[Questions and Answers](#) Jul 27 2019 In almost all principled accounts of questions questions are related to the corresponding answers. Zellig Harris (Harris 1978:1), for example, maintains that " ... all interrogative sentences can be derived, by means of the independently established transformations of the language, from sentences which assert that someone is asking about a disjunction of statements which are the relevant possible answers to that interrogative." This amounts to the claim that a yes-no question such as Will John stay? is derived from I ask you whether John will stay and a wh question such as Who came is derived from something like I ask you whether A came or B came or ... or X came .. Though in generative grammar interrogatives are not derived from the corresponding declaratives, the semantic interpretation of questions is akin to the syntactic source of questions posited by Harris. Jerrold J.Katz and Paul M.Postal (Katz-Postal 1964:113-117) state a reading rule for Q, the interrogative constituent, which boils down to (1) in the case of yes-no questions and to (2) in the case of wh-questions. (1) Tell me which of the following is true: John will stay or John will not stay. (2) Tell me which of the following is true: A came or B came or ... or X came. Thus, the semantic interpretation of questions makes reference to the set of possible answers represented here by a disjunction of statements.

Die Kunst des klugen Fragens Oct 29 2019 Während die meisten Bücher über Kreativität und erfolgreiche Lebensführung schnelle und leicht verdauliche Antworten liefern, setzt der Innovationsforscher Warren Berger ganz woanders an: bei den Fragen. Berger hat die Strategien der kreativsten Köpfe aus Wirtschaft und Wissenschaft, darunter Steve Jobs, Jeff Bezos und Larry Page, untersucht und festgestellt, dass sie alle eine besondere Fähigkeit auszeichnet - die richtigen Fragen zu stellen. Was wir als Kinder intuitiv tun, nämlich die Welt permanent in Frage zu stellen, um sie zu begreifen, treibt uns das Erziehungssystem aus und trimmt uns auf Antworten. Dabei kommt es heute mehr denn je darauf an, diese Fähigkeit wiederzubeleben, um zu kreativen Lösungen zu gelangen. Anhand von sechzig erstaunlichen Geschichten zeigt Berger, auf welche Weise die richtige Fragestellung den kreativen Prozess antreibt. Nur wenn wir unsere eingeübten Annahmen in Zweifel ziehen, wenn wir lernen, uns vertraute Situationen so zu betrachten, als wären sie neu, kann es gelingen, die richtigen Lösungen zu finden. Ein lebhaft und humorvoll geschriebenes und dennoch hoch fundiertes Buch, mit dem wir lernen, die Welt – und uns selbst – neu zu betrachten.

T'ai Chi Ch'uan Ta Wen Jan 31 2020 "This book, T'ai Chi Ch'uan Ta Wen, was written sixty years ago by Professor Ch'en Wei-ming, who was a famous exponent of the Yang style T'ai Chi Ch'uan and a student of the great master, Yang Cheng-fu. In 1927 he established the Chih Jou School in Shanghai where he taught many students. At that time he saw how popular T'ai Chi Ch'uan was becoming and he was concerned that if it became a fad it would lose its original spirit. In the process of its being spread, its principles would be forgotten or mixed with other forms, thus leading to the loss of an important part of its essence.

Therefore, this book is based only on what Professor Ch'en heard in his teacher's classes. The questions are his own personal questions." -Benjamin Pang Jeng Lo, from the Introduction
