**Online Way of Earning** Nov 01 2019 The internet has revolutionised the way we work. Workplaces and jobs are not what they used to be. Long gone are the days when everything is done by humans, and paper is the only way of communication. Truth is, the digital economy is booming. Over the next coming years, you'll most likely either be self-employed, making a living online, or running your own online business OR working for someone else who is running their business entirely or predominantly online. We are now entering the era of the 'Internet of Things' where almost anything can and will be connected online from waste bins in the streets that will notify the authorities when they need emptying, to wearable devices and smart clothing that will tell you when it's best for you to eat and when you're most productive. For this eBook, we have split the various ways to make money online into 5 main categories: 1. DIGITAL WORKING 2. RESIDUAL (SEMI-PASSIVE) INCOME 3. ONLINE BUSINESS (ENTREPRENEUR) 4. ONLINE INVESTING 5. SELLING or RENTING WHAT YOU HAVE or MAKE This eBook is a guide and serves as a first guide. Imagine making six-figures a MONTH, rather than a YEAR. Well, what if I told you you could be making \$2,000 extra each month within 30 days? You'd think I was some kind of scam artist, right? I've read over 100 books on online money making and freelancing in the last two years alone. I've also interviewed dozens of experts who agreed to speak to me about the topic and how they got to where they are today. Don't get me wrong, it's not like I have some magic ability for getting people to make money online and start working remotely. It's just that I know one thing lots of other people don't: It's all about mindset. Top freelancers, remote workers and location independent entrepreneurs are willing to take risks, learn new skills, and sell solutions that customers really want. They don't care if they have credentials. They don't care if they've done this before. They don't even care if they have the necessary skills (yet). The bottom line? They shift their frame of mind away from the self and concentrate on what people out in the market are saying they want.

level of effort to it, but provided you do so you will almost certainly find that which you require in this book. Indeed the main reason this book was created was because of his desire to find interesting ways to make money online, his research later becoming the book "33 Ways To Make Money Online."

**Beginners Guide on How to Make Money Online** Mar 18 2021 This book is all about how to make money online and how to earn a full time or a part time income while working from the comfort of your home in your pajamas. This book is great for the beginner, for the intermediate and also for the advanced person that is already working from home. We will show you step-by-step some secret tactics that you can use in 24-48 hours to help start your online journey. Earning an income from home is not as difficult as some might claim it is. Many people are earning a part-time or a full-time income while working from their home. As a bonus to you today I will tell you this - that once you start your online journey, you have to be **PERSISTENT** to start seeing results/ sales. A lot of us, especially when we first start out online, we might start promoting different things online, and when we don't see results right away, we quit. A lot of times, when people start their online/internet business, they start setting their website up or whatever it is that they are doing, it might seem to them that they are taking action in their online business, but they're actually not taking the action that they need to take in order to get the sales to happen. You need to also start driving traffic to that website or to that affiliate website/affiliate link. You need to start taking the action that needs to be taken in order to see the results. You need to start providing **VALUE** to people because it all comes down to how much value you provide to people out there - to your followers or maybe to your list that you started to build. Because the more value you provide to people, the more money you're going to make. If you're not providing any value, if you're not sharing anything with people, sharing the things that you're learning, if you're not helping people out, don't expect a lot of sales to happen for you. You need to focus on providing that **VALUE** and that's one thing obviously that you need to do to see some sales happening. And just remember to be **PERSISTENT**. Maybe it takes you a month or two to set everything up, to go through the training and to actually start getting some traffic to your site. Don't think that just because it might take you a month longer and you're not seeing results yet that you're just gonna quit. A lot of newbies do that because they haven't seen any results yet within a month, or within a couple of months, and they just think that it doesn't work for them so they quit. But the fact is that you need to be persistent, you need to be consistently promoting it, driving traffic consistently, daily to your website, in order to start seeing some results in the future days or weeks ahead or even in months. For some people it takes shorter, for some people it takes longer, it all comes down to a lot of things, it really depends on a lot of things. For me, it took about 2-3 months to get my first sale, my first online sale on autopilot to happen. It's different for everyone. You just need to stay persistent in whatever you're doing and you will see that sale happen. Your first sale and your second sale. Just be persistent. Make sure you're doing the things that you need to do in order to see the sales because if you are being not being persistent than don't expect the sales to

happen. Another bonus I have for you in starting out with your online journey is to find a MENTOR. Someone who will actually take you step-by-step and who will show you how it's done because someone who has achieved the results that you want to achieve is going to show you exactly what to do to succeed in your online journey. Don't try to figure it out all by yourself because it could take years for you to figure it out on your own. If you try to figure it out on your own, you might get stuck in one place, so you need a mentor, someone who will show you how to get to the next level and how it's done. So persistence is number one to start getting those sales happen & having a mentor is number 2.

