Journey to War Oct 04 2022 World War II has left an indelible mark on the fabric of human history. The exploits of men like Hitler and Mussolini, Roosevelt and Churchill are chronicled in countless books and movies. Their names and their actions will never be forgotten—and for good reason. To gain a

however, we must look beyond the names that grace the pages of textbooks and recognize the sacrifices of the anonymous soldiers who risked life and limb to serve the country they loved. With each passing year, their stories—which persist only through the oral history passed from generation to generation—fade into the ether of time. As a boy, author William S. Murray listened to his grandfather's stories about training as a pilot during World War II with rapt attention. In an effort to preserve these memories, Murray sat down with his

grandfather, Thomas Stewart, to record these stories for posterity. Stewart shares memories both happy and bittersweet, from his beginnings in Byhalia, Mississippi, through his experiences as a pilot during the war years. *Journey to War* is not the story of familiar heroes like Eisenhower, Patton, and MacArthur. This is the story of one ordinary man doing his part to serve his country during extraordinary times. This is the story of Second Lieutenant Thomas Stewart and the men with whom he served.

The military toll of World War I is widely known: millions of Britons were mobilised, many thousands killed or wounded, and the landscape of British society changed forever. But how was the conflict experienced by the people of Surrey on the home front? Surrey Heritage's project *Surrey in the Great War: A County Remembers*

commemoration, explored the wartime stories of Surrey's people and places. The project's discoveries are here captured through text, case studies and images. This book chronicles the mobilisation of Surrey men, the training of foreign troops in the county, objection to military service, defence against invasion, voluntary work and fundraising, the experiences of women and children, shortages, industrial supply to the armed forces and the commemoration of Surrey's dead. Drawing heavily on the rich archives of Surrey Heritage, it is an engaging exploration of a county in the shadow of the first globalised war between industrialised nations.

Wallace Stevens, and César Vallejo-all wrote memorably about war, but still they felt they did not have authority to write about what they had not experienced firsthand. Consequently, these writers developed a wartime poetics engaging with both classical rhetoric and the daily news in texts that encourage readers to take critical distance from war culture. *News of War* is the first book to address the complex relationship between poetry and journalism. In two chapters on civilian literatures of the Spanish Civil War, five chapters on World War II, and an epilogue on contemporary poetry about the wars in Iraq and Afghanistan, Galvin combines analysis of poetic form with attention to socio-historical context, drawing on rare archival sources and furnishing new translations. In comparing how poets wrestled with the limits of bodily experience, and with the ethical, political, and aesthetic problems they faced, Galvin theorizes the concept of meta-rhetoric, a type of ethical

employed strategies drawn from journalism precisely to question the objectivity and facticity of war reporting. Civilian poetics of the 1930s and 1940s was born from writers' desire to acknowledge their own socio-historical position and to write poems that responded ethically to the gravest events of their day.

British Soldiers of the Korean War May 07 2020 More than 100,000 British troops fought in Korea between 1950 and 1953, of which just over 1,000 died, with a further 1000 being captured and held in atrocious conditions by the Chinese or Koreans. At least half of those captured died in prison camps. More than 70 per cent of those who fought were teenagers doing national service. They were poorly trained and ill-equipped. This book tells the story of these men in their own words. Most of the veterans are now in their eighties and there is a pressing

need for them to tell their tale. So soon after the Second World War, this was a war Britain did not need but she remained steadfast by the side of the Americans, fighting more than 6,000 miles away in a country nobody could point to on a map. Yet while we remember those conflicts in the Falklands, Iraq and Afghanistan, the Korean War remains largely forgotten.

