Feeling factory. A new ability to feel liberty Mar 05 2020

Conceived in Liberty Feb 25 2022 Within three years of the inauguration of the Constitution, its greatest champions found themselves irreparably divided over what that Constitution meant and how to shape the Union it had been created to perfect. Within a decade, the division at the heights of national politics had spread into a full-scale party war, the first, the most ferocious, and perhaps the most instructive in all of American history. Never since have clashing ideologies been quite so central to a party struggle and never has such a giant set of democratic statesmen argued so profoundly over concepts that are at the root of the American political tradition. *Conceived in Liberty* probes the fundamentals of the great dispute among John Adams, Alexander Hamilton, James Madison, Thomas Jefferson, and their followers over the sort of country the United States should be. In clear and concise prose, Lance Banning clarifies the foundations of the first great party struggle--and thus of nineteenth-century America.

[Liberty and Freedom: A Visual History of America's Founding Ideas](#) Dec 14 2020 Liberty and freedom: Americans agree that these values are fundamental to our nation, but what do they mean? How have their meanings changed

through time? In this new volume of cultural history, David Hackett Fischer shows how these varying ideas form an intertwined strand that runs through the core of American life. Fischer examines liberty and freedom not as philosophical or political abstractions, but as folkways and popular beliefs deeply embedded in American culture. Tocqueville called them "habits of the heart." From the earliest colonies, Americans have shared ideals of liberty and freedom, but with very different meanings. Like DNA these ideas have transformed and recombined in each generation. The book arose from Fischer's discovery that the words themselves had differing origins: the Latinate "liberty" implied separation and independence. The root meaning of "freedom" (akin to "friend") connoted attachment: the rights of belonging in a community of freepeople. The tension between the two senses has been a source of conflict and creativity throughout American history. *Liberty & Freedom* studies the folk history of those ideas through more than 400 visions, images, and symbols. It begins with the American Revolution, and explores the meaning of New England's Liberty Tree, Pennsylvania's Liberty Bells, Carolina's Liberty Crescent, and "Don't Tread on Me" rattlesnakes. In the new republic, the search for a common American symbol gave new meaning to Yankee Doodle, Uncle Sam, Miss Liberty, and many other icons. In the Civil War,

Download File [maschinenstickwaren.at](#) on December 6, 2022 Read Pdf Free

Americans divided over liberty and freedom. Afterward, new universal visions were invented by people who had formerly been excluded from a free society--African Americans, American Indians, and immigrants. The twentieth century saw liberty and freedom tested by enemies and contested at home, yet it brought the greatest outpouring of new visions, from Franklin Roosevelt's Four Freedoms to Martin Luther King's "dream" to Janis Joplin's "nothin' left to lose." Illustrated in full color with a rich variety of images, *Liberty and Freedom* is, literally, an eye-opening work of history--stimulating, large-spirited, and ultimately, inspiring.

Scouting Apr 05 2020 Published by the Boy Scouts of America for all BSA registered adult volunteers and professionals, *Scouting* magazine offers editorial content that is a mixture of information, instruction, and inspiration, designed to strengthen readers' abilities to better perform their leadership roles in Scouting and also to assist them as parents in strengthening families.

[Empire of Liberty: A History of the Early Republic, 1789-1815](#) Aug 22 2021 The Oxford History of the United States is by far the most respected multi-volume history of our nation. The series includes three Pulitzer Prize winners, two New York Times bestsellers, and winners of the Bancroft and Parkman Prizes. Now, in the newest volume in the series, one of America's most esteemed historians, Gordon S. Wood, offers a brilliant account of the early American Republic, ranging from 1789 and the beginning of the national government to the end of the War of 1812. As Wood reveals, the period was marked by tumultuous change in all aspects of American life--in politics, society, economy, and culture. The men who founded the new government had high hopes for the future, but few of their hopes and dreams worked out quite as they expected. They hated political parties but parties nonetheless emerged. Some wanted the United States to become a great fiscal-military state like those of Britain and France; others wanted the country to remain a rural agricultural state very different from the European states. Instead, by 1815 the United States became something neither group anticipated. Many leaders expected American culture to flourish and surpass that of Europe; instead it became

[Download File America Empire Of Liberty A New History David Reynolds](#)
[Read Pdf Free](#)

popularized and vulgarized. The leaders also hope to see the end of slavery; instead, despite the release of many slaves and the end of slavery in the North, slavery was stronger in 1815 than it had been in 1789. Many wanted to avoid entanglements with Europe, but instead the country became involved in Europe's wars and ended up waging another war with the former mother country. Still, with a new generation emerging by 1815, most Americans were confident and optimistic about the future of their country. Named a New York Times Notable Book, *Empire of Liberty* offers a marvelous account of this pivotal era when America took its first unsteady steps as a new and rapidly expanding nation.

