*Silent Covenants* Sep 22 2021 When the landmark Supreme Court case of Brown vs. Board of Education was handed down in 1954, many civil rights advocates believed that the decision, which declared public school segregation unconstitutional, would become the Holy Grail of racial justice. Fifty years later, despite its legal irrelevance and the racially separate and educationally ineffective state of public schooling for most black children, Brown is still viewed by many as the perfect precedent. Here, Derrick Bell shatters the shining image of this celebrated ruling. He notes that, despite the onerous burdens of segregation, many black schools functioned well and racial bigotry had not rendered blacks a damaged race. He maintains that, given what we now know about the pervasive nature of racism, the Court should have determined instead to rigorously enforce the "equal" component of the "separate but equal" standard. Racial policy, Bell maintains, is made through silent covenants--unspoken convergences of interest and involuntary sacrifices of rights--that ensure that policies conform to priorities set by policy-makers. Blacks and whites are the fortuitous winners or losers in these unspoken agreements. The experience with Brown, Bell urges, should teach us that meaningful progress in the quest for racial justice requires more than the assertion of harms. Strategies must recognize and utilize the interest-convergence factors that strongly influence racial policy decisions. In *Silent Covenants*, Bell condenses more than four decades of thought and action into a powerful and eye-opening book.

**Teaching City Kids** Aug 29 2019 Textbook

*Meditations for the Lone Traveler* Aug 02 2022 These twenty-two meditations on the songs, prayers, and stories of the Bible invite readers to imagine themselves as part of a world in which human beings may fully live into their sufferings and joys as part of a vibrant while still critically searching faith in God. Here we see prophets and poets, as well as ordinary men and women, embrace the realities of life without apology or fear. Each meditation opens with the author's fresh translation of the biblical text and concludes with a prayer that seeks the critical edge of faith as an active stance toward human existence. The movement from text to commentary to prayer reflects a basic conviction that the encounter with the Bible allows persons of many cultures, whether believers or unbelievers, to engage the deepest layers of human existence today. These reflections come out of the author's search across cultures to find a common humanity before God. Since the Bible is a non-Western book in its origins and much of its present life, interpretation of that book can both confront the particularities of Western Christianity with its own limitations and offer sources of renewal for communal and individual spirituality. These reflections aim to contribute to that larger end.

**Class in America** Jan 15 2021 Entries address people, terms, and concepts that help to define social class in America, exploring how perception of class has changed over the years and how class is addressed in politics and contemporary culture.

**Racial Oppression in the Global Metropolis** Oct 24 2021 Forgotten people, invisible oppression -- History : the not so good old ghetto -- Still separate, unequal : the ugly details of recent racial domination.

*If Kids Could Vote* Jul 09 2020 Preparing children of a democracy requires recognition of the different ways in which children learn about politics. Kids in the United States currently spend most of their lives in controlled situations such as schools where the dependency they experience in their homes is reinforced. Besides teachers -- books, films, television, and video games influence how children think about democracy. Interviews and surveys of children during three Presidential elections and two non-Presidential years show how some sixth-graders in a Vermont town react to the political issues raised in those elections. Besides presenting the children's voices, Sugarman also examines some aspects of the media and of the school situation to see how they effect the children's thinking. Changes that might improve the children's understanding and knowledge of democracy are also suggested. This book should be of interest to parents, teachers, those involved in media literacy, popular culture, and child development.

*Quiet Desperation* Nov 12 2020 Argues that public schools are hindering the education of abused children through the competitive atmosphere of standardized tests, sports, and social situations.

**All Together Now** Oct 31 2019 This provocative book asks a simple question: since we know that middle class schools tend to work best, why not give every child in America the opportunity to attend a public school in which the majority of students come from middle class households? Economically integrated schools, the author argues, will do far more to promote achievement and equal opportunity than vouchers, standards, class size reduction, or any of the other leading education proposals on the left and right that seek to make "separate but equal" schools work. Building on two recent education trends—the decline in racial desegregation as a legal tool and the movement toward greater public school choice—All Together Now provides a blueprint for creating schools that educate children from various backgrounds under one roof. Concurring with the concerns of voucher proponents about the unfairness of trapping poor kids in failing schools, the book provides a practical, viable, and legally sound plan for promoting economic and racial integration among public schools.

