Understanding the Entrepreneurial Mind Oct 12 2020 Interest in the functioning of the human mind can certainly be traced to Plato and Aristotle who often dealt with issues of perceptions and motivations. While the Greeks may have contemplated the human condition, the modern study of the human mind can be traced back to Sigmund Freud (1900) and the psychoanalytic movement. He began the exploration of both conscious and unconscious factors that propelled humans to engage in a variety of behaviors. While Freud's focus may have been on repressed sexuality our focus in this volume lies elsewhere. We are concerned herein with the expression of the cognitions, motivations, passions, intentions, perceptions, and emotions associated with entrepreneurial behaviors. We are attempting in this volume to expand on the work of why entrepreneurs think differently from other people (Baron, 1998, 2004). During the decade of the 1990s the field of entrepreneurship research seemingly abandoned the study of the entrepreneur. This was the result of earlier research not being able to demonstrate some unique entrepreneurial personality, trait, or characteristic (Brockhaus and Horwitz, 1986). It was both a naïve and simplistic search for the "holy grail" of what made entrepreneurs the way they are. However, many of the researchers in this volume have never gave up the belief that a better understanding of the mind of the entrepreneur would give us a better understanding of the processes that lead to the creation of new ventures.

**Gründe für das Scheitern von Start-ups** May 31 2022 Inhaltsangabe: Einleitung: Die Zahl der Insolvenzen und Aufgaben junger Start-up Unternehmen ist in den letzten Jahren stark angestiegen. Nicht alleine der einzelne Existenzgründer leidet, auch Beteiligungsgesellschaften und nicht zuletzt die öffentliche Hand haben die wirtschaftlichen Folgen derartiger unternehmerischer Fehlschläge zu tragen. Es zeigt sich, dass insbesondere in Wirtschaftssegmenten der Hochtechnologie, welchen in den letzten Jahren hohe Erwartungen als Impulsgeber für Innovation, Beschäftigung und Wirtschaftswachstum entgegengebracht wurden, vor dem Hintergrund steigender Ausfallzahlen Grund zur Besorgnis gegeben ist. Die bearbeitete Thematik ist insofern nicht nur aus betriebswirtschaftlicher Sicht äußerst interessant, sondern auch im volkswirtschaftlichen Zusammenhang beachtenswert. Bisherige Arbeiten zu diesem Thema erweisen sich häufig als, entweder thematisch sehr speziell (z.B. unternehmensbezogen) oder aber als relativ oberflächlich. Die bisherigen Ergebnisse bieten demnach auch keine umfassende theoretische Erklärung der relevanten wirtschaftlichen Zusammenhänge und bilden insofern meist nicht die geeignete Grundlage für ein zusammenhängendes Problemverständnis. Die Formulierung adäquater Lösungswege für einzelne Unternehmen ist auf der Basis dieses Wissensstandes nur schwer möglich. In der vorliegenden Arbeit werden empirisch beobachtbare Misserfolgsursachen von Start-ups zunächst einer tiefgehenden theoretischen Ursachenanalyse unterzogen. Dies beinhaltet die Einbeziehung theoretischer Modelle und Zusammenhänge aus der Erfolgsfaktoren- und Entrepreneurship-Forschung. Einschlägige Ansätze werden übersichtlich dargestellt und dienen der Schaffung eines wissenschaftlichen Grundverständnisses bezüglich der Gesamthematik. In diesem Sinne erfolgt eine modellgestützte Reduktion komplexer realer Zusammenhänge. Dieses Vorgehen sichert eine möglichst hohe Übertragbarkeit der Ergebnisse auf unterschiedliche Unternehmensgegebenheiten sowie andere Wirtschaftsbereiche außerhalb der Hochtechnologie. Anhand konkreter Praxisbeispiele wird anschließend auf interne sowie externe Faktoren des (Miss-)Erfolges von Start-ups eingegangen. Als interne Gründe wird dabei unter anderem auf Merkmale der Gründerperson(en) eingegangen. Teamgründungen, Businessplanung, Geschäftsumsetzung sowie Unternehmenswachstum sind weitere Meilensteine der Analyse. Im Rahmen der Arbeit werden dabei konsequent sämtliche betrieblichen Bereiche, von der [...]

*Strategic Security Issues in Sub-Saharan Africa* Jul 29 2019 This comprehensive work is the first important and multifaceted text that concentrates on strategic issues covering political economy directly and indirectly impacting the continent.