Edward Carpenter Dec 26 2021 Acclaimed biography of the pioneering advocate of free love, gay rights and women's suffrage.

The Narrow Corridor Aug 02 2022 "Why is it so difficult to develop and sustain liberal democracy? The best recent work on this subject comes from a remarkable pair of scholars, Daron Acemoglu and James A. Robinson. In their latest book, *The Narrow Corridor*, they have answered this question with great insight." -Fareed Zakaria, *The Washington Post* From the authors of the international bestseller *Why Nations Fail*, a crucial new big-picture framework that answers the question of how liberty flourishes in some states but falls to authoritarianism or anarchy in others--and explains how it can continue to thrive despite new threats. In *Why Nations Fail*, Daron Acemoglu and James A. Robinson argued that countries rise and fall based not on culture, geography, or chance, but on the power of their institutions. In their new book, they build a new theory about liberty and how to achieve it, drawing a wealth of evidence from both current affairs and disparate threads of world history. Liberty is hardly the "natural" order of things. In most places and at most times, the strong have dominated the weak and human freedom has been quashed by force or by customs and norms. Either states have been too weak to protect individuals from these threats, or states have been too strong for people to protect themselves from despotism. Liberty emerges only when a delicate and precarious balance is struck between state and society. There is a Western myth that political liberty is a

[Download File maschinenstickwaren.at](#)
[on December 6, 2022 Read Pdf Free](#)

durable construct, arrived at by a process of "enlightenment." This static view is a fantasy, the authors argue. In reality, the corridor to liberty is narrow and stays open only via a fundamental and incessant struggle between state and society: The authors look to the American Civil Rights Movement, Europe's early and recent history, the Zapotec civilization circa 500 BCE, and Lagos's efforts to uproot corruption and institute government accountability to illustrate what it takes to get and stay in the corridor. But they also examine Chinese imperial history, colonialism in the Pacific, India's caste system, Saudi Arabia's suffocating cage of norms, and the "Paper Leviathan" of many Latin American and African nations to show how countries can drift away from it, and explain the feedback loops that make liberty harder to achieve. Today we are in the midst of a time of wrenching destabilization. We need liberty more than ever, and yet the corridor to liberty is becoming narrower and more treacherous. The danger on the horizon is not "just" the loss of our political freedom, however grim that is in itself; it is also the disintegration of the prosperity and safety that critically depend on liberty. The opposite of the corridor of liberty is the road to ruin.

Liberty Defined Mar 29 2022 In *Liberty Defined*, congressman and #1 New York Times bestselling author Ron Paul returns with his most provocative, comprehensive, and compelling arguments for personal freedom to date. The term "Liberty" is so commonly used in our country that it has become a mere cliché. But do we know what it means? What it promises? How it factors into our daily lives? And most importantly, can we recognize tyranny when it is sold to us disguised as a form of liberty? Dr. Paul writes that to believe in liberty is not to believe in any particular social and economic outcome. It is to trust in the spontaneous order that emerges when the state does not intervene in human volition and human cooperation. It permits people to work out their problems for themselves, build lives for themselves, take risks and accept responsibility for the results, and make their own decisions. It is the seed of America. This is a comprehensive guide to Dr. Paul's position on fifty of the most important issues of our times, from Abortion to

Zionism. Accessible, easy to digest, and fearless in its discussion of controversial topics, *LIBERTY DEFINED* sheds new light on a word that is losing its shape.

On Liberty May 31 2022 Discussed and debated from time immemorial, the concept of personal liberty went without codification until the 1859 publication of *On Liberty*. John Stuart Mill's complete and resolute dedication to the cause of freedom inspired this treatise, an enduring work through which the concept remains well known and studied. The British economist, philosopher, and ethical theorist's argument does not focus on "the so-called Liberty of the Will...but Civil, or Social Liberty: the nature and limits of the power which can be legitimately exercised by society over the individual." Mill asks and answers provocative questions relating to the boundaries of social authority and individual sovereignty. In powerful and persuasive prose, he declares that there is "one very simple principle" regarding the use of coercion in society — one may only coerce others either to defend oneself or to defend others from harm. The new edition offers students of political science and philosophy, in an inexpensive volume, one of the most influential studies on the nature of individual liberty and its role in a democratic society.

