**Days that Changed the World** May 20 2021 The currents of history run deep and often unseen beneath the everyday ripple of events. But now and again the current rises to the surface, and the events of a single day shed an exceptionallight on the meaning of the past. Such events are the subject of Days that Changed The World. Some of the 50 days described here mark the end of an era; others the start of something new. All are remembered as powerful symbols of their time. The book begins nearly 2500 years ago on 28 September 480 years before the Christian Era, when the Athenian navy destroyed the Persian invasion fleet in the Bay of Salamis. Had the Persians won we might never have heard the names of Plato, Aristotle or Alexander, nor recognize the word democracy. Charting 50 such defining moments, concluding with 11 September 2001 and the destruction of New York's Twin Towers, Days that Changed The World is a unique and fascinating way to portray the story of world history.

**Good Night Stories for Rebel Girls: 100 Immigrant Women Who Changed the World** Oct 05 2022 A 2021 NATIONAL PARENTING PRODUCT AWARDS WINNER! The third installment in the New York Times bestselling Good Night Stories for Rebel Girls series, featuring 100 immigrant women who have shaped, and will continue to shape, our world. Good Night Stories for Rebel Girls: 100 Immigrant Women Who Changed the World is the third book in the New York Times bestselling series for children. Packed with 100 all-new bedtime stories about the lives of incredible female figures from the past and the present, this volume recognizes women who left their birth countries for a multitude of reasons: some for new opportunities, some out of necessity. Readers will whip up a plate with Asma Khan, strategize global affairs alongside Madeleine Albright, venture into business with Rihanna, and many more. All of these unique, yet relatable stories are accompanied by gorgeous, full-page, full-color portraits, illustrated by female artists from all over the globe.

Photos that Changed the World Sep 23 2021 A compilation of memorable photographs captures the execution of a Viet Cong officer, a woman mourning over one of Kent State's massacre victims, Martin Luther King delivering his "I have a dream" speech, and the devastation of New Orleans by Hurricane Katrina.

**Dangerous Prayers** Oct 01 2019 From the very beginning, Christianity has been the faith of world-changers, rejecters of the status quo, and rebels. So when did it get so safe? Reclaim your roots with Dangerous Prayers, a collection of prayers from people throughout history who took God at His word and changed the world forever through their faith.

*History That Changed the World* Jun 28 2019 "Fast-paced, engaging and original, History That Changed the World unearths the many links between the past and the present by zooming in on the key events, movements, inventions and people whose profound impact on the course of history continues to echo into our own time."--Back cover.

*Scribbles that Changed the Course of Human Affairs* Jun 20 2021

**The Day That Changed Forever** Jul 10 2020 The events surrounding Christ's Passion really happened, and the people who experienced those events were real people, just like us--individuals with their own histories, preconceptions, desires, and ambitions. In *The Day That Changed Forever*, Dr. Tim Roehl tells the stories of those events and people, using a combination of rigorous biblical scholarship and what he calls "sanctified imagination." What must Barabbas have been thinking when he was set free so that an innocent man could die in his place? What went through the mind of Simon of Cyrene when he was drafted by Roman soldiers to carry Jesus' cross? What led Annas, a religious leader, to use his influence to condemn Jesus to death? Sometimes a story can become so familiar that it begins to lose its power to startle and amaze its audience--it can be tempting for Christians to think they "know" the story of Jesus' life, death, and resurrection while forgetting to be changed by it. The unique viewpoints of the people at the cross, imagined with compelling realism in *The Day That Changed Forever*, will bring fresh perspective to the familiar events and awaken in readers a newfound passion for the old, old story.

Discoveries in Medicine that Changed the World Jul 02 2022 Few know the stories behind some of the biggest discoveries in medicine made throughout history. The first-known surgeries in ancient India, the accidental discovery of antibiotics by a Scottish bacteriologist, and contemporary techniques such as in vitro fertilization are all covered in this neatly organized, vivid text that guides readers through a chronologically ordered history of medical breakthroughs. Biographical sidebars narrate the lives of the bright minds behind these breakthroughs, and a succinct timeline summarizes their findings for readers. Do not miss this chance to explore the medical discoveries that changed the world.