Income is the consumption and saving opportunity gained by an entity within a specified timeframe, which is generally expressed in monetary terms.[1][2][3] For households and individuals, "income is the sum of all the wages, salaries, profits, interest payments, rents, and other forms of earnings received in a given period of time." [4] (also known as gross income). Net income is defined as the gross income minus taxes and other deductions (e.g., mandatory pension contributions), and is usually the basis to calculate how much income tax is owed.

1. EARNED (ACTIVE) INCOME Definition: Earned income is money earned from working that requires your time. This is the income you receive from actively working, your work and you are paid for your work. Examples: Salary; wages; bonuses; contract work. Tax implications: Earned income is taxed higher than any other income, at a rate of 10%-35%, plus Medicare, Social Security, and other taxes, which can reach close to 50% based on tax calculators and estimators. Characteristics: It's hard to become wealthy solely from earned income for a few reasons. First, it's taxed at the highest rate, and second, there are only so many hours in the day for you to work (you can work and work and work, but if you have to be there to make the money, there's a cap on your income because time is limited). Another downside besides taxes is that once you stop working, the money stops coming in. On the upside, earned income is the easiest type of income to make. You can just go get a job or side job pretty easily in the US and make some money. This is why most people make money this way—it's easy to do. A great way to switch over into better types of income is to use earned income by putting it into a portfolio or to start a side hustle or business (this is what I did by starting a blog, which is now my full time business).

2. PORTFOLIO INCOME Definition: Portfolio income is money you receive from selling an investment for more than what you paid for it (portfolio income is also referred to as capital gains). Examples: 1) trading assets, like stocks, bonds, and mutual funds, 2) buy and selling real estate, and 3) buying and selling other assets, like a car. Tax implications: Portfolio income is taxed at 10%-20% for investments held over 12 months and taxed as earned income if held less than 12 months. However, portfolio income is not taxed for Medicare or Social Security. Capital gains can be offset by losses on other investments, which is a huge plus. Characteristics: One downside is that for the average person, investing can seem intimidating. This often keeps people away from doing it. It wasn't until I became a Certified Financial Planner that I really understood what was going on with respect to portfolio income. If you're just getting started with investing, read this post - 21 tips for investing in your 30's. Also, this type of income can take a long time to generate if you believe in many of the widely held investing concepts that require buying and holding for years. If you're a trader and attempt to do it much faster, you better be really good at it, because otherwise, it's sort of like gambling. You have to have money to invest upfront to create portfolio income. This is a huge reason why people say they don't invest. You can start with a small amount and contribute to your investments over time, but it requires you to have the capital to do it. If you want to get started with hiring someone to help you with your money, read this post on questions you should ask your financial advisor before hiring her. I like using investing as a supplemental income strategy. I don't want to retire, but I like the idea that I could if I ever change my mind or it became medically necessary. So, I save and invest as a bit of a safety net, but not as the end goal of retiring as soon as possible. I like contributing to the world through my work, and I also like creating a lot of income. I just don't ever tie my "hard work" or time to income generated. This way, I know my income potential is unlimited.

3. PASSIVE INCOME Definition: Passive income is money generated from assets you own, where you are not actively working. Examples: Rental income, business income (as long as it's not earned based on time and effort), creating/selling intellectual property (e.g.: books). Tax implications: Passive income receives the most favorable tax treatment. Characteristics: Passive income is thought to be the key to building wealth. Once you have an investment that generates recurring income, you don't have to do much to maintain it (so time is not a limitation). Typically, there isn't much start up cost to passive income that you have to provide yourself. For example, you can use your time to create a business or you can get funding from investors for your real estate properties or start up company. It's not as easy as earned income, but it's not as challenging as portfolio income (in terms of start up funds). It takes a lot of money to make a lot of portfolio income, whereas you can generate a lot of passive income with less. I started a blog with the idea of generating passive income (the Smart Passive Income podcast used to be on repeat!). It's one of the best things I ever did! A FINAL NOTE! Understanding how income works is important because it affects how you go about deciding what results you want with money in your future. Do you want to retire? Do you want financial independence early? Do you want to focus on contributing to the world through your work as an entrepreneur? Do you want money just to be a scorecard of the value you provide? Do you believe that "hard work" and time create money? (So many questions!) These are philosophical questions, but whatever you believe will drive your feelings, which will drive your actions, which will drive your results. So, ultimately, your beliefs drive your results (you can read more about this in the 5 step framework to master your mindset post here). Based on what you choose to believe, you could end up financial independent and

retiring very young and living off 4% of your investment portfolio, with frugal values, while traveling, and doing whatever else you want to experience the world while you're alive. Or, you could end up a multimillionaire focusing on serving the world through your work and never retiring. Completely different results. Both involve a lot of money. What you choose matters. What you believe about money matters. What you do matters. The three different types of income are a way of learning how to use money to your advantage to get the results you want most. This is the way our system works. The sooner you understand how money works, the sooner you can make better decisions that will help you achieve financial success (whatever that looks like to you).

