Teaching Chemistry Around the World Jun 22 2019 As teachers we often tend to expect other countries
teach chemistry in much the same way as we do, but educational systems differ widely. At Bielefeld U
we started a project to analyse the approach to chemical education in different countries from all ove
world: Teaching Chemistry around the World. 25 countries have participated in the project. The result
country studies are presented in this book. This book may be seen as a contribution to make the stru
chemistry teaching in numerous countries more transparent and to facilitate communication between
countries. Especially in the case of the school subject chemistry, which is very unpopular on the one h
occupies an exceptional position on the other hand – due to its relevance to jobs and everyday life and
notably due to its importance for innovation capacity and problem solving – we have to learn from each
others' educational systems.