New York Burning Feb 13 2021 Pulitzer Prize Finalist and Anisfield-Wolf Award Winner In *New York Burning*, Bancroft Prize-winning historian Jill Lepore recounts these dramatic events of 1741, when ten fires blazed across Manhattan and panicked whites suspecting it to be the work of a slave uprising went on a rampage. In the end, thirteen black men were burned at the stake, seventeen were hanged and more than one hundred black men and women were thrown into a dungeon beneath City Hall. Even back in the seventeenth century, the city was a rich mosaic of cultures, communities and colors, with slaves making up a full one-fifth of the population. Exploring the political and social climate of the times, Lepore dramatically shows how, in a city rife with state intrigue and terror, the threat of black rebellion united the white political pluralities in a frenzy of racial fear and violence.

Stubborn for Liberty Nov 24 2021 The Hudson Valley Dutch have never received the attention due them in American history. There were comparatively few of them, they did not call attention to themselves, and therefore most people are hardly aware of their existence. This book attempts to restore them to their proper place in the American heritage. Also, this book should be useful to scholars as a summary of what is now known about the Hudson Valley Dutch, as the first coherent account of the development of their way of life over the three and a half centuries from their first settlements to the present, and for its suggestion of numerous topics on which further research is needed.

The Statue of Liberty Jan 15 2021 "When people think about the Statue of Liberty, the iconic figure standing in New York Harbor surely comes to mind. But why do we have the monument, and who is that woman anyway? Discover everything from how the Statue of Liberty was made to the history behind its creation and more. Find out interesting, little-known facts such as how it almost didn't get built and how the man who designed the Eiffel Tower also designed the spine of the statue."-- Back cover.

Liberty (1993) was the first book on The New York School of Poets, and offers the definitive critical account of its key figures: John Ashbery, Frank O'Hara and James Schuyler. This second edition contains up-to-date material on the group and its growing influence on postmodern poetics. A new postscript focuses on the work of Ashbery, currently the most esteemed American poet since Wallace Stevens, and his profile output in the 1990s, including his two hundred page epic poem Flow Chart.

Free for All Jul 09 2020 A lawyer, social critic, and columnist at The American Prospect, Wendy Kaminer has said that she likes to think words have power but knows they don't cast spells. She argues with her readers and expects them to argue back. Her taste for liberty, her legal training, wit, and innate contrarianism help her elude the usual political labels and inform her writings on censorship, feminism, pop psychology, religion, criminal justice, and a range of rights and liberties at issue in the culture wars. In this new collection, Kaminer has her sights set on the fate of civil liberties in America. Opening with a powerful overview of liberty's tenuous hold on this "land of the free," Kaminer offers incisive, original investigations of political freedom in our frightened, post-September 11 world and reviews perennial threats to sexual and religious liberty, free speech, privacy, and the right to be free from unwarranted, unprincipled prosecutions.

The Statue of Liberty Feb 02 2020 Traces the history of the Statue of Liberty from its conception to its centennial with emphasis on the statue's restoration, its significance through the years, and the plans for the 1986 centennial celebration.

Being America Jun 19 2021 Having risen to national attention with his first book, For Common Things, Jedediah Purdy now cements his claim to being one of the most arresting public intellectuals of his generation. In *Being America*, Purdy turns his erudition and unique perspective to America's relationship with a world that both admires and hates it. Purdy has absorbed insights from people around the world: Westernized Egyptians who consider Osama bin Laden a hero, an urbane Indian who espouses gay rights and the most thuggish kind of Hindu nationalism, Cambodian sweat-shop workers,

and others. Out of these conversations—and his inspired readings of political thinkers from Edmund Burke to James Madison—Purdy breathes new meaning into the American values of democracy, liberty, and free trade. Clear-thinking and far-sighted, *Being America* encourages America to strive to realize the potential it doesn't always know it has.