**Strategic Management in Public Organizations** Oct 31 2019 Strategic Management in Public Organizations: European Practices and Perspectives offers the first wide-ranging survey and assessment of strategic management practices at various levels of government and public service in European countries. It shows that strategic management is much more than a management tool

imported from the private sector - it has become a key element of public management reforms, and European governments at all levels are developing 'strategic state' characteristics. Written by leading European experts on strategic management in the public sector and in government, this book presents evaluations and analysis based on empirical investigations. The book covers strategic management at different levels of government, explore the roles of different players, and incorporate theory and practice, with opening and concluding chapters by the editors that provide an overview of strategic management in the public services and a cross-societal discussion of practices, reforms, and lessons. It reflects not only developments in strategic management practices in the European public sector, but also the increasing importance of strategic capabilities for the modernization of public governance. This book is ideal for students in postgraduate management courses (MPA, MSc, or MBA) in Europe and elsewhere.

Innovation In China: A Strategic Management Casebook May 19 2021 Innovation has shaped society since civilization began. Imperial China was the most innovative society on earth, but it failed to join the 19th century industrial revolution. In the 20th century, the Communist Party of China addressed that failure. Today China boasts an internationally compliant, rapidly developing IP system. State planning continues to be critical as the case of the largest, single, technology acquisition and infrastructure project in world history, high speed rail, demonstrates. But most of the innovation in China comes from the private sector: government incubators are among the government stimuli of private initiative, both local and global. And as the case on Cisco shows, foreign MNCs management of innovation in China is attractive but must involve co-ordination with government policy. This book presents cases where managers determine policy in China's increasingly innovative society. Readers take the roles of decision-makers to make strategy decisions. The cases in this volume showcase China's traditional three teachings, socialist market institutions, and modern management using studies on current Chinese companies and their leaders, among them big names such as Haier and Huawei. Each case stands alone as teaching material for instructors. Taken together, the book presents evolving models of innovation. Their subtle differences from western constructs critically impact the development of our global society.

Black Tuesday Over Namsi Jun 07 2020 A gripping true account of warfare in the skies over Korea, when American bombers and North Korean jet fighters would change the course of air combat. On October 23, 1951, an hour and a half before sunrise, nine B-29s of the 307th Bombardment Wing took off from Kadena Air Force Base in Okinawa, Japan, on a bombing mission against Namsi—a North Korean airfield under construction in the heart of the shooting gallery known as MiG Alley. In under six hours, they would engage in a battle that would forever change the conduct of strategic aerial bombardment. Six of the nine aircrafts were shot down; the highest percentage of US bombers ever lost on a major mission. Unfortunately, this event that many experts consider the epic air battle of the Korean War—and perhaps the greatest jet engagement in the history of aerial warfare—has become another forgotten fight in a forgotten war. Here, Earl J. Hill presents the facts and circumstances of the mission from first briefing to final landing using historical documents, firsthand accounts of aircrew members and ground personnel from both sides, and photographs of the mission and its aftermath. This is the story of those who clashed in the skies above Namsi, the events leading up to it, and Black Tuesday's historical impact on the aerial warfare tactics.

*Venture-Capital-Gesellschaften und Gründungsunternehmen* Apr 29 2022 Solveig Reißig-Thust betrachtet sämtliche Phasen des Beteiligungsprozesses und leitet Instrumente und Methoden zur Lösung potenzieller Probleme ab. Die empirische Überprüfung der Eignung dieser Lösungen zur Steigerung des Beteiligungserfolges zeigt, dass vor allem die Qualität der Beteiligungswürdigkeitsprüfung, die funktionale Einbindung der VC-Gesellschaft im

Gründungsunternehmen und verschiedene Elemente der Vertragsgestaltung zu einer Verbesserung führen.

Strategic Management Dec 14 2020 Strategic Management: An Organization Change Approach examines the art and science of strategic management in businesses and other organizations.

Working from an established theoretical base, this new work discusses practical applications of various strategic management philosophies while focusing on strategy as organizational change. Sherman, Rowley, and Armandi outline specific strategies and tactics that managers can use to maximize not only productivity, but also satisfaction in their "human organizations." In an interactive and approachable manner, Strategic Management analyzes the importance of an organization's internal and external environment; explains how to develop an organizational mission, vision, values, and goals; identifies human-level vs. corporate-level strategy choices; and offers advice on how managers can effectively implement their plans. The authors also consider variables that might affect the proposed strategic management approaches, such as international environments, and non-profit, government, and small businesses.