**24 Hours That Changed the World** Dec 03 2019 Explores the profound, life-changing impact the last day of Jesus's life had on human history.

**Cases that Changed Our Lives** Nov 06 2022 All lawyers have an in-built need to revisit the great cases of the past. After all, that is the basis upon which common law is founded. A retrospective look at the people and circumstances behind the results of these great cases gives tremendous insight and understanding, as well as revealing a human side to the events which is not always apparent from the law reports. This collection of essays examines key cases (both UK and international) that have changed or created the rules and procedures which govern our lives and which we abide by - cases which have changed our lives. The book sets out the facts of each case and examines its impact, with emphasis on the human angle of the story, including:\* Who were the people involved?\* What was actually decided in the case?\* What happened later and how what was decided on the facts changed our lives?\* What were the later implications for that area of law and/or other areas of law?\* What legacy has the case left?The themes addressed by the book support the rule of law, demonstrating that using something as abstract as judicial reasoning, we create a set of rules and procedures which govern our lives. The rule of law involves the acceptance of this intellectual and abstract concept. With contributions from leading practitioners in their fields, this book gives an insight into the importance of case law and the impact it has on our lives.

**Tea** Nov 01 2019 After water, tea is the second most consumed drink in the world. 'Tea' takes the reader to almost every corner of the globe, looking at the phenomenon which has touched every part of the world.

*Seven Spies who Changed the World* Jan 04 2020 Om syv spioner, som på hver sin måde var med til at ændre verdenshistorien. Blandt andet historien om den dansk-tyske dobbeltspion Wulf Schmidt.

*Nixon and Mao* Mar 18 2021 Margaret MacMillan, praised as “a superb writer who can bring history to life” (The Philadelphia Inquirer), brings her extraordinary gifts to one of the most important subjects today—the relationship between the United States and China—and one of the most significant moments in modern history. In February 1972, Richard Nixon, the first American president ever to visit China, and Mao Tse-tung, the enigmatic Communist dictator, met for an hour in Beijing. Their meeting changed the course of history and ultimately laid the groundwork for the complex relationship between China and the United States that we see today. That monumental meeting in 1972—during what Nixon called “the week that changed the world”—could have been brought about only by powerful leaders: Nixon himself, a great strategist and a flawed human being, and Mao, willful and ruthless. They were assisted by two brilliant and complex statesmen, Henry Kissinger and Chou En-lai. Surrounding them were fascinating people with unusual roles to play, including the enormously disciplined and unhappy Pat Nixon and a small-time Shanghai actress turned monstrous empress, Jiang Qing. And behind all of them lay the complex history of two countries, two great and equally confident civilizations: China, ancient and contemptuous yet fearful of barbarians beyond the Middle Kingdom, and the United States, forward-looking and confident, seeing itself as the beacon for the world. Nixon thought China could help him get out of Vietnam. Mao needed American technology and expertise to repair the damage of the Cultural Revolution. Both men wanted an ally against an aggressive Soviet Union. Did they get what they wanted? Did Mao betray his own revolutionary ideals? How did the people of China react to this apparent change in attitude toward the imperialist Americans? Did Nixon make a mistake in coming to China as a supplicant? And what has been the impact of the visit on the United States ever since? Weaving together fascinating anecdotes and insights, an understanding of Chinese and American history, and the momentous events of an extraordinary time, this brilliantly written book looks at one of the transformative moments of the twentieth century and casts new light on a key relationship for the world of the twenty-first century.

**1919 The Year That Changed America** Oct 13 2020 WINNER OF THE 2019 NATIONAL BOOK AWARD 1919 was a world-shaking year. America was recovering from World War I and black soldiers returned to racism so violent that that summer would become known as the Red Summer. The suffrage movement had a long-fought win when women gained the right to vote. Laborers took to the streets to protest working conditions; nationalistic fervor led to a communism scare; and temperance gained such traction that prohibition went into effect. Each of these movements reached a tipping point that year. Now, one hundred years later, these same social issues are more relevant than ever. Sandler traces the momentum and setbacks of these movements through this last century, showing that progress isn't always a straight line and offering a unique lens through which we can understand history and the change many still seek.