**Libraries and Democracy** Oct 12 2020 From Librarian of Congress, James Billington, to founding director of the Center for the Book, John Cole, the leading-edge information specialists of the day share their insights on the role libraries play in advancing democracy.

*The Impossible Will Take a Little While* Sep 03 2022 More relevant than ever, this seminal collection of essays encourages us to believe in the power of ordinary citizens to change the world In today's turbulent world it's hard not to feel like we're going backwards; after decades of striving, justice and equality still seem like far off goals. What keeps us going when times get tough? How have the leaders and unsung heroes of world-changing political movements persevered in the face of cynicism, fear, and seemingly overwhelming odds? In *The Impossible Will Take a Little While*, they answer these questions in their own words, creating a conversation among some of the most visionary and eloquent voices of our times. Today, more than ever, we need their words and their wisdom. In this revised edition, Paul Rogat Loeb has comprehensively updated this classic work on what it's like to go up against Goliath -- whether South African apartheid, Mississippi segregation, Middle East dictatorships, or the corporations driving global climate change. Without sugarcoating the obstacles, these stories inspire hope to keep moving forward. Think of this book as a conversation among some of the most visionary and eloquent voices of our times -- or any time: Contributors include Maya Angelou, Diane Ackerman, Marian Wright Edelman, Wael Ghonim, Váav Havel, Paul Hawken, Seamus Heaney, Jonathan Kozol, Tony Kushner, Audre Lorde, Nelson Mandela, Bill McKibben, Bill Moyers, Pablo Neruda, Mary Pipher, Arundhati Roy, Dan Savage, Desmond Tutu, Alice Walker, Cornel West, Terry Tempest Williams, and Howard Zinn.

**Education in Crisis** Jun 19 2021 A description and critique of education reform in the United States since the 1950s, focusing on the current condition of American schools and efforts to increase both educational opportunity and overall excellence. \* Includes biographical sketches of school reformers and other influential figures in education reform in the United States, including David Berliner, Rod Paige, Nel Noddings, and Gloria Ladson Billings \* A Data and Documents chapter features the text of *A Nation at Risk* (1983), data from the National Assessment of Education Process (NAEP) and Trends in International Mathematics and Science Study (TIMSS), *Brown v. Topeka Board of Education*, excerpts from the National Defense Education Act (NDEA), the Elementary and Secondary Education Act (ESEA), No Child Left Behind (NCLB), and other important resources

*Amazing Grace* Feb 13 2021 The author of *Savage Inequalities*, a New York Times best-seller, and *Rachel and Her Children*, winner of the Robert F. Kennedy Book Award, tells the stories of a handful of children who have--through the love and support of their families and dedicated community leaders--not yet lost their battle with the perils of life in America's most hopeless, helpless, and dangerous neighborhoods.

