Understanding Principles of Politics and the State Nov 30 2019 Originally published under the title *Principles of Politics*, this completely revised and updated work is a study in applied political theory. It uses current political society and politics as its backdrop and shows that the nature, authority, origin, and purpose of the state are dictated by fundamental theoretical and practical principles linked to the goals and values of ordinary life. Helpful in the quest for understanding are depictions of the political world by ancient philosophers as well as contemporary political scientists. With detailed examples, *Understanding Principles of Politics and the State* examines the charge that democracy is a myth, describes the world of academic political science, and belies the cynicism that principles and politics do not go together. An efficient and effective organizing principle is used to explain justice, rights, groups, church and state, federalism, constitutionalism, and even proposals for "world government." A brief case study of the Philippines illustrates some basic principles of state building. A preference for presidential over parliamentary government stands at odds with the view of many commentators. The necessity for principles in understanding ubiquitous change ends the book. Advanced Study in the History of Modern India 1707-1813 Jun 25 2019 An analytical and critical account of the political history of early modern India from 1707 to 1813. The narrative shatters the contention of contemporary European writers that it was 'the dark age' of Indian history, characterised by 'political anarchy and misgovernment', until the British brought it under their sway. The main thesis of the author is that the period was marked by two distinct phases; the first phase, which lasted from 1707 to 1760, saw the rapid disintegration of the Mughal power and its replacement by the Maratha hegemony. Meanwhile, the English traders turned colonialists, after consolidating their hold along the Indian seacoasts and conquest of 'Carnatic' and Bengal, challenged the Maratha hegemony. The second phase of developments was thus marked by the struggle for supremacy between these two powers. The author makes use of contemporary English and Marathi sources and the intensive researches of modern historians to portray a compact picture of their findings in the form of a text book for the benefit of the degree students. Historical facts are reinterpreted through illuminating expositions, refreshing characterisation of historic personalities, and objective assessment of events and movements. Together with maps, a select bibliography, glossary and an elaborate index, the volume makes a rich contribution to the advancement of modern historical literature.

Globalizing Transitional Justice Jul 27 2019 Among the most prominent and significant political and legal developments since the end of the Cold War is the proliferation of mechanisms for addressing the complex challenges of transition from authoritarian rule to human rights-based democratic constitutionalism, particularly with regards to the demands for accountability in relation to conflicts and abuses of the past. Whether one thinks of the Middle East, South Africa, the Balkans, Latin America, or Cambodia, an extraordinary amount of knowledge has been gained and processes instituted through transitional justice. No longer a byproduct or afterthought, transitional justice is unquestionably the driver of political change. In *Globalizing Transitional Justice*, Ruti G. Teitel provides a collection of her own essays that embody her evolving reflections on the practice and discourse of transitional justice since her book *Transitional Justice* published back in 2000. In this new book, Teitel focuses on the ways in which transitional justice concepts have found legal expression, especially through human rights law and jurisprudence, and international criminal law. These essays shed light on some of the difficult choices encountered in the design of transitional justice: criminal trials vs. amnesties, or truth commissions; domestic or international processes; peace and reconciliation vs. accountability and punishment. Transitional justice is considered not only in relation to political events and legal developments, but also in relation to the broader social and cultural tendencies of our times.

American Cities in Post-Apocalyptic Science Fiction Nov 22 2021 Visions of the American city in post-apocalyptic ruin permeate literary and popular fiction, across print, visual, audio and digital media. *American Cities in Post-Apocalyptic Science Fiction* explores the prevalence of these representations in American culture, drawing from a wide range of primary and critical works from the early-twentieth century to today. Beginning with science fiction in literary magazines, before taking in radio dramas, film, video games and expansive transmedia franchises, Robert Yeates argues that post-apocalyptic representations of the American city are uniquely suited for explorations of contemporary urban issues. Examining how the post-apocalyptic American city has been repeatedly adapted and repurposed to new and developing media over the last century, this book reveals that the content and form of such texts work together to create vivid and immersive fictional spaces in ways that would otherwise not be possible. Chapters present media-specific analyses of these texts, situating them within their historical contexts and the broader history of representations of urban ruins in American fiction. Original in its scope and cross-media approach, *American Cities in Post-Apocalyptic Science Fiction* both illuminates little-studied texts and provides provocative new readings of familiar works such as *Blade Runner* and *The Walking Dead*, placing them within the larger historical context of imaginings of the American city in ruins.

Advances in Comparative-Historical Analysis Aug 08 2020 Against the backdrop of an explosion of interest in new techniques for data collection and theory testing, this volume provides a fresh programmatic statement about comparative-historical analysis. It examines the advances and distinctive contributions that CHA has made to theory generation and the explanation of large-scale outcomes that newer approaches often regard as empirically intractable. An introductory essay locates the sources of CHA's enduring influence in core characteristics that distinguish this approach, such as its attention to process and its commitment to empirically grounded, deep case-based research. Subsequent chapters explore broad research programs inspired by CHA work, new analytic tools for studying temporal processes and institutional dynamics, and recent methodological tools for analyzing sequences and for combining CHA work with other approaches. This volume is essential reading for scholars seeking to learn about the sources of CHA's enduring influence and its contemporary analytical and methodological techniques.