**The Man Who Changed the Way We Eat** Nov 13 2020 The author of *Alice Waters* and *Chez Panisse* presents a vivid account of the influential New York Times food critic's culinary and personal life, providing coverage of such topics as his role in launching major chefs to fame, his turbulent sexual life and his efforts to introduce the American public to the standards of fine international cuisine. Original.

*Women Writers Who Changed the World* Dec 15 2020 Collects short biographies of important female authors, including Jane Austen, Toni Morrison, and J.K. Rowling.

*People That Changed the Course of History: The Story of Leonardo Da Vinci 500 Years After His Birth* Dec 27 2021 A quick internet search will yield results of Leonardo da Vinci's legendary paintings, the Mona Lisa and the Last Supper, and you might even catch a glimpse of his well-known sketches of machines, human bodies, and animals. However, there's so much more to da Vinci than

his paintings and drawings. This 16th-century Italian man embodied the Renaissance spirit — he was intensely interested in everyone and everything. His curiosity spanned every discipline, from geometry to anatomy to the link between art and science. 500 years ago was a time of insight, of investigation, and in this sense, da Vinci fit in perfectly. However, in another sense, he didn't belong at all — he was a loner living in his own world. An illegitimate child with 17 half-siblings, Leonardo also shrouded himself in secrecy. He wrote in a mirror script, meaning that you could only understand what he had written by holding it up to a mirror. He believed that we all have potential to do amazing things, but he also had lots of unfinished projects and struggled with lifelong self-doubt. Delve in to these pages to find out why Leonardo di Ser Piero d'Antonio di Ser Piero di Ser Guido da Vinci — yes, this was his full name — was as mysterious as his painting of Mona Lisa's famous smile.

**Seven Painters Who Changed the Course of Art History** Sep 11 2020 This is the biography of 7 painters who, from the 14th to the 19th century changed the history of art forever. The book is not just about their painting but also tells about their lives, their triumphs and their disasters.

**50 Battles That Changed the World** Aug 03 2022 An informative look at the military conflicts that most altered the course of history and civilization, from ancient times to the modern world. Rather than celebrating warfare, 50 Battles That Changed the World looks at the clashes the author believes have had the most profound impact on world history. Ranked in order of their relevance to the modern world, these struggles range from the ancient past to the present day and span the globe many times over. Some of the battles in this book are familiar to us all—Bunker Hill, which prevented the American Revolution from being stillborn, and Marathon, which kept the world's first democracy alive. Others may be less familiar—the naval battle at Diu (on the Indian Coast), which led to the ascendancy of Western Civilization and the discovery of America, and Yarmuk, which made possible the spread of Islam from Morocco to the Philippines. With remarkable accounts of both famous and lesser-known clashes, 50 Battles That Changed the World provides impressive insight into the battles that shaped civilization as we know it.

*Books that Changed the World* Oct 25 2021 From the Bible to "Das Kapital," this revised and greatly expanded edition is a monument to the power of the printed word—an informative discussion of many of the most important works ever created. Reissue.

*People That Changed the Course of History: The Story of Karl Marx 200 Years After His Birth* Jan 28 2022 Preface: March 17, 1883 -- Trier (1818-1836) -- Bonn and Berlin (1836-1842) -- Cologne (1842-1843) -- Paris (1843-1845) -- Brussels (1845-1848) -- Cologne II (1848-1849) -- London I (1849-1859): "The second as farce" -- London II (1859-1883): "The greatest living thinker" -- Major works: the Jewish question, the Communist Manifesto, and Das Kapital -- Lasting significance and legacy: "A not very important nineteenth century philosopher

[The Britannica Guide to Political Science and Social Movements That Changed the Modern World](#)

Feb 26 2022 Few forces are more powerful than a group of people united by a common cause. Collective objectives, known as movements, have been known to radically alter the course of human history. This book traces an array of important political and social movements from their inception to their apex, with plentiful side discussions of notable proponents.

