Confederate Generals in the Western Theater: Essays on America's Civil War May 29 2022 For this book, which follows an earlier volume of previously published essays, Hewitt and Bergeron have enlisted ten gifted historians--among them James M. Prichard, Terrence J. Winschel, Craig Symonds, and Stephen Davis--to produce original essays, based on the latest scholarship, that examine the careers and missteps of several of the Western Theater's key Rebel commanders. Among the important topics covered are George B. Crittenden's declining fortunes in the Confederate ranks, Earl Van Dom's limited prewar military experience and its effect on his performance in the Baton Rouge Campaign of 1862, Joseph Johnston's role in the fall of Vicksburg, and how James Longstreet and Braxton Bragg's failure to secure Chattanooga paved the way for the Federals' push into Georgia. --

Alpamayo to Everest: It's Not About the Summit Apr 27 2022 Ian Hibbert chronicles his adventures climbing the world's highest mountains in this gripping series of tales that reveals the power of grit, determination, and will. Filled with pictures, these memoirs delve into the challenges he overcame climbing the exotic mountains of the South American Andes, Nepal, Tibet, Pakistan, Africa, and New Zealand. At each stop, he enriched his body and soul. In the Peruvian mountains, he paid little mind to the Sendero Luminoso terrorists, even though a police chief guarded the group at the Los Portales Hotel. When a member of the group needed to convert U.S. dollars to Peruvian Intis at the bank, the National Police were employed to guard the delivery. At Cho Oyu, the sixth-highest mountain in the world at the Tibet-Nepal border of the Himalayan range, he was almost arrested and thrown into the brig amid the SARS outbreak when he was found to have an elevated temperature at a border crossing.

A revised correlation of Tertiary rocks in the British Isles and adjacent areas of NW Europe Jun 25 2019 This Special Report comprehensively describes the stratigraphy and correlation of the Tertiary (Paleogene–Neogene) rocks of NW Europe and the adjacent Atlantic Ocean and is the summation of fifty years of research on Tertiary sediments by Chris King. His book is essential reading for all geologists who deal with Tertiary rocks across NW Europe, including those in the petroleum industry and geotechnical services as well as academic stratigraphers and palaeontologists. Introductory sections on chronostratigraphy, biostratigraphy and other methods of dating and correlation are followed by a regional summary of Tertiary sedimentary basins and their framework and an introduction to Tertiary igneous rocks. The third and largest segment comprises the regional stratigraphic summaries. Regions covered are the North Sea Basin, onshore areas of southern England and the eastern English Channel area, the North Atlantic margins (including non-marine basins in the Irish Sea and elsewhere) and the Paleogene igneous rocks of Scotland.

Electric Motorcycles and Bicycles Mar 27 2022 Beginning in 1881, isolated prototypes of electric tricycles and bicycles were patented and sometimes tested. Limited editions followed in the 1940s, but it was not until the lithium-ion battery became available in the first decade of this century that urban pedelecs and more powerful open-road motorcycles--sometimes with speeds of over 200 mph--became possible and increasingly popular. Today's ever-growing fleets of one-wheel, two-wheel and three-

wheel light electric vehicles can now be counted in the hundreds of millions. In this third installment of his electric transport history series, the author covers the lives of the innovative engineers who have developed these e-wheelers.

Understanding Educational Expeditions Oct 02 2022 Aiming to bridge theory and practice, each chapter outlines relevant literature, highlights key areas for consideration, and offers suggestions for real-world application. The book will be of interest to researchers, university students, expedition organisers, and outdoor instructors.

Auerbach's Wilderness Medicine E-Book Jul 27 2019 Now in its 7th edition, Auerbach's Wilderness Medicine continues to help you quickly and decisively manage medical emergencies encountered in any wilderness or other austere setting! World-renowned authority Dr. Paul Auerbach and 2 new associate editors have assembled a team of experts to offer proven, practical, visual guidance for effectively diagnosing and treating the full range of issues that can occur in situations where time and resources are scarce. This indispensable resource equips physicians, nurses, advanced practice providers, first responders, and rescuers with the essential knowledge and skills to effectively address and prevent injuries and illnesses – no matter where they happen! Face any medical challenge in the wilderness with expert guidance from hundreds of outstanding world experts edited by Dr. Auerbach and 2 new associate editors, Drs. Tracy Cushing and N. Stuart Harris. New and expanded chapters with hundreds of new photos and illustrative drawings help increase your visual understanding of the material. Acquire the knowledge and skills you need with revised chapters providing expanded discussions of high-altitude medicine, improvisation, technical rescue, telemedicine, ultrasound, and wilderness medicine education. Ten new chapters cover Acute High-Altitude Medicine and Pathophysiology; High Altitude and Pre-Existing Medical Conditions; Cycles, Snowmobiles, and other Wilderness Conveyances; Medical Wilderness Adventure Races (MedWAR); Canyoneering and Canyon Medicine; Evidence-Based Wilderness Medicine; National Park Service Medicine; Genomics and Personalized Wilderness Medicine; Forestry; and Earth Sciences.

Judicial Review Handbook Mar 03 2020 Writing in the sixth edition of this Handbook, author Michael Fordham described his ambition when writing the first edition (and indeed all subsequent editions) of this book as "to read as many judicial review cases as I could and to try to extract, classify and present illustrations and statements of principle". Behind this aim lay the practitioner's overwhelming need to know and understand the case-law. Without it, as Fordham says "much can be achieved in public law through instinct, experience and familiarity with general principles which are broad, flexible and designed to accord with common sense". But with knowledge of the case law comes the vital ability to be able to point to and rely on an authoritative statement of principle and working illustration. Knowing the case-law is crucial: "the challenge is to find it". This, the sixth edition of the Handbook, continues the tradition established by earlier editions, in rendering the voluminous case-law accessible and knowable. This Handbook remains an indispensable source of reference and a guide to the case-law in judicial review. Established as an essential part of the library of any practitioner engaged in public law cases, the Judicial Review Handbook offers unrivalled coverage of administrative law, including, but not confined to, the work of the Administrative Court and its procedures. Once again completely revised and up-dated, the sixth edition approximates to a restatement of the law of judicial review, organised around 63 legal principles, each supported by a comprehensive presentation of the sources and an unequalled selection of reported case quotations. It also includes essential procedural rules, forms and guidance issued by the Administrative Court. As in the previous edition, both the Civil Procedure Rules and Human Rights Act 1998 feature prominently as major influences on the shaping of the case-law. Their impact, and the plethora of cases which explore their meaning and application, were fully analysed and evaluated in the previous edition, but this time around their importance has grown exponentially and is reflected in even greater attention being given to their respective roles. Attention is also given to another new development - the coming into existence of the Supreme Court. Here Michael Fordham casts an experienced eye over the Court's work in the area of judicial review, and assesses the early signs from a Court that is expected to be one of the key influences in the development of judicial review in the modern era. The author, a leading member of the English public law bar, has been involved in many of the leading judicial review cases in recent years and is the founding editor of the Judicial Review journal. "...an institution for those who practise public law...it has the authority that comes from being compiled by an author of singular distinction". (Lord Woolf, from the Foreword to the Fifth Edition)