*The Oxford Handbook of Theological Ethics* Feb 02 2020 Annotation What are the practical and theoretical issues that concern and shape theological ethics? This handbook offers a guide to the discipline. Written by an international group of 30 scholars, the book is aimed at all students and academics who want to explore more fully essential topics in Christian ethics. *Preaching to the Hungers of the Heart* Aug 22 2021 Preaching to the Hungers of the Heart is about words, most particularly it is a book about the Word, the living Word of God, found in the Scriptures, and embodied once and for all in the person of Jesus, the Word made flesh. In *Preaching to the Hungers of the Heart* Fr. James Wallace offers a nuanced consideration of the homily as nourishment. He focuses on three common liturgical contexts: feasts of the Lord, feasts of Mary and the saints, and the sacramental rites. He relates the preaching that occurs within each area to one of the heart's basic hungers: for wholeness (the great feasts of the Lord), for guidance (feasts of Mary and the saints), and for meaning (various rites). He also addresses the spirituality of the preacher as it is worked out in the process of preparation. For preachers and students in schools of ministry who are preparing to preach *Preaching to the Hungers of the Heart* will serve as a useful tool to help satisfy the hunger to preach the Gospel. It includes homilies that provide excellent starting points for preachers looking for ideas. Chapter one considers the image of feeding God's people with the Word of God. Chapter two, considering the innermost hunger of the human person, looks to the preaching that takes place on the great feasts of the Lord and how such preaching can nourish the hunger for wholeness. Chapter three returns to the hunger for meaning already mentioned and extends to the other sacramental celebrations the homily's capacity to meet this hunger, including those addressed by the various sacramental celebrations of the Church such as baptisms, wedding, funerals, rites of reconciliation, and anointing of the sick. Chapters four and five present the homily as responding to the hunger to belong. The final chapter considers one other hunger of the heart, unique to the preacher, referred to by John Paul II as a "hunger to preach the gospel" (*Pastores Dabo Vobis*, no. 28). Chapters are "Preaching's Task in a New Millennium: Feeding God's People," "Preaching the Feasts of the Lord and the Hunger for Wholeness," "Preaching Within the Sacramental Rites and the Hunger for Meaning," "Preaching Through the Saints and the Hunger for Belonging: I?The Saints," "Preaching Through the Saints and the Hunger for Belonging: II?Mary," and "Cultivating the Preacher's Hunger: ?To Make the Gospel Known and Loved.??Wallace guides preachers in linking their sermons to the festal, pastoral, and sanctoral calendar ...? *Theology Today?*... covers areas of preaching that can also be done by lay preachers, it is useful to both the ordained and lay Catholic preacher. And if you are not a preacher, this book will help you become a more attentive listener to the scriptures and more receptive worshiper at liturgical celebrations.? *Worship?*Our world hungers and thirsts for the living Word of God that gives life and hope. Father Wallace invites, no charges, preachers to explore the essential role they are to play in feeding God's people. While written primarily for a Roman Catholic audience, his insights will feed a much wider audience.? *Lucy Hogan Professor of Preaching and Worship Wesley Theological Seminary Washington, D.C.?*Imagine a caterer overwhelmed by trying to feed too much hunger in too many banquets. Parish priests feel similarly daunted attempting to preach to multiple spiritual need in multiple feasts. James Wallace, writing from both his homiletical expertise and pastor's heart, shows committed preachers how to serve the kind of homiletical fare at the Church's feasts that nourishes basic hunger for wholeness, meaning, and belonging. In answering a crying need in pulpit and pew, Wallace beautifully combines his gifts for insight, clarity, and creativity.? *Don M. Wardlaw Professor Emeritus of Preaching and Worship McCormick Theological Seminary Chicago?*The book is an invaluable and long overdue resource for Catholic preachers and teachers of preachers. I will certainly be requiring it of my students. Instead of a bag of superficial tricks and gimmicks, the book provides preachers with a deep understanding of the several liturgical preaching occasions the book addresses. The work is thorough, thoughtful and theological yet clear, practical, and pastoral. The author's love of preaching and his deep respect for the various special occasion liturgies are evident on every page. I found the last chapter's concern for the ongoing need for preachers to remain alive to their preaching right on target. The four "loves" the author lists as necessary to sustain preachers stand as warning and remedy for weary preachers.? *Richard C. Stern, Ed.D. Associate Professor of Homiletics Saint Meinrad School of Theology* "Rarely have I read a book on preaching that is so rich, informative, encouraging, practical. Fresh ideas, vivid imagination, familiarity with contemporary literature, stories, playing with metaphors, excursions into history?it's genuinely breathtaking. And his concluding exhortation: cultivate love for words, for Scripture, for people, for Jesus Christ?my heart was on fire.? *Walter J. Burghardt, S.J.[short ad copy]*In *Preaching to the Hungers of the Heart* Father James Wallace offers a nuanced consideration of the homily as nourishment. He focuses on three common liturgical contexts: feasts of the Lord, feasts of Mary and the saints, and the various sacramental rites. He relates the preaching that occurs within each area to one of the heart's basic hungers: for wholeness (the great feasts of the Lord), for guidance (feasts of Mary and the saints), and for meaning (various rites). He also addresses the spirituality of the preacher as it is worked out in the process of preparation.

