Strangers Drowning Jan 15 2021 What does it mean to devote yourself wholly to helping others? In *Strangers Drowning*, Larissa MacFarquhar seeks out people living lives of extreme ethical commitment and tells their deeply intimate stories; their stubborn integrity and their compromises; their bravery and their recklessness; their joys and defeats and wrenching dilemmas. A couple adopts two children in distress. But then they think: If they can change two lives, why not four? Or ten? They adopt twenty. But how do they weigh the needs of unknown children in distress against the needs of the children they already have? Another couple finds a leprosy colony in the wilderness in India, living in huts with no walls, knowing that their two small children may contract leprosy or be eaten by panthers. The children survive. But what if they hadn't? How would their parents' risk have been judged? A woman believes that if she spends money on herself, rather than donate it to buy life-saving medicine, then she's responsible for the deaths that result. She lives on a fraction of her income, but wonders: when is compromise self-indulgence and when is it essential? We honor such generosity and high ideals; but when we call people do-gooders there is skepticism in it, even hostility. Why do moral people make us uneasy? Between her stories, MacFarquhar threads a lively history of the literature, philosophy, social science, and self-help that have contributed to a deep suspicion of do-gooders in Western culture. Through its sympathetic and beautifully vivid storytelling, *Strangers Drowning* confronts us with fundamental questions about what it means to be human. In a world of strangers drowning in need, how much should we help, and how much can we help? Is it right to care for strangers even at the expense of those we are closest to? Moving and provocative, *Strangers Drowning* challenges us to think about what we value most, and why.

On the Other Side of Chaos Aug 02 2022 Based in part on her own family's journey, Ellen Van Vechten explains the science of addiction, the theory of treatment, and the twelve-step model of recovery, providing sensible information and tips for reasoned action in support of a loved one while fostering personal growth and recovery. Powerlessness over another's addiction has a caustic effect on the family. Too often parents and partners equate "letting go" with "giving up." While acceptance of a lack of control is essential to coping with the disease within the family system, there is nothing passive about supporting a partner or child in their journey to recovery. This concept is the foundation of Van Vechten's original approach to empower individuals with knowledge, which when coupled with acceptance allows any family dealing with active addiction to make thoughtful and reasoned decisions to facilitate the recovery of both their loved ones and themselves.

The Rough Patch Jun 27 2019 "Anyone grappling with the bewilderment of midlife...will be at once provoked and comforted by this enormously wise book" (Dani Shapiro, New York Times bestselling author of Hourglass: Time, Memory, Marriage), from a psychologist who has worked for decades with people struggling to preserve and enhance their marriages and long-term relationships. People today are trying to make their marriages work over longer lives than ever before. But staying married isn't always easy. In the brilliant, transformative, and optimistic *The Rough Patch*, clinical psychologist Daphne de Marneffe explores the extraordinary pushes and pulls of midlife marriage, where our need to develop as individuals can crash headlong into the demands of our relationships. "A book of good intentions and helpful advice and a worthy manual for spouses" (Kirkus Reviews), *The Rough Patch* addresses common problems: money, alcohol and drugs, the stresses of parenthood, sex, extramarital affairs, lovesickness, health, aging, children leaving home, and dealing with elderly parents. Then, de Marneffe offers seasoned wisdom on these difficulties, explaining the psychological, emotional, and relational capacities we must cultivate to overcome them as individuals and as couples. Blending research, interviews, and clinical experience, de Marneffe dives deep into the workings of love and the structures of relationships. Intimate and always illuminating, *The Rough Patch* is an essential, compassionate resource for people trying to understand "where they are" on the continuum of marriage, giving them a chance to share in other people's stories and struggles. "De Marneffe writes with poetry, wit, and compassion about the necessity of struggle in the quest for true love. Anyone in any relationship at any stage of life could stand to learn from the wisdom in these pages" (Andrew Solomon, National Book Award-winning author of *Far from the Tree*).

ADDICTION: WHY THEY USE (A handbook for anyone that loves an alcoholic or addict) Jul 21 2021 Addiction is perhaps one of the most emotionally painful issues we can observe in someone we love. Because of the complex emotional nature of the problem it is without question one of the most confusing human health issues we have ever faced as a society. Addiction often leaves loved ones worried, tortured and full of guilt. Addictive disease creates excessive levels of fear, stress and anxiety. It leaves family members living in a toxic state of fear for what the future might bring, as well as overwhelming physical and emotional exhaustion resulting from worry and blame. For those who love the addicted many crucial questions have remained unanswered for far too long. "Why They Use" bridges the information gaps for loved ones in very simplified and understandable terms. No longer are the loved ones of alcoholics and addicts left alone in fear. I understand your suffering because I have experienced it too! I wrote this book for you.