Write Now & Write On. Grades 6-12 Sep 10 2020 From social media to school success—take student writing to the next level! Your students may not realize it, but they're already writers. All those informal text messages, Instagram captions, and Facebook posts have given them skills they can use as a springboard to the formal, content-specific writing they'll need for success in school, college, and careers. The key, of course, is practice—plus a little guidance from you. And you'll be ready, no matter what subject you teach, because this essential reference is packed with relevant, contemporary teaching strategies that are easily customizable to work across content areas. Inside, you'll find: Engaging exercises based in the kinds of writing students already do Versatile "parachute writings"—quick bursts of practice to drop into a day's lesson Strategies for introducing academic vocabulary and making it stick Skill-boosting strategies for successful summarizing and using textual evidence Variations specific to all disciplines and content areas Students should be writing daily, in all their classes, and they should be writing a lot, both inside and outside school. With this practical guide, you'll be ready to help them up their writing game—and make literacy relevant, valuable, and authentic.

**Frontiers of Entrepreneurship Research** Dec 02 2019

Decision Making in Entrepreneurship Sep 03 2022 In this volume, Dean Shepherd focuses on the varying topics of entrepreneurship unified through conjoint analysis. Although the topic of entrepreneurial decision making is broad, in doing so, he reveals the mechanisms that come into play during the entrepreneurial decision-making process.

**Groundwater and Soil Remediation** Apr 05 2020 This bestselling author presents his latest compilation of time- and cost-saving techniques, methods, and strategies for soil and groundwater remediation. This book outlines advanced technologies, including phytoremediation, air sparging, reactive zones, vacuum-enhanced recovery, and more!

**The Aspiring Entrepreneurship Scholar** Mar 17 2021 This book offers helpful insight and advice on how doctoral students and junior faculty can succeed as an entrepreneurship scholar. It invites them to think entrepreneurially to identify research opportunities, manage the publication process, achieve excellence in the classroom, secure a faculty position, and build a research record worthy of promotion and tenure. Drawing from his experience as a research scholar, editor, review board member, mentor, and reviewer of many promotion and tenure cases, author Dean Shepherd offers strategies and other pieces of advice for navigating the obstacles that can prevent a successful scholarly career. This book provides an overview and roadmap to help

entrepreneurship scholars achieve success, and stimulates thought and discussion for doctoral students and junior and senior faculty to consider as they look to develop the next generation in academia.

**China's Grand Strategy** Jun 27 2019 Leading scholars examine China's global strategic plans, from Hong Kong to military power, to economic dominance Over the past few decades, China has increasingly challenged the global influence of the United States. In *China's Grand Strategy*, David B. H. Denoon brings together a group of eminent scholars to explain China's rapid ascendance on the world stage, as well as its future implications for global politics. Contributors address the military, economic, diplomatic, and internal political factors shaping China's strategy, in addition to highlighting Beijing's objectives in different parts of the world, such as Central Asia, Africa, and the Middle East. Ultimately, they explore the promise and perils of China's rapidly changing political ambitions, showing how the country has made its mark on the twenty-first century. *China's Grand Strategy* provides insight into China's quest to become a global leader, particularly at a time when the future of both China and the US remain uncertain in the context of current crises like the coronavirus pandemic, the ongoing protests in Hong Kong, and escalating tension between top leaders and officials. This book cannot predict the future for China or the US, but the insights offered can help make sense of where we have been and where we are going.

**A Psychological Approach to Entrepreneurship** Aug 10 2020 Within an entrepreneurial context, what a person thinks and feels and how they behave are hugely consequential. Entrepreneurs often work in scenarios of considerable time pressure, task complexity, uncertainty and high performance variance. This fasci

*Children's Books in Print 1998* Sep 30 2019

**Learning Basic Calculus** Nov 05 2022 This introductory calculus text was developed by the author through his teaching of an honors calculus course at Notre Dame. The book develops calculus, as well as the necessary trigonometry and analytic geometry, from within the relevant historical context, and yet it is not a textbook in the history of mathematics as such. The notation is modern, and the material is selected to cover the basics of the subject. Special emphasis is placed on pedagogy throughout. While emphasizing the broad applications of the subject, emphasis is placed on the mathematical content of the subject.

**Lean CX** Nov 12 2020 In recent years, many companies have realised customer experience (CX) is the new marketing battle ground. Substantial investments have been made to map customer journeys, identify pain points and improve CX to try and create cut-through. Using real world applications to introduce next generation design tools based on proven concepts from strategy, marketing, psychology and creative problem solving, *Lean CX: How to Differentiate at Low Cost and Least Risk* discusses how to use Lean Management approaches to innovate your customer experience. This practical book describes how the tools from Lean Management can be applied to the CX innovation problem. The authors draw on hundreds of CX design and strategic innovation projects across a range of industries, both B2B and B2C, from primary research through client work and secondary case studies available in the public domain. The examples include many different vertical industry sectors, including those involving hybrid business models. The cases included share what worked really well and where CX failed. The content goes beyond what actually happened to present an idea of what might be possible with the right design approach and committed resources.
