detailed explanations.

Peterborough and Stamford Hospitals NHS Foundation Trust 17 2021 The board of Peterborough and Stamford NHS Trust failed to recognize in 2007 that a PFI scheme to build a new hospital, Peterborough City Hospital, would place considerable strain on its finances for years to come. The then board compounded the decision to proceed with the scheme, which it could not afford, with a failure to monitor other changes affecting its income and costs between 2007 and 2011. In 2011-12, the in-year deficit was £46 million and the Trust is predicting an deficit of more than £50 million in 2012-13. Monitor, the regulator of foundation trusts, raised well-founded concerns about the scheme's affordability with the Trust Board and the Department of Health, however neither addressed these concerns fully before approval of the business case. Despite its earlier views, the regulator rated the Trust as a very low financial risk, reflecting its reported financial position but this risk rating did not reflect the future impact of the PFI development. Monitor had a number of opportunities to intervene before finally placing the Trust in breach of terms in October 2011 but concluded that an intervention would not necessarily improve or change the outcome positively. The level of healthcare undertaken by the Trust is also greater than envisaged in the PFI business case, which assumed a 14 per cent drop in outpatient activity whereas this increased by 21 per cent. In addition, NHS Peterborough, the Trust's main commissioner, which has been in financial difficulty itself, has used national and local performance indicators to withhold payments for activity undertaken by the Trust

Unlocking Trusts Sep 03 2022 "Unlocking Trusts brings the law to life with diagrams, key facts charts and activities to ensure that you engage with, and fully understand, trusts"-- TRUSTS OF TO-DAY FACTS RELATIN Jun 07 2020 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. A Student's Guide to Equity and Trusts May 31 2022 Brings Equity and Trusts to life for students of all abilities with clearly explained principles and simple, practical examples.

Which Characteristics or Experiences Influence Interpersonal Trust? Comments and Criticism of the Paper "Who trusts others" by Alesina and La Ferrara May 19 2021 Seminar paper from the year 2015 in the subject Economics - Statistics and Methods, grade: 1,2, University of Marburg, course: Empirical Institutional Economics, language: English, abstract: In the following I will present the paper "Who trusts others?" from the authors Alberto Alesina and Eliana La Ferrara. Afterwards I will comment on the paper, criticise some points of it and finally I will give proposals for further research. The structure of this term-paper is as follows: At first I will give a general introduction into the theoretical basics of this paper. This part will explain why it is important to analyse interpersonal trust and it will contain information about the main research hypothesis of the two authors. The second part is about the data and descriptive statistics of the reference paper. This section will contain information about the most important variables used for the regressions of the paper "Who trusts others?" and it will present the first conclusions about the data. The third segment of this paper will expose the econometric evidence. Here I will give a summary about every table used in the reference paper and explain the most important findings of the regressions. After that there will follow a very short segment where I will summarise the main results of the reference paper. In the last part I will give a comment about the reference paper and will add some criticism. This section will end with proposals for further research based on the current economic perspectives. The paper will end with a short summary of my comments and research proposals.

Equity and Trusts Aug 22 2021 Atkins' Equity and Trusts is an ideal choice for all undergraduate and GDL students looking for a comprehensive yet accessible core textbook. The author's clear writing style and focus on modern case law demystify difficult concepts and help to bring this complicated and dry subject to life. The author provides students with a clear understanding of the law through the use of vital pedagogic methods such as flow-charts, diagrams and highlighted text-boxes, whilst keeping the focus on recent case law. Equity and Trusts is shown as a live, growing and developing subject, with an important historical underpinning that ensures students gain a sound grasp of key material and understand both its history and current application. Features include: • As you read aids deeper understanding by highlighting key points to bear in mind whilst working through each chapter • Key learning points help students clarify complex issues and draw attention to important concepts • Explaining the law assists in placing principles in a wider context by focussing attention on important individual cases • Glossary terms help readers through by providing on the spot definitions of key terms • Useful things to read signposts the way to further understanding and higher marks by providing an invaluable annotated guide to primary and secondary further reading Scott Atkins (LLB, Dip LP, FHEA, Solicitor (non-practising)) is a Senior Lecturer in Law at the University of Derby and a Visiting Professor at the Institute of Law, Jersey. Scott has enjoyed teaching both Contract Law and Equity & Trusts to students for a number of years and views learning law as a partnership between student and tutor.
