Handbook of Molecular Microbial Ecology II Sep 20 2021
The premiere two-volume reference on revelations from studying complex microbial communities in many distinct habitats
Metagenomics is an emerging field that has changed the way microbiologists study microorganisms. It involves the genomic analysis of microorganisms by extraction and cloning of DNA from a group of microorganisms, or the direct use of the purified DNA or RNA for sequencing, which allows scientists to bypass the usual protocol of isolating and culturing

individual microbial species. This method is now used in laboratories across the globe to study microorganism diversity and for isolating novel medical and industrial compounds. Handbook of Molecular Microbial Ecology is the first comprehensive two-volume reference to cover unculturable microorganisms in a large variety of habitats, which could not previously have been analyzed without metagenomic methodology. It features review articles as well as a large number of case studies, based largely on original publications and written by international experts. This second volume, Metagenomics in Different Habitats, covers such topics as: Viral genomes Metagenomics studies in a variety of habitats, including marine environments and lakes, soil, and human and animal digestive tracts Other habitats, including

those involving microbiome diversity in human saliva and functional intestinal metagenomics; diversity of archaea in terrestrial hot springs; and microbial communities living at the surface of building stones Biodegradation Biocatalysts and natural products A special feature of this book is the highlighting of the databases and computer programs used in each study; they are listed along with their sites in order to facilitate the computer-assisted analysis of the vast amount of data generated by metagenomic studies. Such studies in a variety of habitats are described here, which present a large number of different system-dependent approaches in greatly differing habitats. Handbook of Molecular Microbial Ecology II is an invaluable reference for researchers in metagenomics, microbial ecology, microbiology, and environmental microbiology; those working on the Human Microbiome Project; microbial geneticists; and professionals in molecular microbiology and bioinformatics.

What a Library Means to a Woman Nov 30 2019 Examining the personal library and the making of self When writer Edith Wharton died in 1937, without any children, her library of more than five thousand volumes was divided and subsequently sold. Decades later, it was reassembled and returned to The Mount, her historic Massachusetts estate. What a Library Means to a Woman examines personal libraries as technologies of self-creation in modern America, focusing on Wharton and her remarkable collection of books. Sheila Liming explores the connection between libraries and self-making in late nineteenth- and early twentieth-century American culture, from the 1860s to the 1930s. She tells the story of Wharton's library in concert with Wharton scholarship and treatises from this era concerning the wider fields of book history, material and print culture, and the histories (and pathologies) of collecting. Liming's study blends

literary and historical analysis while engaging with modern discussions about gender, inheritance, and hoarding. It offers a review of the many meanings of a library collection, while reading one specific collection in light of its owner's literary celebrity. What a Library Means to a Woman was born from Liming's ongoing work digitizing the Wharton library collection. It ultimately argues for a multifaceted understanding of authorship by linking Wharton's literary persona to her library, which was, as she saw it, the site of her self-making. *Library Journal* Jun 29 2022 Includes, beginning Sept. 15, 1954 (and on the 15th of each month, Sept.-May) a special section: School library journal, ISSN 0000-0035, (called Junior libraries, 1954-May 1961). Also issued separately.

objects and an account of the deeply personal nature of these hallowed spaces by one of Australia's leading bibliophiles. Stuart Kells is an author and book-trade historian. His 2015 book, Penguin and the Lane Brothers, won the Ashurst Business Literature Prize. An authority on rare books, he has written and published on many aspects of print culture and the book world. Stuart lives in Melbourne with his family. He is writing a book about Shakespeare's library. 'Libraries are filled with magic. From the Bodleian, the Folger and the Smithsonian to the fabled libraries of middle earth, Umberto Eco's mediaeval library labyrinth and libraries dreamed up by John Donne, Jorge Luis Borges and Carlos Ruiz Zafón. Stuart Kells explores the bookish places, real and fictitious, that continue to capture our imaginations. The Library: A Catalogue of Wonders is a fascinating and engaging exploration of libraries as places of beauty and wonder. It's a celebration of books as objects and an account of the deeply personal nature of these hallowed spaces by one of Australia's leading bibliophiles.' Prime Minister's Literary Awards 2018, Judges' comments 'If you think you know what a library is, this marvellously idiosyncratic book will make you think again. After visiting hundreds of libraries around the world and in the realm of imagination, bibliophile and rare-book collector Stuart Kells has compiled an enchanting compendium of well-told tales and musings both on the physical and metaphysical dimensions of these multi-storied places.' Age 'On a vivid tour of the world's great libraries, both real and imagined, Kells is a magnificent guide to the abundant treasures he sets out.' Mathilda Imlah, Australian Book Review, 2017 Publisher Picks 'The Library charts the transition between formats such as papyrus scrolls, parchment codices, moveable type and ebooks. There are many whimsical detours along the way, and Kells even devotes a chapter to fantasy libraries...Kells translates his stunning depth of research into breezy digestibility.' Big Issue 'The Library is a treasure trove and reaching the last page simply prompts an impassioned cry for more of the same.' Otago Daily Times 'Rich with gossipy tales of the inspired, crazy, brilliant and terrible people who have founded or encountered libraries through history...Kells's

reflections are wonderfully romantic, wryly funny...There's no doubt we can all learn a lot from the magnificently obsessive and eloquent Kells.' Australian 'With The Library, Stuart Kells has written a deft and involving book that manages to balance the erudite with the accessible...There is, in any given chapter, a dozen odd details or compelling stories a reader can only hope to memorise, with an eye towards future use (perfectly timed and skilfully deployed, naturally).' Monthly 'There is so much to learn and enjoy in this book, with the impressive amount of research never weighing down the accessible writing...Kells makes an elegant plea for the future library—one that will resonate with most book lovers.' Good Reading

'A sprightly cabinet of bookish curiosities.' Jane Sullivan, Sydney Morning Herald 'Kells proves a generous guide, taking us on a whirlwind tour through several thousand years of book history.' Australian Book Review 'The Library abounds in fascinating tales of lost codices and found manuscripts, and the sometimes unscrupulous schemes by which people have conspired to obtain or amass valuable volumes.'