Law, Legislation, and Liberty, Volume 19 Jul 01 2022 A new edition of F. A. Hayek's three-part opus *Law, Legislation, and Liberty*, collated in a single volume In this critical entry in the University of Chicago's *Collected Works of F. A. Hayek* series, political philosopher Jeremy Shearmur collates Hayek's three-part study of law and liberty and places Hayek's writings in careful historical context. Incisive and unrestrained, *Law, Legislation, and Liberty* is Hayek at his late-life best, making it essential reading for understanding the philosopher's politics and worldview. These three volumes constitute a scaling up of the framework offered in Hayek's famed *The Road to Serfdom*. Volume 1, *Rules and Order*, espouses the virtues of classical liberalism; Volume 2, *The Mirage of Social Justice*, examines the societal forces that undermine liberalism and, with it, liberalism's capacity to induce "spontaneous order"; and Volume 3, *The Political Order of a Free People*, proposes alternatives and interventions against emerging anti-liberal movements, including a rule of law that resides in stasis with personal freedom. Shearmur's treatment of this challenging work—including an immersive new introduction, a conversion of Hayek's copious endnotes to footnotes, corrections to Hayek's references and quotations, and the provision of translations to material that Hayek cited only in languages other than English—lends it new importance and accessibility. Rendered anew for the next generations of scholars, this revision of Hayek's *Law, Legislation, and Liberty* is sure to become the standard.

States as a great 'empire of liberty.' In the first new one-volume history in two decades, David Reynolds takes Jefferson's phrase as a key to the saga of America - helping unlock both its grandeur and its paradoxes. He examines how the anti-empire of 1776 became the greatest superpower the world has seen, how the country that offered liberty and opportunity on a scale unmatched in Europe nevertheless founded its prosperity on the labour of black slaves and the dispossession of the Native Americans. He explains how these tensions between empire and liberty have often been resolved by faith - both the evangelical Protestantism that has energized U.S. politics since the foundation of the nation and the larger faith in American righteousness that has impelled the country's expansion. Reynolds' account is driven by a compelling argument which illuminates our contemporary world. This is also a book in which the voices of the past speak out strongly for themselves. Not just presidents from Washington to Bush, but ordinary men and women - settlers and Indians, slaves and immigrants, factory workers and farmers, baseball players and suburban housewives. Reynolds celebrates America's technological achievements - the plough, the skyscraper and the personal computer. He paints vivid pictures of the battlefield of Gettysburg, the stockyards of Chicago, and the bus boycott in Montgomery, Alabama. But he also asks hard questions about the cost of greatness, from the Indian 'Trail of Tears' to the Civil War and the War on Terror. Reynolds depicts a country that has derived much of its energy - even its identity - from a perpetual struggle against enemies, real or imagined. Written with verve, insight and humour by a prize-winning historian, *America, Empire of Liberty* is a new history for a new presidency.

A New Concept of Liberty from an Evolutionary Psychologist: Theodore Schroeder Oct 24 2021 "Edition limited to 200 copies ... 50 on W. & A. all rag paper. "A partial bibliography": p. 151- [153].

The Ethics of Liberty Jan 03 2020 In his new introduction to this current edition of this classic in the field originally published in 1982 (Humanities Press), Hoppe (economics, U. of Nevada, Las Vegas--as was the late author) extols Rothbard's marriage of the "value-free"

science of economics with the normative enterprise of ethics and their offspring: libertarianism. Discussion areas are: natural law, a theory of liberty, the state vs. liberty, modern alternative theories of liberty, and toward a theory of strategy for liberty. Annotation copyrighted by Book News, Inc., Portland, OR
Passing the Torch of Liberty to a New Generation Apr 29 2022

The Meaning of Liberty Beyond Earth May 19 2021 The purpose of this book is to initiate a new discussion on liberty focusing on the infinite realms of space. The discussion of the nature of liberty and what it means for a human to be free has occupied the minds of thinkers since the Enlightenment. However, without exception, every one of these discussions has focused on the character of liberty on the Earth. The emergence of human space exploration programs in the last 40-50 years raise a fundamental and new question: what will be the future of liberty in space? This book takes the discussion of liberty into the extraterrestrial environment. In this book, new questions will be addressed such as: Can a person be free when the oxygen the individual breathes is the result of a manufacturing process controlled by someone else? Will the interdependence required to survive in the extremities of the extraterrestrial environment destroy individualism? What are the obligations of the individual to the extraterrestrial state? How can we talk of extraterrestrial liberty when everyone is dependent on survival systems?

Liberty's Daughters Aug 29 2019 Explores the lives of colonial women, particularly during the Revolutionary War years, arguing that eighteenth-century Americans had very clear notions of appropriate behavior for females and the functions they were expected to perform, and that most women suffered from low self-esteem, believing themselves inferior to men.