*Really Good Books for Kids* May 31 2022 Locating worthwhile books for kids can be a challenge in our contemporary culture. How can a teacher, catechist, or parent find reading material these days that reflects moral values and/or teaches something about God? In *Really Good Books For Kids*, catechist and author Janaan Manternach meets that need head on by providing an invaluable reference that presents an outstanding selection of children's books, along with valuable reviews of their entertainment and educational value. She has organized this guide to help readers locate books by subject matter (e.g., Books That Raise Moral Consciousness, Bible Storybooks, and Poetry) or by religious theme (e.g., Resurrection Stories, Christmas Stories). This unique reference is an ideal resource for parents and for anyone else entrusted with the care and upbringing of kids--especially teachers and catechists looking for the right books to read to their pupils and add to their libraries. And *Really Good Books For Kids* is a perfect Baptism or First Communion gift for parents.

**Teach Like a Disciple** Dec 26 2021 Although much has been written about P-12 teaching from a biblical perspective, this study focuses on Christ's relationships with a diverse group of individuals: wealthy and poor, women and men, unschooled and well-educated, loud and quiet, influential and powerless, those whom Jesus knew well and those who were strangers to him, those of his own faith and culture as well as those outside of it. These individuals are remarkably similar to the students we teach in our public and private school classrooms today. Each interaction between Jesus and an individual focuses on what we can learn from the student and Jesus as well as what we, as teachers, can apply in our profession. As in our own practice, some students learned their lessons well; others failed. For some, we are uncertain when or if they achieved Jesus' objective for them. Whether we are novices or experienced educators, we can learn through these instructive relationships how to be teachers who follow Jesus' example in seeing our students' potential, holistically caring for them, and ultimately having a positive impact on their lives. Through exploring these biblical relationships, we can gain a better understanding of how to teach like Christ's disciple.

**A Resurrection of the Republican Ideal** Nov 24 2021 A Resurrection of the Republican Ideal offers a unique perspective on governmental reform. Employing traditional philosophies and principles that have largely been forgotten, Goodwin proposes methodologies that are designed to increase citizen participation in this country by redirecting power and funding away from a governmental center and toward localities. Contents: PRECEDENT AND POSSIBILITY; Republican Questions Set the Stage; Historical Perspectives; Government and the Individual; The Alternate Contract Spectre; Extreme Dangers; PHILOSOPHIES FOR IMPROVEMENT; Montesquieu's Theory of Small Republics; Vaclav Havel's Politics of Conscience; Inspiration from the Iroquois Confederacy; AN AMBIANCE FOR GOVERNING; Defining the Solution; Where the Grass Roots Begin; Localism in Action; A Small Republic Example; Grappling with the Issues; Selecting Representatives; WIDENING THE SCOPE; Hemispheric Implications; Pipe Dream or Possibility.

*Mathematics for the Environment* Jul 01 2022 Mathematics for the Environment shows how to employ simple mathematical tools, such as arithmetic, to uncover fundamental conflicts between the logic of human civilization and the logic of Nature. These tools can then be used to understand and effectively deal with economic, environmental, and social issues. With elementary mathematics, the book se

**Virtue and the Moral Life** May 07 2020 The scope of interest and reflection on virtue and the virtues is as wide and deep as the questions we can ask about what makes a moral agent's life decent, or noble, or holy rather than cruel, or base, or sinful; or about the conditions of human character and circumstance that make for good relations between family members, friends, workers, fellow citizens, and strangers, and the sorts of conditions that do not. Clearly these questions will inevitably be directed to more finely grained features of everyday life in particular contexts. *Virtue and the Moral Life: Theological and Philosophical Perspectives* takes up these questions. In its ten timely and original chapters, it considers the specific importance of virtue ethics, its public significance for shaping a society's common good, the value of civic integrity, warfare and returning soldiers' sense of enlarged moral responsibility, the care for and agency of children in contemporary secular consumer society, and other questions involving moral failure, humility, and forgiveness.

*Teaching, Learning, and Loving* Mar 17 2021 The book explores aspects of daily educational practice all too often overlooked by theorists, although well known to practitioners. These include such topics as eros, the pursuit of happiness, critical hope, vulnerability, mystery and domestic.

