merits an outstanding in-depth account. Following the development of Yad Vashem since 1942, when the idea to commemorate the Holocaust in Eretz-Israel was raised for the first time, the narrative continues until the inauguration of Nathan Rapoport's Warsaw Ghetto Uprising memorial in 1976. The prolonged and complicated planning process of Yad Vashem's various monuments reveals the debates, failures and achievements involved in

commemorating the Holocaust. In reading this thought-provoking description, one learns how Israel's leaders aspired both to fulfill a moral debt towards the victims of the Holocaust as well as to make Yad Vashem an exclusive center of Holocaust commemoration both in the Jewish world and beyond.

Report of Canada's Truth and Reconciliation Commission and its six-year investigation of the residential school system for Aboriginal youth and the legacy of these schools. This report, the summary volume, includes the history of residential schools, the legacy of that school system, and the full text of the Commission's 94 recommendations for action to address that legacy. This report lays bare a part of Canada's history that until recently was little-known to most non-Aboriginal Canadians. The Commission discusses the logic of the colonization of Canada's territories, and why and how policy and practice developed to end the existence of distinct

societies of Aboriginal peoples. Using brief excerpts from the powerful testimony heard from Survivors, this report documents the residential school system which forced children into institutions where they were forbidden to speak their language, required to discard their clothing in favour of institutional wear, given inadequate food, housed in inferior and fire-prone buildings, required to work when they should have been studying, and subjected to emotional, psychological and often physical abuse. In this setting, cruel punishments were all too common, as was sexual abuse. More than 30,000 Survivors have been

compensated financially by the Government of Canada for their experiences in residential schools, but the legacy of this experience is ongoing today. This report explains the links to high rates of Aboriginal children being taken from their families, abuse of drugs and alcohol, and high rates of suicide. The report documents the drastic decline in the presence of Aboriginal languages, even as Survivors and others work to maintain their distinctive cultures, traditions, and governance. The report offers 94 calls to action on the part of governments, churches, public institutions and non-Aboriginal Canadians as a path to meaningful

reconciliation of Canada today with Aboriginal citizens. Even though the historical experience of residential schools constituted an act of cultural genocide by Canadian government authorities, the United Nation's declaration of the rights of aboriginal peoples and the specific recommendations of the Commission offer a path to move from apology for these events to true reconciliation that can be embraced by all Canadians.

Award to Science Education through Research. This book includes selected articles that document changes in her research approaches and theoretical frameworks. The articles represent the evolution of her thinking about the issue of girls in science as well as her impact on science education. The author's work is placed in the context of science education research at the time of publication, research in education and psychology, and the culture of the times. She pulls back the curtain that often makes the messy work of research seem straightforward and linear to reveal why she did the research and the methodological decisions she

She describes the serendipitous nature of some of the work as well as her frustrations in trying to understand data, and struggles to insure that she accurately and respectfully presented the voices of girls and their teachers. The book also includes some of the earliest research in engineering education preceding the focus on engineering practices found in the Next Generation Science and Engineering Standards. Understanding Girls provides insights into why girls may or may not decide to participate in science and engineering and what can be done to increase their participation. It provides evidence that we have

The Last American

Newspaper Jan 28 2020 This book reveals what is happening in small communities across the United States as their newspapers struggle to survive. It is a celebration not just of journalism, but of the inspirational people who do it and the news and events of small towns. Importantly, it asks the question: who will be the community watchdog of the future? This book memorializes the American newspaper through the story of the Post-

Star of Glens Falls, NY. The author, a devoted veteran of the Post-Star, compiles a series of vignettes that depict the newspaper's coverage over the years. They provide a glimpse behind the newsroom curtain through the stories of the investigative journalism done in small towns.