The Left Behind Fantasy Mar 27 2022 The popular Left Behind series by Tim LaHaye and Jerry Jenkins has sold more than 62 million copies since the first volume appeared in 1995. Jerry Falwell pronounced it the most important series of books in the history of modern Christianity. Many readers have assumed it gives the true facts about the way the world will end and what will happen to all the people in it. But according to real biblical scholarship, this series is seriously flawed. Based on a misreading of many scriptures, including Daniel and the Book of Revelation, it has fed a kind of hysteria in the Christian populace that has led many people to reorder their existence in expectation of an impending doom and the sudden, unexpected return of Jesus. In this book, William Powell Tuck carefully and authoritatively refutes the premises and faulty theology of the Left Behind books, critiquing them in the light of genuine biblical scholarship and common sense.

Selling a 'Just' War Jun 05 2020 Butler sheds light on how American political leaders sell the decision to intervene with military force to the public and how a just war frame is employed in US foreign policy. He provides three post-Cold War examples of foreign policy crises: the Persian Gulf War (1990-91), Kosovo (1999), and Afghanistan (2001).

***Left Behind Answered Verse by Verse* Feb 23 2022 Will unbelievers and half-hearted churchgoers have 7 more years to make up their minds about Christ after He raptures the Church? LEFT BEHIND gives them all a 'second chance.' But is that what Jesus taught? His parables of the talents, the wise and foolish virgins, the wheat and the tares, and the faithful and evil servant all show him returning unexpectedly with both rewards and punishments in his hands. Neither the parables nor the plain words of Christ teach a second chance for those surprised by his coming. But LEFT BEHIND does. Few Christians realize LEFT BEHIND tosses aside the teachings of Luther, Calvin, Tyndale, Wesley, Wycliffe and Spurgeon. Read dozens of quotes from these and other respected sources that show LEFT BEHIND strays far from the truths Bible readers have understood for centuries. Author of JEHOVAH'S WITNESSES ANSWERED VERSE BY VERSE and MORMONS ANSWERED VERSE BY VERSE (Baker Book House), David A. Reed is known worldwide as an expert in refuting false prophecy.**

***Formen des Krieges* Aug 20 2021 "Der Krieg und die Gestalten, die er annimmt, sind im Laufe der Zeit stetem Wandel unterworfen gewesen. Sie sind es noch. Rund 60 Jahre nach dem Ende des Zweiten Weltkrieges, dem ersten wirklich weltumspannenden Staatenkrieg der Geschichte, von dem viele glauben, er sei auch der letzte gewesen, wird in der Öffentlichkeit und Wissenschaft zunehmend über neue 'asymmetrische' Kriege gesprochen, wie sie an verschiedenen Stellen des Globus geführt werden. Unterscheiden sich diese 'neuen Kriege' von den Kriegen früherer Jahrhunderte? Wenn ja, worin? Oder wiederholen sie nur frühere Kriegsformen in moderner Gestalt? Ist nur das Reden über die Kriege neu, sie selbst sind es nicht? Antworten auf diese Fragen wird man nur finden, wenn man die Formen des Krieges von der Antike bis zur Gegenwart klassifiziert und vergleichend in den Blick nimmt. Das tut dieses grundlegende Buch." --Back cover.**

Palgrave Advances in Peacebuilding Mar 15 2021 The quality of the peace arrived at via liberal peacebuilding approaches has been poor. The related statebuilding praxis has generally been unable to respond to its critics. What is at stake is a recognition of peacebuilding's everyday political, social, economic, and cultural dynamics. This indicates the emergence of a post-liberal form of peace.

***Plotting Apocalypse* Jun 29 2022 It is the not-too-distant future, and the rapture has occurred. Every born-again Christian on the planet has, without prior warning, been snatched from the earth to meet Christ in the heavens, while all those without the requisite faith have been left behind to suffer the wrath of the Antichrist as the earth enters into its final days. This is the premise that animates the enormously popular cultural phenomenon that is the Left Behind series of prophecy novels, co-written by Tim LaHaye and Jerry Jenkins and published between 1995 and 2007. But these books are more than fiction: it is the sincere belief of many evangelicals that these events actually will occur--soon. *Plotting Apocalypse* delves into the world of rapture, prophecy, and tribulation in order to account for the extraordinary cultural salience of these books and the impact of the world they project. Through penetrating readings of the novels, Chapman shows how**

the series offers a new model of evangelical agency for its readership. The novels teach that although believers are incapable of changing the course of a future that has been preordained by God, they can become empowered by learning to read the prophetic books of the Bible--and the signs of the times--correctly. Reading and interpretation become key indices of agency in the world that Left Behind limns. Plotting Apocalypse reveals the significant cultural work that Left Behind performs in developing a counter-narrative to the passivity and fatalism that can characterize evangelical prophecy belief. Chapman's arguments may bear profound implications for the future of American evangelicalism and its interactions with culture, society, and politics.