Born for Liberty Jan 27 2022 The most concise and comprehensive one-volume history of American women—from the indigenous women of the 16th-century wilderness to the dual-role career women and mothers of contemporary times—this book brings American womanhood to center stage, exploring the lives of pioneers and slaves, immigrants and factory workers, executives and homemakers.

Empire of Liberty Sep 22 2021 Wie erklärt man den Aufstieg der USA von einer britischen Kolonie zur globalen Hegemonialmacht in einem Zeitraum von knapp 140 Jahren von der Revolution bis zum Ersten Weltkrieg? Welche Bedeutung hat dabei die nach dem Bürgerkrieg einsetzende forcierte „Nationsbildung“, die im Kontext der Besiedelung des Westens, der Etablierung eines kapitalistischen Systems à l'Américaine, der Ausbildung eines sich von Europa deutlich unterscheidenden Systems der Regulierung von Arbeit und Kapital, der nicht Durchsetzbarkeit sozialistischer Ideen und der Politik des „small government“ und „laissez-faire“ stattfand? Kurz: Welche Bedeutung hatte die spezifisch amerikanische Entwicklung mit ihrem Fokus auf den innenpolitischen und innergesellschaftlichen Problemkontext für die Entstehung bzw. Entwicklung der diskursiven Formation des „Empire for Liberty“, das sich spätestens mit dem Spanisch-Amerikanischen Krieg in eine außenpolitische Maxime übersetzte und handlungsleitend für die offensive amerikanische Hegemonialpolitik nach dem Weltkrieg wurde, ja das Empire zu einem „Way of Life“ machte? Obwohl der Erste Weltkrieg gemeinhin als Beginn einer amerikanischen Dominanz in der Weltpolitik gesehen wird, argumentiert M. Michaela Hampf, dass der Aufstieg der Vereinigten Staaten zu einer imperialen Macht bereits nach 1865 erfolgte. Methodisch geht die Untersuchung insofern neue Wege als zur Erklärung des „amerikanischen Sonderwegs“ die sozialwissenschaftliche Theorie der Pfadabhängigkeit herangezogen wird. Erklärt werden soll nicht die expansive amerikanische Außenpolitik als konsequente Anwendung amerikanischer Prinzipien, sondern die Pfade, die dazu führten, dass die amerikanische Politik bereit war, einen Weg zu beschreiten, der eine Abkehr von eben jenen Grundsätzen darstellte.
On Cultivating Liberty Aug 10 2020 Examines the family, welfare reform, free markets, self-government, and the founding of America in a defense of a free and virtuous society
Freedom and Its Betrayal Mar 17 2021 The late essayist and philosopher presents a philosophical treatise on human freedom and the history of ideas, based on radio lectures on six formative anti-liberal thinkers--HelvTtius,

Rousseau, Fichte, Hegel, Saint-Simon, and Maistre--originally broadcast by the BBC in 1952. (Philosophy)

Unlearning Liberty Jun 07 2020 For over a generation, shocking cases of censorship at America's colleges and universities have taught students the wrong lessons about living in a free society. Drawing on a decade of experience battling for freedom of speech on campus, First Amendment lawyer Greg Lukianoff reveals how higher education fails to teach students to become critical thinkers: by stifling open debate, our campuses are supercharging ideological divisions, promoting groupthink, and encouraging an unscholarly certainty about complex issues. Lukianoff walks readers through the life of a modern-day college student, from orientation to the end of freshman year. Through this lens, he describes startling violations of free speech rights: a student in Indiana punished for publicly reading a book, a student in Georgia expelled for a pro-environment collage he posted on Facebook, students at Yale banned from putting an F. Scott Fitzgerald quote on a T shirt, and students across the country corralled into tiny "free speech zones" when they wanted to express their views. But Lukianoff goes further, demonstrating how this culture of censorship is bleeding into the larger society. As he explores public controversies involving Juan Williams, Rush Limbaugh, Bill Maher, Richard Dawkins, Larry Summers—even Dave Barry and Jon Stewart—Lukianoff paints a stark picture of our ability as a nation to discuss important issues rationally. *Unlearning Liberty: Campus Censorship and the End of American Debate* illuminates how intolerance for dissent and debate on today's campus threatens the freedom of every citizen and makes us all just a little bit dumber.