**Fatal Invention** Sep 10 2020 An incisive, groundbreaking book that examines how a biological concept of race is a myth that promotes inequality in a supposedly "post-racial" era. Though the Human Genome Project proved that human beings are not naturally divided by race, the emerging fields of personalized medicine, reproductive technologies, genetic genealogy, and DNA databanks are attempting to resuscitate race as a biological category written in our genes. This groundbreaking book by legal scholar and social critic Dorothy Roberts examines how the myth of race as a biological concept—revived by purportedly cutting-edge science, race-specific drugs, genetic testing, and DNA databases—continues to undermine a just society and promote inequality in a supposedly "post-racial" era. Named one of the ten best black nonfiction books 2011 by AFRO.com, *Fatal Invention* offers a timely and "provocative analysis" (Nature) of race, science, and politics that "is consistently lucid . . . alarming but not alarmist, controversial but evidential, impassioned but rational" (Publishers Weekly, starred review). "Everyone concerned about social justice in America should read this powerful book." —Anthony D. Romero, executive director, American Civil Liberties Union "A terribly important book on how the 'fatal invention' has terrifying effects in the post-genomic, 'post-racial' era." —Eduardo Bonilla-Silva, professor of sociology, Duke University, and author of *Racism Without Racists: Color-Blind Racism and the Persistence of Racial Inequality in the United States* "Fatal Invention is a triumph! Race has always been an ill-defined amalgam of medical and cultural bias, thinly overlaid with the trappings of contemporary scientific thought. And no one has peeled back the layers of assumption and deception as lucidly as Dorothy Roberts." —Harriet A. Washington, author of and *Deadly Monopolies: The Shocking Corporate Takeover of Life Itself*

*Letters to a Young Teacher* Sep 30 2019 "This remarkable book is a testament to teachers who not only respect and advocate for children on a daily basis but who are the necessary guardians of the spirit. Every citizen who cares about the future of our children ought to read this."—Eric Carle, author of *The Very Hungry Caterpillar* and other classic works for children "Kozol's love for his students is as joyful and genuine as his critiques of the system are severe. He doesn't pull punches."—The Washington Post In these affectionate letters to Francesca, a first grade teacher at an inner-city school in Boston, Jonathan Kozol vividly describes his repeated visits to her classroom while, under Francesca's likably irreverent questioning, he also reveals his own most personal stories of the years that he has spent in public schools. Letters to a Young Teacher reignites a number of the controversial issues Jonathan has powerfully addressed in his bestselling *The Shame of the Nation* and *On Being a Teacher*: the mania of high-stakes testing that turns many classrooms into test-prep factories where spontaneity and critical intelligence are no longer valued, the invasion of our public schools by predatory private corporations, and the inequalities of urban schools that are once again almost as segregated as they were a century ago. But most of all, these letters are rich with the happiness of teaching children, the curiosity and jubilant excitement children bring into the classroom at an early age, and their ability to overcome their insecurities when they are in the hands of an adoring and hard-working teacher.

**A Shameful Business** Mar 29 2022 In a book that confronts the moral choices that U.S. corporations make every day in the treatment of their workers, James A. Gross issues a clarion call for the transformation of the American workplace based on genuine respect for human rights, rather than whatever the economic and regulatory landscape might allow. Gross questions the nation's underlying fabric of values as reflected in its laws and our assumptions about workers and the workplace. Arguing that our market philosophy is incompatible with core principles of human rights, he forces readers to realign the country's labor policies so that they conform with the highest international human rights standards. To make his case, Gross assesses various aspects of U.S. labor relations—freedom of association, racial discrimination, management rights, workplace safety, and human resources—through the lens of internationally accepted human rights principles as standards of judgment. His findings are chilling. "Employers who maintain workplaces that require men and women and sometimes even children to risk their lives and endanger their health and eyes and limbs in order to earn a living are treating human life as cheap and are seeking their own gain through the desecration of human life," Gross argues, and such behavior should be considered as crimes against humanity rather than matters of efficiency, productivity, or morale. By revealing how truly unacceptable management's "best practices" can be when considered as human rights issues, *A Shameful Business* encourages a bold new vision for workers, whether organized or not, that would signify a radical rethinking of social values and the concept of workplace rights and justice in the courtroom, the boardroom, and on the shop floor.