**How to Make Money Online by Selling eBooks** Dec 03 2019 There has never been a better time to be a freelance writer than now. Not only are you able to write articles and content that appear in newspapers and magazines for money, but there are also numerous opportunities to write content that will appear on the web. Websites are always looking for good writers to write their content and companies constantly advertise for writing jobs. Another great and increasingly popular way to make money online is by selling eBooks. The greatest thing about selling eBooks online is that you create the opportunity to generate a steady revenue. The internet has vast amounts of information. Ask yourself the number of times you browse the web in search for information. While there's a lot of convenience associated with gaining access to so much information, there is a downside to it. How can separate the good from the bad? How are you able to find the specific pieces of information you want? And how will you be able to find thorough and detailed information, instead of general information that the internet generally provides? eBooks can be a possible answer. eBooks contain information that is detailed and well organized about particular topics. An eBook tends to dwell on the details of that particular niche. For example, if you look on the internet for football scholarships; you could come across several websites on the topic, but you could save yourself time and energy if you were to download a document that contained all the information laid out efficiently for you. If you are an entrepreneur, you could make money writing and selling eBooks on a variety of topics. It also doesn't require a lot of time to do so. So, let's get started!

**Online Money Blueprint** Mar 06 2020 Everyone wants to make money. That's a given. And the internet can present some pretty lucrative possibilities. But it can also create a breeding ground for scammers. Sometimes it's tough to know what a scam is and what isn't. No one can tell you in all honesty that they haven't, at some time in their online career, been taken at least once by a hyped up scam. You have to understand that there are some folks who are a constant source of helpful information, and those that are hanging out looking for the quick cash. While you can make some easy profits doing business on the internet, you still must be vigilant and careful when buying. The old adage still rings true, especially online: "Let the Buyer Beware". Plus, when you sell products online, generally start-up costs are much lower than that of a traditional "brick-and-mortar" store. In many cases your monthly costs would be less than going for a night out. So, turning a profit is much, much easier to accomplish.

**How to Make Money Online - The Real Secrets Revealed** Dec 15 2020 NO PRIOR EXPERIENCE REQUIRED. ALL INSTRUCTIONS ARE FULLY DETAILED AND STEP-BY-STEP SO ANYONE CAN FOLLOW THEM EASILY. Online passive income is the ultimate dream. Making money while you sleep. Everybody wants it. But is it really possible? The short answer is "YES" The longer answer is "yes, but it isn't easy to accomplish." If it was, wouldn't everyone be doing it? In my ebook, I give you a step-by-step plan on how to develop a passive income online business and show you how making money online actually works (with links to supporting lessons for extra clarity). The specific plan I teach is designed to make you \$5,000+ per month in passive income earnings, based on Blogging, Affiliate Marketing, Freelancing and Selling of Digital Products. Once you understand the process though, you can decide to work with any of them or with all. When you stop is up to you (and yes, there are people making tens of thousands of dollars per month on the Internet based on these concepts-they just love the work and don't ever stop. What's great about the business plan that I teach you is not only the income level you will accomplish if you follow through, but all that you will learn in the process. The skills you learn in this ebook will enable you to build all kinds of online businesses and open the door for all kinds of entrepreneurial projects you may have. Not only that, you will be able to evaluate business ideas much more intelligently once you've gone through this whole process. You will understand the fundamentals of keyword research & analysis, traffic & lead generation, social & affiliate marketing, monetization & conversion testing, and traffic analysis. These skills will help you immensely in ANY business you ever decide to start (online or not, passive or not). Generating an online passive income won't happen overnight and takes a lot of hard work, but going through the process is completely worth it and having an exact plan of action is the ONLY way to ensure success. Let me put it this way: if you were offered no pay for six months for 40+ hours of work per week, but after those six months, you got \$5,000+ per month for the rest of your life, would that be worth it to you? If that idea isn't unbelievably exciting to you, then this isn't the business for you. This isn't a get rich quick scheme. This is a business. Except with this business, instead of trading your time for money (like most jobs), you are investing your time. You work hard now and continue to reap the benefits indefinitely. Building an online business takes a lot of work and a lot of patience, but the rewards can be amazing. That's the kind of business that I teach you in this ebook. Here's what you will learn 1. The Truth Behind the Internet and making money online 2. The only ways you can truly make money online 3. Blogging - What is blogging? 4. Affiliate Marketing - What is Affiliate Marketing? 5. Freelancing - what is freelancing? and much more things you will learn.
