Best 100 Juices for Kids Sep 22 2021 "Juicing machines, and books about how to get the most from them, are selling in tremendous numbers. Best 100 Juices for Kids brings the juicing revolution home for everyone in the family--not just mom and dad. Jessica Fisher's imaginative and tasty recipes give parents terrific and super-nutritious alternatives both to cheap juices loaded with high

fructose corn syrup, on one hand, and to healthy but very pricey store-bought gourmet juices on the other. For fruit- and vegetable-averse kids, they also offer a way to "sneak" produce into a kid's diet in a way that the child actually will enjoy. Older kids and teens, too, will have fun trying out the juicing machine in the kitchen, using these recipes as a starting point. Seventy of the 100 recipes are for juices, with about 45 fruit-based and 25 vegetable-based. Half of the remaining 30 are luscious and creamy smoothies, including several dairy-free vegan options. "Sparklies," which are club soda-based carbonated drinks, give parents great ways to replace artificially flavored soda pop, full of processed sugar, with homemade pop made with natural sweeteners. For the hot summer months, when kids are most likely to reach for sugary drinks, there are recipes for icy slushies and refreshing juice-based icepops. Throughout, Fisher tested the recipes on both low-end and high-end juicers, and she provides expert guidance on how readers can get the best results from whatever model of machine they own"--

Positive Food for Kids Apr 29 2022 A guilt-free guide for parents on how to get their children to eat healthy food. Are you concerned about how little your child eats? Are you worried about your child's weight? Is every meal a battle? Positive Food for Kids will help you answer all these questions and more, and give you simple and effective strategies to get your child to eat and enjoy healthy food for life. Dr Jenny O'Dea's groundbreaking research of 5,000 children and their eating habits revealed some shocking facts: one in six children had eaten no fruit or vegetables in the past three days, one in five had had no fruit juice, one in four had had no cereal, pasta or rice, and one in ten had had no milk. Even more confronting was her discovery that poor nutrition not only leads to poor physical growth, but poor brain growth and reduced intelligence, too. In the same study Jenny also found that children as young as six understood very clearly why they should choose healthy food and drinks – it would give them energy, help them to grow and 'feel good on the inside'. Her new 'positive food' approach is based on this valuable research and twenty years' expertise as a nutritionist, countless interviews with parents and their children as well as her own experiences as a mother. Busy parents can turn to Positive Food for Kids for: - proven strategies that will get your child to eat and enjoy healthy food for life - handy nutrition guides to all foods, including take-aways - simple, healthy recipes you and your kids can eat every day.
