**New Supply Chain Agenda** Aug 10 2020 Is your company delivering products to customers at the right time, place, and price—with the best possible availability and lowest possible cost and working capital? If not, you're probably alienating your customers and suppliers, eroding shareholder value, and losing control of your fixed costs. These dangerous mistakes can put you out of business. In *The New Supply Chain Agenda*, Reuben Slone, J. Paul Dittmann, and John Mentzer explain how to reinvent your supply chain to avoid those errors—and turn your supply chain into a competitive weapon that produces unprecedented economic profit for your firm. Drawing on a wealth of company examples, the authors show how to activate the five levers of supply chain excellence:

- Putting the right people with the right skills in the right jobs
- Leveraging supply chain technologies such as system optimization and visibility tools
- Eliminating cross-functional disconnects, including SKU proliferation
- Collaborating with suppliers and customers to generate a seamless flow of information and supply chain improvements
- Managing supply chain projects skillfully

Apply the steps in this book, and you build a supply chain that delivers as it should—without leaving money on the table.

*The Code of Federal Regulations of the United States of America* Jan 27 2022 *The Code of Federal Regulations*

is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government.

**Customs Modernization Initiatives** May 31 2022 A companion to the 'Customs Modernization Handbook', this book provides case studies on customs modernization initiatives in seven countries: Bolivia, Morocco, Mozambique, Peru, the Philippines, Turkey, and Uganda. The initiatives in each of these countries show similarities as well as differences in their approach and design. Some have relied on a model of independent revenue authorities (Uganda and Peru), others have called upon private sector service providers to initiate the modernization process (Mozambique), others have taken the drastic step of a complete overhaul of their customs staff (Bolivia and Mozambique), others introduced new information technology to streamline customs processes and to integrate other members of the trading community into an electronic network (Ghana), while still others have approached the modernization process as a pragmatic, well-focused, result-oriented process.