Warfare and the Miraculous in the Chronicles of the First Crusade

Mar 12 2021 In Warfare and the Miraculous in the Chronicles of the First Crusade, Elizabeth Lapina examines a variety of these chronicles, written both by participants in the crusade and by those who stayed behind. Her goal is to understand the enterprise from the perspective of its contemporaries and near contemporaries. Lapina analyzes the diversity of ways

in which the chroniclers tried to justify the First Crusade as a "holy war," where physical violence could be not just sinful, but salvific. The book focuses on accounts of miracles reported to have happened in the course of the crusade, especially the miracle of the intervention of saints in the Battle of Antioch. Lapina shows why and how chroniclers used these miracles to provide historical precedent and to reconcile the messiness of history with the conviction that history was ordered by divine will. In doing so, she provides an important glimpse into the intellectual efforts of the chronicles and their authors, illuminating their perspectives

toward the concepts of history, salvation, and the East.

Warfare and the Miraculous in the Chronicles of the First Crusade demonstrates how these narratives sought to position the crusade as an event in the time line of sacred history. Lapina offers original insights into the effects of the crusade on the Western imaginary as well as how medieval authors thought about and represented history.

History of the Jews Aug 24

2019 A landmark work of Jewish history and a worldwide phenomenon when it was first published, this masterpiece of Jewish history was translated in multiple languages and instantly become the de facto standard in the field. German academic HEINRICH GRAETZ (1817-1891) brings a sympathetic Jewish perspective to the story of his own people, offering readers today an affectionate, passionate history, not a detached, clinical

one. Backed by impeccable scholarship and originally published in German across 11 volumes between 1853 and 1875, this six-volume English-language edition was abridged under the direction of the author, and brought to American readers by the Jewish Publication Society of America in 1891. It remains an important work of the study of the Jewish religion and people to this day. Volume VI contains the index for the entire series, including tables of Jewish history and a comprehensive listing of characters, subjects, and maps. It also features a memoir of the author.

Medieval Maritime Warfare
Oct 19 2021 Following the fall of Rome, the sea is increasingly the stage upon which the human struggle of western civilization is played out. In a world of few roads and great disorder, the sea is the medium on which power is projected and wealth sought. Yet this confused period in the history of maritime warfare has rarely been studied □ it is little known and even less understood.

13/15

Charles Stanton uses an innovative and involving approach to describe this fascinating but neglected facet of European medieval history. He depicts the development of maritime warfare from the end of the Roman Empire to the dawn of the Renaissance, detailing the wars waged in the Mediterranean by the Byzantines, Muslims, Normans, Crusaders, the Italian maritime republics, Angevins and Aragonese as well as those fought in northern waters by the Vikings, English, French and the Hanseatic League. This pioneering study will be compelling reading for everyone interested in medieval warfare and maritime

Nebuchadnezzar's Dream Nov 19 2021 In 1099, the soldiers of the First Crusade took Jerusalem. As the news of this victory spread throughout Medieval Europe, it felt nothing less than miraculous and dream-like, to such an extent that many believed history

itself had been fundamentally altered by the event and that the Rapture was at hand. As a result of military conquest, Christians could see themselves as agents of rather than mere actors in their own salvation. The capture of Jerusalem changed everything. A loosely defined geographic backwater, comprised of petty kingdoms and shifting alliances, Medieval Europe began now to imagine itself as the center of the world. The West had overtaken the East not just on the world's stage but in God's plans. To justify this, its writers and thinkers turned to ancient prophecies, and specifically to one of the most enigmatic passages in the

Bible the dream King Nebuchadnezzar has in the Book of Daniel, of a statue with a golden head and feet of clay. Conventional interpretation of the dream transformed the state into a series of kingdoms, each less glorious than the last, leading inexorably to the end of all earthly realms-- in short, to the Apocalypse. The First Crusade signified to Christians that the dream of Nebuchadnezzar would be

fulfilled on their terms. Such heady reconceptions continued until the disaster of the Second Crusade and with it, the collapse of any dreams of unification or salvation-any notion that conquering the Holy Land and defeating the Infidel could absolve sin. In Nebuchadnezzar's Dream, Jay Rubenstein boldly maps out the steps by which these social, political, economic, and intellectual shifts occurred throughout the 12th century,

drawing on those who guided and explained them. The Crusades raised the possibility of imagining the Apocalypse as more than prophecy but actual event. Rubenstein examines how those who confronted the conflict between prophecy and reality transformed the meaning and memory of the Crusades as well as their place in history.