**Children, Consumerism, and the Common Good** Jan 27 2022 Children, Consumerism, and the Common Good explores the impact of consumer culture on the lives of children in the United States and globally, focusing on two phenomena: advertising to children and child labor. Christian communities have a critical role to play in securing the well-being of children and challenging the cultural trends that undermine that well-being. Themes in the tradition of Catholic social teaching can move us beyond the tensions between children's rights activists and those who propose a return to 'family values' and can inform practices of resistance, participation, and transformation. Roche argues that children are full, interdependent members of the communities of which they are a part. They have a claim on the fruits of our common life and are called to participate in that life according to their age and ability. The principle of the common good forms the benchmark for analyzing children's participation in the market and the ways in which market logic shapes other institutions of civil society, particularly educational institutions. The Cristo Rey Network of schools is highlighted as an example of institutional transformation which shapes children's participation in education and the economic life of their families and communities in a spirit of solidarity.

**Children Who Are Not Yet Peaceful** Dec 14 2020 Charting the progress of twelve children in a real Texas classroom, educator Donna Goertz shows how positive change can occur given the proper environment. In each case she describes a child's transformation from destructive troublemaker to responsible citizen of the classroom community. Readers will learn how to apply Montessori methods to virtually any early elementary environment.

**The Institutions of American Democracy** Jan 03 2020 From curriculum standards and testing to school choice and civic learning, issues in American education are some of the most debated in the United States. The Institutions of American Democracy , a collection of essays by the nation's leading education scholars and professionals, is designed to inform the debate and stimulate change. In association with the Annenberg Foundation Trust at Sunnyslans and the Annenberg Public Policy Center at the University of Pennsylvania, The Institutions of American Democracy is the first in a series of books commissioned to enhance public understanding of the nature and function of democratic institutions. A national advisory board--including, among others, Nancy Kassebaum Baker, David Boren, John Brademas, Ellen Condliffe Lagemann, David Gergen, and Lee Hamilton--will guide the vision of the project, which includes future volumes on the press and the three branches of government. Each essay in The Institutions of American Democracy addresses essential questions for policymakers, educators, and anyone committed to public education. What role should public education play in a democracy? How has that role changed through American history? Have the schools lost sight of their responsibility to teach civics and citizenship? How are current debates about education shaping the future of this democratic institution? Among the contributors are William Galston, Director of the Institute for Philosophy and Public Policy at the University of Maryland;Clarence Stone, Professor in the Department of Government and Politics at the University of Maryland - College Park and editor of Changing Urban Education and Regime Politics: Governing Atlanta, 1946-1988 (University Press of Kansas, 1998).; Susan Moore Johnson, Pforzheimer Professor of Education in Learning and Teaching, Harvard University; Michael JohaneK, Executive Director of K-12 Professional Development, College Board; Kathy Simon, co-executive director of the Coalition for Essential Schools and author of Moral Questions in the Classroom (Yale University Press, 2001); and Jennifer Hochschild, Professor of Government and Professor of Afro-American Studies at Harvard University and author of Facing Up to the American Dream: Race, Class, and the Soul of the Nation (Princeton University Press, 1995).

**Teaching in the Middle and Secondary Schools** Jun 27 2019 Teaching in the Middle and Secondary Schools, Ninth Edition, is a highly practical text for pre-service teachers in middle school and secondary methods courses. Readers will find useful, ready-to-use classroom applications for planning instruction, selecting and using instructional strategies, and assessment. Each module includes exercises and posttests.

**19 Urban Questions** Apr 29 2022 The second edition of 19 Urban Questions: Teaching in the City adds new questions to those in the original volume. Continuing the developing conversation in urban education, the book is provocative in style and rich in detail. Emphasizing the complexity of urban education, Shirley R. Steinberg and the authors ask direct questions about what urban teachers need to know. Their answers are guaranteed to generate both classroom discussion and discourse in the field for years to come. The book not only addresses questions pertaining directly to today's urban schools, but poses new ones for discussion, teacher education, and urban school research. Steinberg has gathered an impressive cadre of teacher/scholars who are engaged in a socially just urban pedagogy.