Funeral orations, epitaphs, songs, cartoon captions, and slogans ("Burn, baby, burn") contribute to the hodgepodge. Both the pious (including Pius XII) and the rebarbative (Joseph McCarthy) have their say. Competing dictionaries of political maxims are largely nonexistent today. The Revolutionary War in the Adirondacks

Sep 30 2019 This lively history of the American Revolution explores the combat that took place in the Adirondack Mountains of New York. Much of New York during the Revolutionary era was frontier wilderness, sparsely populated and bitterly divided. Although the only major campaign in the region would end at the Battle of Saratoga, factional raiding parties traversed the mountains and valleys of the Adirondacks throughout the war. Sir Christopher Carleton led groups of Loyalists, Hessians and Iroquois in successful attacks along Lake Champlain, capturing Forts and striking the Star in local villages.

Mohawk war chief Joseph Brant led a motley band of irregulars known as “Brant’s Volunteers” in chaotic raids against Patriot targets. Marauding brothers Edward and Ebenezer Jessup brought suffering to the very lands they had purchased years before in Kingsbury, Queensbury and Fort Edward. In this volume, historian Marie Danielle Annette Williams chronicles these and other stories of the Revolutionary War in the Adirondacks.

He shared a tent with his father-in-law and later met up with his father and brother who were POW's at Bhimtal. His diaries are lodged with the Anglo-Boer War museum in Bloemfontein. As Gaillard explains in his introductory essay, he came of age in a Southern generation that viewed the war as a glorious lost cause. But as he read through letters collected by members of his family, he confronted a far more sobering truth. “Oh, this terrible war,” wrote his great-great-grandfather, Thomas Gaillard. “Who can

measure the troubles—the affliction—it has brought upon us all?” To this real-time anguish in voices from the past, Gaillard offers a personal remembrance of the shadow of war and its place in the haunted identity of the South. “My own generation,” he writes, “was, perhaps, the last that was raised on stories of gallantry and courage . . . Oddly, mine was also the one of the first generations to view the Civil War through the lens of civil rights—to see . . . connections and flaws in Southern history that earlier generations couldn’t bear to face.”

overwhelming historical events of the Civil War. It is full of tales of military rabbit hunts, Irish women smuggling brandy flasks in chickens, and ribald jests and ungentlemanly jokes. It contains a touching account of a former slave's first free Christmas, heart rending narratives of widows and orphans, and countless tales of heroism. The tales of heroism often provide the most grisly detail, such as "My mouth was full of blood, fragments of teeth and gravel, my breast-bone almost broken in and I lay in mud almost two inches deep." conflicts in the Middle East - The Hollywood War Film reflects on Hollywood's representations of war and conflict, in order to map some cinematic discourses therein. This results in an understanding of the Hollywood genre not just as a categorising tool, but rather as a dynamic, inscriptive, iterative cultural phenomenon. Broadly, the thesis of the book is twofold: Firstly, that there are commonalities in Hollywood films representing distinct conflicts and eras, and that recent war films more closely echo early war films in terms of their nationalistic and idealistic perspectives.

Secondly, the work proposes a reconfiguring of genre as less concrete and classificatory, and more dynamic and iterative. In doing so, *The Hollywood War Film* analyses some of the most important war films from the past century, including *All Quiet on the Western Front* (1930), *Full Metal Jacket* (1987) and *The Hurt Locker* (2009).

The 'conflict' which followed (a formal declaration of war was never given) lasted ten weeks from Argentine invasion to British liberation, the white heat of battle using 20th century technology contrasting with bitter hand-to-hand bayonet fighting in inhospitable conditions. Eyewitness accounts by the participants of both sides, and islanders, leave us in no doubt as to the ferocity of the combat on land, sea, and in the air. The 500 Year War Jan 15 2021 In 1415, two noble Kentish families, the Wallers and the Hollands, were united by the courage of their sons in triumphant battle against the French at Agincourt. Five hundred years later, their descendants found themselves fighting shoulder-to-shoulder in France once again, this time united with the French against a new enemy in the First World War. Edward Tovey has built on centuries of history to weave a romantic and moving story of peace and war, love and courage, set against the backdrop of northern France and the battlefields of the Somme.