This book presents the ten most pivotal battles that have altered the course of human history, including Waterloo, Thermopylae, Gettysburg, and Dien Bien Phu. The eye-catching illustrations and high-interest content are sure to entice reluctant readers while they learn about the unforgettable details of life-changing conflicts.

[Discoveries in Earth and Space Science that Changed the World](#) Mar 30 2022 Students often take for granted that many of the basic principles of science we study today were once major discoveries that revolutionized the way humans view our planet (not to mention the universe around it!). In this photograph-packed history of major discoveries in Earth and space science, a chronological tour guides readers through the historical progression of how scientists viewed the world. Biographies of key figures—coupled with fact boxes and sidebars that highlight the later implications of each discovery—make this book a fascinating voyage for both science-lovers and laypeople alike.

[How to Change the World](#) Jul 30 2019 Provides stories describing everyday people who cared enough to make a change in society, describing practices and qualities of these individuals and their organizations, and offering inspiration and hope for a better future.

**She Persisted Around the World** Aug 30 2019 The companion to Chelsea Clinton & Alexandra Boiger's #1 New York Times bestseller, *She Persisted*. Perfect for tiny activists, mini feminists and little kids who are ready to take on the world. Women around the world have long dreamed big, even when they've been told their dreams didn't matter. They've spoken out, risen up and fought for what's right, even when they've been told to be quiet. Whether in science, the arts, sports or activism, women and girls throughout history have been determined to break barriers and change the status quo. They haven't let anyone get in their way and have helped us better understand our world and what's possible. In this companion book to *She Persisted: 13 American Women Who Changed the World*, Chelsea Clinton introduces readers to a group of thirteen incredible women who have shaped history all across the globe. *She Persisted Around the World* is a book for everyone who has ever aimed high and been told to step down, for everyone who has ever raised their voice and been told to quiet down, and for everyone who has ever felt small, unimportant or unworthy. Alexandra Boiger's vibrant artwork accompanies this inspiring text that shows readers of all ages that, no matter what obstacles come their way, they have the power to persist and succeed. This book features: Marie Curie, Sor Juana Ines de la Cruz, Viola Desmond, Sissi Lima do Amor, Leymah Gbowee, Caroline Herschel, Wangari Maathai, Aisha Rateb, J.K. Rowling, Kate Sheppard, Yuan Yuan Tan, Mary Verghese and Malala Yousafzai. Praise for *She Persisted Around the World*: "Clinton again writes in a measured tone that is at once celebratory and defiant. Boiger's watercolor and ink artwork exudes warmth and subtle power." --Publishers Weekly Praise for *She Persisted*: \* "[A] lovely, moving work of children's literature [and a] polished introduction to a diverse and accomplished group of women." --Publishers Weekly, starred review "Exemplary . . . This well-curated list will show children that women's voices have made themselves emphatically heard." --Booklist "[*She Persisted*] will remind little girls that they can achieve their goals if they don't let obstacles get in the way." --Family Circle "We can't wait to grab a copy for some of the awesome kids in our lives . . . and maybe some of the grown-ups, too." --Bustle "A message we all need to hear." --Scary Mommy "This will be a great read for kids (especially young girls)." --Romper "We cannot wait for the launch of Smart Girl Chelsea Clinton's new book to help remind kids everywhere that the

fearlessness that characterizes the thirteen women in the book is what has emboldened us to constantly strive for progress and justice." --Amy Poehler's *Smart Girls*

*Leaders Who Changed the World* Jan 16 2021 It takes charisma and inspiration to lead any group of people. *Leaders Who Changed the World* explores the lives and careers of such extraordinary individuals as Julius Caesar, Napoleon Bonaparte, Mahatma Gandhi and Nelson Mandela. Some have slogged and suffered in order to change the world for the better, while others, like Adolf Hitler or Osama Bin Laden have only succeeded in damaging humanity. Throughout history there have only been a handful of people capable of supreme leadership. What lessons can be learned from their triumphs and failures? Read the words and actions of some astonishing leaders and learn exactly how they changed the world. Leaders include Plato, Buddha, Alexander, Hannibal, Julius Caesar, Jesus Christ, Boudicca, Attila the Hun, Muhammad, Charlemagne, Alfred the Great, Genghis Khan, George Washington, Thomas Jefferson, Horatio Nelson, Napoleon Bonaparte, Duke of Wellington, Queen Victoria, Abraham Lincoln, Mahatma Gandhi, Winston Churchill, Fidel Castro, Franklin D. Roosevelt, Lenin, Stalin, Hitler, Martin Luther King, Mao Zedong, Nelson Mandela, John F. Kennedy, Barack Obama