America Anonymous Jul 29 2019 *America Anonymous* is the unforgettable story of eight men and women from around the country -- including a grandmother, a college student, a bodybuilder, and a housewife -- struggling with addictions. For nearly three years, acclaimed journalist Benoit Denizet-Lewis immersed himself in their lives as they battled drug and alcohol abuse, overeating, and

compulsive gambling and sexuality. Alternating with their stories is Denizet-Lewis's candid account of his own recovery from sexual addiction and his compelling examination of our culture of addiction, where we obsessively search for new and innovative ways to escape the reality of the present moment and make ourselves feel "better." Addiction is arguably this country's biggest public-health crisis, triggering and exacerbating many of our most pressing social problems (crime, poverty, skyrocketing health-care costs, and childhood abuse and neglect). But while cancer and AIDS survivors have taken to the streets -- and to the halls of Congress -- demanding to be counted, millions of addicts with successful long-term recovery talk only to each other in the confines of anonymous Twelve Step meetings. (A notable exception is the addicted celebrity, who often enters and exits rehab with great fanfare.) Through the riveting stories of Americans in various stages of recovery and relapse, Denizet-Lewis shines a spotlight on our most misunderstood health problem (is addiction a brain disease? A spiritual malady? A moral failing?) and breaks through the shame and denial that still shape our cultural understanding of it -- and hamper our ability to treat it. Are Americans more addicted than people in other countries, or does it just seem that way? Can food or sex be as addictive as alcohol and drugs? And will we ever be able to treat addiction with a pill? These are just a few of the questions Denizet-Lewis explores during his remarkable journey inside the lives of men and women struggling to become, or stay, sober. As the addicts in this book stumble, fall, and try again to make a different and better life, Denizet-Lewis records their struggles -- and his own -- with honesty and empathy.

[The Making of English Photography: Allegories](#) Dec 02 2019 Since the production of the first negative by William Henry Fox Talbot in Wiltshire's Lacock Abbey in 1835, English photography has played a central role in revolutionizing the production of images, yet it has largely evaded critical attention. *The Making of English Photography* investigates this new enterprise--and specifically how professional photographers shaped a strange aesthetic for their practice. *The Making of English Photography* examines the development of English photography as an industrial, commercial, and (most problematically) artistic enterprise. Concentrating on the first decades of photography's history, Edwards tracks the pivotal distinction between art and document as it emerged in the writings of the "men of science" and professional photographers, suggesting that this key opposition is rooted in social fantasies of the worker. Through a close reading of the photographic press in the 1860s, he both reconstructs the ideological world of photographers and employs the unstable category of photography to cast light on art, class, and industrial knowledge. Bringing together an array of early photographs, recent historical and theoretical scholarship, and extensive archival sources, *The Making of English Photography* sheds new light on the prevailing discourses of photography as well as the antinomies of art and work in a world shaped by social division.

The 12-Step Buddhist Jan 03 2020 The face of addiction and alcoholism is a face that many have seen before -- it may be a celebrity, a colleague, or even a family member. And though the 12-step program by itself can often bring initial success, many addicts find themselves relapsing back into old ways and old patterns, or replacing one addiction with another. Author Darren Littlejohn has been there and back, and presents a complimentary guide for recovery to the traditional twelve-step program, out of his own struggles and successes through the study of Zen and Tibetan Buddhism. Working with the traditional 12-Step philosophy, the author first shares his own life path, and how he came to find the spiritual solace that has greatly enhanced his life in recovery. Then, he details out how his work integrating Buddhism into the traditional twelve-step programs validates both aspects of the recovery process. While being careful not to present himself as a Tibetan lama or Zen master, the author shows how each step -- such as admitting there is a problem, seeking help, engaging in a thorough self-examination, making amends for harm done, and helping other drug addicts who want to recover -- fits into the Bodhisattva path. This integration makes Buddhism accessible for addicts, and the 12 Steps understandable for Buddhists who may otherwise be at a loss to help those in need. The 12-Step Buddhist is designed to be a complimentary practice to the traditional 12-step journey, not a replacement. While traditional twelve-step programs help addicts become sober by removing the drug of choice and providing a spiritual path, they rarely delve deep into what causes people to suffer in the first place. The integration of Buddhism with the traditional process provides the wisdom and meditations that can help addicts truly find a deep, spiritual liberation from all causes and conditions of suffering -- for good.

In this “unique synthesis of the traditional 12-Step model and the liberating wisdom of Dharma” (Mandala Magazine), addicts can truly find a deep, spiritual liberation from all causes and conditions of suffering—for good.

Coming Clean Jul 09 2020 My name is Liz, and I am the partner of an alcoholic. Coming Clean is a searingly honest memoir of loving an alcoholic – both through the heaviest drinking years and into recovery. When Liz Fraser's partner fell into a catastrophic vortex of depression and alcoholism, Liz found herself in a relentless hailstorm of lies, loneliness and fear, looking after their young child on her own, heartbroken, mentally shattered and with no idea what was happening or what to do. As she and her family moved between Cambridge, Venice and Oxford, she kept the often shocking truth entirely to herself for a long time, trying in vain to help her partner find a path to sobriety, until she herself finally broke from the trauma and started to speak out – only to find she was one of hundreds experiencing similar things, also living in silence and fear. Part diary, part travel journal and part love letter, Coming Clean is the true story of addiction of many kinds, mental collapse and heartbreak. Above all, it offers a voice of deep human compassion, strength and hope for recovery. I hope that in sharing this story it might change the way addiction is talked about and understood from both sides, encourage open, trusting and supportive dialogue between addicts and those their addiction affects, and provide some solace and help for those who need it – as I did.

Transforming Memories Mar 05 2020 From different families and different childhoods, three women remember and speak out about the secrecy, silence, and shame of having an alcoholic parent. Through spontaneous writing with "loaded words" and person-to-person sharing, the women embarked on a transformative journey in which painful images were brought to light, were accepted, and became less painful. Transforming Memories is a collection of their healing writings and an invitation to others, whatever their past burdens, to use the technique of spontaneous writing to reveal difficult memories more clearly.