Religion of Fear Dec 24 2021 Conservative evangelicalism has transformed American politics, disseminating a sometimes fearful message not just through conventional channels, but through subcultures and alternate modes of communication. Within this world is a "Religion of Fear," a critical impulse that dramatizes cultural and political conflicts and issues in frightening ways that serve to contrast "orthodox" behaviors and beliefs with those linked to darkness, fear, and demonology. Jason Bivins offers close examinations of several popular evangelical cultural creations including the Left Behind novels, church-sponsored Halloween "Hell Houses," sensational comic books, especially those disseminated by Jack Chick, and anti-rock and -rap rhetoric and censorship. Bivins depicts these fascinating and often troubling phenomena in vivid (sometimes lurid) detail and shows how they seek to shape evangelical cultural identity. As the "Religion of Fear" has developed since the 1960s, Bivins sees its message moving from a place of relative marginality to one of prominence. What does it say about American public life that such ideas of fearful religion and violent politics have become normalized? Addressing this question, Bivins establishes links and resonances between the cultural politics of evangelical pop, the activism of the New Christian Right, and the political exhaustion facing American democracy. **Religion of Fear** is a significant contribution to our understanding of the new shapes of political religion in the United States, of American evangelicalism, of the relation of religion and the media, and the link between religious pop culture and politics.

Advanced Introduction to Nationalism Dec 12 2020 This original Introduction presents nationalism as the most important social force shaping the ways modern people live their lives. It explains the formative influence of nationalism in the public spheres of politics and the economy, as well as the most private ones of emotional wellbeing and mental illness. Along the way, it illuminates widely used but rarely clarified concepts, such as social institution, revolution, ideology, and totalitarianism, and introduces new ones, like dignity capital, and nationalism as the double-helix of modern politics. Basing its conclusions on over 25 years of original comparative historical research, this book bears the characteristic Liah Greenfeld imprint: fact-based discussion, logical rigor, unexpected connections, and an exceptionally wide range of issues woven together to explain the way we live now.

The End of Meaning Jan 25 2022 The specter of the apocalypse has always been a semiotic fantasy: only at the end of all things will their true meaning be revealed. Our long romance with catastrophe is inseparable from the Western hermeneutical tradition: our search for an elusive truth, one that can only be uncovered through the interminable work of interpretation. Catastrophe terrifies and tantalizes to the extent it promises an end to this task. 9/11 is this book's beginning, but not its end. Here, it seemed, was the apocalypse America had long been waiting for; until it became just another event. And, indeed, the real lesson of 9/11 may be that catastrophe is the purest form of the event. From the poetry of classical Greece to the popular culture of contemporary America, **The End of Meaning** seeks to demonstrate that catastrophe, precisely as the notion of the sui generis, has always been generic. This is not a book on the great catastrophes of the West; it offers no canon of catastrophe, no history of the catastrophic. **The End of Meaning**

asks, instead, what if meaning itself is a catastrophe?

***Captured by Evil* Apr 15 2021** One of the most powerful words in the English language, corruption is also one of the most troubled concepts in law. According to Laura Underkuffler, it is a concept based on religiously revealed ideas of good and evil. But the notion of corruption defies the ordinary categories by which law defines crimes -- categories that punish acts, not character, and that eschew punishment on the basis of religion and emotion. Drawing on contemporary examples, including former assembly woman Diane Gordon and former governor Rod Blagojevich, this book explores the implications and dangers of maintaining such an archaic concept at the heart of criminal law.

***Exceptional State* May 29 2022** Exceptional State analyzes the nexus of culture and contemporary manifestations of U.S. imperialism. The contributors, established and emerging cultural studies scholars, define culture broadly to include a range of media, literature, and political discourse. They do not posit September 11, 2001 as the beginning of U.S. belligerence and authoritarianism at home and abroad, but they do provide context for understanding U.S. responses to and uses of that event. Taken together, the essays stress both the continuities and discontinuities embodied in a present-day U.S. imperialism constituted through expressions of millennialism, exceptionalism, technological might, and visions of world dominance. The contributors address a range of topics, paying particular attention to the dynamics of gender and race. Their essays include a surprising reading of the ostensibly liberal movies *Wag the Dog* and *Three Kings*, an exploration of the rhetoric surrounding the plan to remake the military into a high-tech force less dependent on human bodies, a look at the significance of the popular *Left Behind* series of novels, and an interpretation of the Abu Ghraib prison photos. They scrutinize the national narrative created to justify the U.S. invasions of Afghanistan and Iraq, the ways that women in those countries have responded to the invasions, the contradictions underlying calls for U.S. humanitarian interventions, and the role of Africa in the U.S. imperial imagination. The volume concludes on a hopeful note, with a look at an emerging anti-imperialist public sphere. Contributors. Omar Dahbour, Ashley Dawson, Cynthia Enloe, Melani McAlister, Christian Parenti, Donald E. Pease, John Carlos Rowe, Malini Johar Schueller, Harilaos Stecopoulos