**The History of the Computer** Apr 18 2021 A strikingly illustrated overview of the computing machines that have changed our world—from the abacus to the smartphone—and the people who made them, by the New York Times bestselling author and illustrator of *Women in Science*. “A beautifully illustrated journey through the history of computing, from the Antikythera mechanism to the iPhone and beyond—I loved it.”—Eben Upton, Founder and CEO of Raspberry Pi Computers are everywhere and have impacted our lives in so many ways. But who created them, and why? How have they transformed the way that we interact with our surroundings and each other? Packed with accessible information, fun facts, and discussion starters, this charming and art-filled book takes you from the ancient world to the modern day, focusing on important inventions, from the earliest known counting systems to the sophisticated algorithms behind AI. *The History of the Computer* also profiles a diverse range of key players and creators—from An Wang and Margaret Hamilton to Steve Jobs and Sir Tim Berners-Lee—and illuminates their goals, their intentions, and the impact of their inventions on our everyday lives. This entertaining and educational journey will help you understand our most important machines and how we can use them to enhance the way we live. You’ll never look at your phone the same way again!

*28 Days* Aug 11 2020 "A picture book look at many of the men and women who revolutionized life for African Americans throughout history"--

**Events That Changed the World C** Aug 23 2021 In this volume the author offers a thought-provoking examination of the many pivotal events in the course of world history.

**The Machine that Changed the World by James P. Womack, Daniel T. Jones, and Daniel Roos (Summary)** Nov 25 2021 Do you want more free book summaries like this? Download our app for free at <https://www.QuickRead.com/App> and get access to hundreds of free book and audiobook summaries. *The Story of Lean Production - Toyota's Secret Weapon in the Global Car Wars* that is Now Revolutionizing World Industry. Peter Drucker once dubbed the automobile industry as “the industry of industries,” and today, automobile manufacturing is still the world’s largest manufacturing activity as more than 50 million new vehicles are produced each year. You likely own a vehicle yourself. Perhaps you own several. Regardless, the automobile industry has changed our lives in more ways than one. Twice in this century, it has changed the fundamental idea of how we make things, which then influences how we work, what we buy, how we think, and how we live. One Japanese car company, in particular, Toyota, has maintained a credible reputation for quality and innovation, making it one of the most successful car manufacturers worldwide - valued for its reliability and efficiency. The foundation of its success comes from Toyota’s production system called lean production. A system that has become so successful that it has spread into other industries across the globe, including design, programming, and management. As you read, you’ll learn how the assembly line was revolutionary but flawed, why Toyota allows any employee to halt production, and why Toyota refuses to keep warehouses full of inventory.

**53 Women You Don't Know Who Changed Our World (Well, You Might Do)** Sep 04 2022 "The history of all times, and of today especially, teaches that...women will be forgotten if they forget to think about themselves" Louise Otto Countless women have revolutionized the world as we know it but many of their astounding accomplishments have not been written, memorialized or praised. They have been forgotten. With this novel, we hope to unearth a handful of these unsung heroines by introducing you to 53 incredible women that we refuse to let time forget.

**I Have a Dream** May 08 2020 For use in schools and libraries only. Gathers speeches, sermons, letters, and essays from each period in Dr. King's life, and includes brief notes on their historical background.

**100 Days in Photographs** Jun 08 2020 More than three hundred photographs from the archives of Getty Images and National Geographic capture one hundred days that represent pivotal moments of the past 150 years, including Lincoln's assassination, the 1929 Wall Street crash, Kristallnacht, Chernobyl, September 11, and other events and personalities who shaped the world. 125,000 first printing.