Liberty and Security Apr 17 2021 All aspire to liberty and security in their lives but few people truly enjoy them. This book explains why this is so. In what Conor Gearty calls our 'neo-democratic' world, the proclamation of universal liberty and security is mocked by facts on the ground: the vast inequalities in supposedly free societies, the authoritarian regimes with regular elections, and the terrible socio-economic deprivation camouflaged by cynically proclaimed commitments to human rights. Gearty's book

[Download File America Empire Of Liberty A New History David Reynolds](#)
[Read Pdf Free](#)

offers an explanation of how this has come about, providing also a criticism of the present age which tolerates it. He then goes on to set out a manifesto for a better future, a place where liberty and security can be rich platforms for everyone's life. The book identifies neo-democracies as those places which play at democracy so as to disguise the injustice at their core. But it is not just the new 'democracies' that have turned 'neo', the so-called established democracies are also hurtling in the same direction, as is the United Nations. A new vision of universal freedom is urgently required. Drawing on scholarship in law, human rights and political science this book argues for just such a vision, one in which the great achievements of our democratic past are not jettisoned as easily as were the socialist ideals of the original democracy-makers.

The Statue of Liberty Sep 10 2020 Introduces the history and symbolism of the famous New York City landmark, the Statue of Liberty.

To Secure the Blessings of Liberty Oct 31 2019 Focuses on the essential character of a democratic-republican constitution as it has taken shape in America and considers the fundamental principles of Constitutional government.

Gesammelte Schriften in Deutscher Sprache Sep 03 2022 Dieser Band der Gesammelten Schriften von Friedrich A. von Hayek kann - neben der Verfassung der Freiheit - als das zweite Hauptwerk des bedeutenden Okonomen und Sozialphilosophen gelten. Es ist die Einzelveroffentlichung, die den besten Uberblick uber sein gesamtes theoretisches Werk bietet. Sie umfasst Hayeks allgemein sozial- und rechtsphilosophische Uberlegungen zu den Grundlagen sozialer Ordnung, seine Theorie der spontanen Ordnung und der kulturellen Evolution, seine politische Okonomie der Ordnung des Marktes und seine Diagnose der Gefahrdungen dieser Ordnung, ebenso wie seine politische Philosophie der institutionellen Grundlagen einer freien Gesellschaft und seine Analyse zeitgenossischer Demokratie. Das Werk erschien in drei Banden auf Englisch 1973, 1976 und 1979, eine deutsche Ubersetzung erschien ebenfalls in drei Banden 1980 und 1981. Fur diese einbandige Ausgabe wurde es von Monika Streissler neu ins Deutsche ubersetzt.

Inventing Freedom Sep 30 2019 British politician Daniel Hannan's *Inventing Freedom* is an ambitious account of the historical origin and spread of the principles that have made America great, and their role in creating a sphere of economic and political liberty that is as crucial as it is imperiled. According to Hannan, the ideas and institutions we consider essential to maintaining and preserving our freedoms—individual rights, private property, the rule of law, and the institutions of representative government—are the legacy of a very specific tradition that was born in England and that we Americans, along with other former British colonies, inherited. By the tenth century, England was a nation-state whose people were already starting to define themselves with reference to inherited common-law rights. The story of liberty is the story of how that model triumphed. How it was enshrined in a series of landmark victories—the Magna Carta, the English Civil War, the Glorious Revolution, the U.S. Constitution—and how it came to defeat every international rival. Today we see those ideas abandoned and scorned in the places where they once went unchallenged. *Inventing Freedom* is a chronicle of the success of Anglosphere exceptionalism. And it is offered at a time that may turn out to be the end of the age of political freedom.

[America, Empire of Liberty](#) Oct 04 2022 It was Thomas Jefferson who envisioned the United States as a great "empire of liberty." This paradoxical phrase may be the key to the American saga: How could the anti-empire of 1776 become the world's greatest superpower?

And how did the country that offered unmatched liberty nevertheless find its prosperity on slavery and the dispossession of Native Americans? In this new single-volume history spanning the entire course of US history -- from 1776 through the election of Barack Obama -- prize-winning historian David Reynolds explains how tensions between empire and liberty have often been resolved by faith -- both the evangelical Protestantism that has energized American politics for centuries and the larger faith in American righteousness that has driven the country's expansion. Written with verve and insight, *Empire of Liberty* brilliantly depicts America in all of its many contradictions.