**Community Matters** Jul 21 2021 Community Matters is a reader/rhetoric that encourages students to think critically about the social, political, and philosophical meanings and importance of community while helping them to build a writer's community within their classroom. Reading selections and writing assignments throughout the book encourage students to consider the local, national, and global communities in which they live, and to respond to and participate in these communities through writing. Student writing is connected with the community through thematic inquiry, reflection, and structured writing activities.

**Public Spaces, Private Lives** Dec 02 2019 While many of the essays in this book were written before 9/11, they point to a number of important issues such as the commercialization of public life, the stepped up militarization, racial profiling, and the threat to basic civil liberties that have been resurrected since the terrorist attacks. Public Spaces, Private Lives serves to legitimate the claim that there is much in America that has not changed since 9/11. Rather than a dramatic change, what we are witnessing is an intensification and acceleration of the contradictions that threatened American democracy before the tragic events of 9/11. Hence, Public Spaces, Private Lives offers a context for both understanding and critically engaging the combined threats posed by the increase in domestic militarization and a neoliberal ideology that substitutes market values for those democratic values that are crucial to rethinking what a vibrant democracy would look like in the aftermath of September 11th.

**A Level Playing Field** Jun 07 2020 Examines the legal and political details of school funding reform in New York, Vermont, and Ontario.

**School Reform in a Global Society** Feb 25 2022 School Reform in a Global Society is about how a silent, wealthy upper class in the United States waited until the end of the Twentieth Century to transform America into something it once was during the Age of the Robber Barons. Known today as neoliberals, this nostalgic elite, craving the return of the unregulated capitalism of the nineteenth century, see themselves as the new Victorian imperialists. Using the term globalization to mean economic colonialism, their corporate policies force Third World governments, parents and children alike to accept schooling that disregards and damages their cultures. Even in the United States they discovered they could not create their nineteenth century imperial nirvana without first forcing schools to develop an obedient working class that swore allegiance to them. This social history of schools, capitalism, colonialism and its child named globalization is about how those who crave wealth and power are willing to gamble away the lives of American youth to satisfy their dreams of past economic glory.

**Segregated Schools** Aug 10 2020 Fifty years after the US Supreme Court ruled that "separate but equal" was "inherently unequal," Paul Street argues that little progress has been made to meaningful reform America's schools. In fact, Street considers the racial make-up of today's schools as a state of de facto apartheid. With an eye to historical development of segregated education, Street examines the current state of school funding and investigates disparities in teacher quality, teacher stability, curriculum, classroom supplies, faculties, student-teacher ratios, teacher' expectations for students and students' expectations for themselves. Books in the series offer short, polemic takes on hot topics in education, providing a basic entry point into contemporary issues for courses and general; readers.

**Toward a More Perfect Union** Mar 05 2020

**Encyclopedia of Educational Reform and Dissent** May 19 2021 The history of American education is replete with educational reform, and to a lesser extent, educational dissent. Consider the present: you have various forms of privatization, school choice, the 'No Child Left Behind' act, home schooling, 'value-added' accountability, alternative teacher preparation programs, on-line instruction, etc. This range of activity is not exceptional. For instance, consider the past: progressive education, open education, the junior high school, the middle school, Life Adjustment education, career education, vocational education, the comprehensive high school, school-to-work, year-round schooling, behavioral objectives, proficiency exams (high-stakes testing), whole language, learning packages and self-paced instruction, modular scheduling, site-based management, all presented as the way to reform American schools, at least in part. Then you have the reformers themselves, such as John Dewey, George Counts, Herbert Kohl, John Holt, Charles Silberman, Admiral Hyman Rickover, James Bryant Conant, all the way back to Horace Mann himself. Dissenters, and dissenting movements, while not as numerous and certainly not as well known in educational circles, count the various faith-based schools and individuals such as Archbishop Hughes of New York.Clearly, this is an area rich in ideas, rife with controversy, and vital in its outcome for individuals and the nation as a whole. And yet, strangely enough, there exists no major encyclopedia bringing the varied strands together in one place as a ready reference for scholars, teachers, school administrators, and students studying to enter the educational profession. This two-volume work is intended to be that authoritative resource. Key themes and topics include: " biographies of reformers and dissenters " theoretical and ideological perspectives " key programs and legislation " judicial verdicts impacting educational change in America " the politics and processes of educational reform and policy making " dissent and resistance to reform " technology's impact on educational reform. A Reader's Guide in the front matter groups entries around such themes to help readers find related entries more easily.

**Ordinary Resurrections** Nov 05 2022 In a stirring departure from his earlier work, Jonathan Kozol has written his most personal and hopeful book to date, an energized and unexpected answer to the bleakness of Death at an Early Age, the prize-winning classic that he published more than 30 years ago. Like his most recent book, *Amazing Grace*, this work also takes place in New York's South Bronx; but it is a markedly different book in mood and vantage point, because we see life this time through the eyes of children, not, as the author puts it, from the perspective of a grown-up man encumbered with a Harvard education. Here, too, we see devoted teachers in a good but underfunded public elementary school that manages, against all odds, to be a warm, inviting, and protective place; and we see the children also in the intimate religious setting of a church in which they are watched over by the vigilant grandmothers of the neighborhood and by a priest whose ministry is, first and foremost, to the very young. A work of guarded optimism that avoids polemic and the fevered ideologies of partisan debate, *Ordinary Resurrections* is a book about the little miracles of stubbornly persistent innocence in children who are still unsoiled by the world and still can view their place within it without cynicism or despair. Sometimes playful, sometimes jubilantly funny, and sometimes profoundly sad, they're sensitive children, by and large -- complex and morally insightful -- and their ethical vitality denounces and subverts the racially charged labels that the world of grown-up expertise too frequently assigns to them. The author's personal involvement with specific children deepens as the narrative evolves. A Jewish man, now 63 years old, he finds his own religious speculations growing interwoven with the moral and religious explorations of the children, some of whom have been his friends for nearly seven years. The children change, of course, from year to year as they learn more about the world; but the author is changed also by the generous and tender ways in which the children, step by step, unlock their secrets and unveil the mysteries of their belief to him. Salvation in these stories comes not from the promises of politicians or the claims of sociology but from the ordinary resurrections that take place routinely in the hearts of children. "We all lie down," a theologian tells the author. "We all rise up. We do this every day." So, too, when given a fair chance, do many of the undervalued urban children of our nation. In this book, we see some beautiful children as they rise, and rise again.

**Nickel and Dimed** Jul 29 2019 The New York Times bestselling work of undercover reportage from our sharpest and most original social critic, with a new foreword by Matthew Desmond, author of *Evicted* Millions of Americans work full time, year round, for poverty-level wages. In 1998, Barbara Ehrenreich decided to join them. She was inspired in part by the rhetoric surrounding welfare reform, which promised that a job—any job—can be the ticket to a better life. But how does anyone survive, let alone prosper, on \$6 an hour? To find out, Ehrenreich left her home, took the cheapest lodgings she could find, and accepted whatever jobs she was offered. Moving from Florida to Maine to Minnesota, she worked as a waitress, a hotel maid, a cleaning woman, a nursing-home aide, and a Wal-Mart sales clerk. She lived in trailer parks and crumbling residential motels. Very quickly, she discovered that no job is truly "unskilled," that even the lowliest occupations require exhausting mental and muscular effort. She also learned that one job is not enough; you need at least two if you int to live indoors.

Nickel and Dimed reveals low-rent America in all its tenacity, anxiety, and surprising generosity—a land of Big Boxes, fast food, and a thousand desperate stratagems for survival. Read it for the smoldering clarity of Ehrenreich's perspective and for a rare view of how "prosperity" looks from the bottom. And now, in a new foreword, Matthew Desmond, author of *Evicted: Poverty and Profit in the American City*, explains why, twenty years on in America, Nickel and Dimed is more relevant than ever.

**African American Families Today** Apr 17 2021 From teen pregnancy to athletics, myths about African American families abound. This provocative book debunks many common myths about black families in America, sharing stories and drawing on the latest research to show the realities. As the book shows, racial inequality persists—we're clearly not in a “post-racial” society.

**Poverty and Schooling** Apr 05 2020 First published in 2001. Routledge is an imprint of Taylor & Francis, an informa company.

**Ordinary Resurrections** Oct 04 2022 The author offers his personal take on America's poverty-stricken urban neighborhoods, recalling the lessons he has learned from time spent among the nation's poorest people
