*Dumpling Dreams* May 17 2021 "The story of how Joyce Chen, a girl born in Communist China, immigrated to the United States and popularized Chinese cooking."--

*The Cambridge History of China* Apr 27 2022 *International scholars and sinologists discuss culture, economic growth, social change, political processes, and foreign influences in China since the earliest pre-dynastic period.*

*The Economic Organization of War Communism 1918-1921* Jan 25 2022 *An assessment of the first Soviet economic system, comparing programmes with outcomes, and theory with practice.*

*Gelegenheit und Entscheidung* Oct 29 2019 *Entgegen aller Skepsis, welche die Transformationsforschung der ersten Jahre dominierte, wurde das Jahrhundertprojekt eines kompletten Systemwechsels in einer Vielzahl von Fällen erfolgreich bewältigt. Infolgedessen ist eine Revision jener Teile des sozialwissenschaftlichen Wissens erforderlich, in denen die Möglichkeit umfassender Gesellschaftsreformen bestritten wurde. Mittels avancierter quantitativer und qualitativer Methoden der vergleichenden Forschung werden die politischen Entscheidungen aufgedeckt, denen positive Resultate geschuldet sind. Die kompakten Studien zur politischen und ökonomischen Transformation machen aber auch die fehlerhaften Annahmen kenntlich, welche der These von der generellen Unmöglichkeit holistischer Reformen zugrunde liegen.*

*Kapital und Ideologie* May 05 2020 "WER ÜBER KAPITALISMUS REDEN WILL, KOMMT AN THOMAS PIKETTY NICHT VORBEI." *HANDELSBLATT* Mit dem Weltbestseller "Das Kapital im 21. Jahrhundert" hat Thomas Piketty eines der wichtigsten Bücher unserer Zeit geschrieben. Jetzt legt er mit einem gewaltigen Werk nach: *Kapital und Ideologie* ist eine so noch niemals geschriebene Globalgeschichte der sozialen Ungleichheit und ihrer Ursachen, eine unnachsichtige Kritik der zeitgenössischen Politik und zugleich der kühne Entwurf eines neuen und gerechteren ökonomischen Systems. Nichts steht geschrieben: Der Kapitalismus ist kein Naturgesetz. Märkte, Profite und Kapital sind von Menschen gemacht. Wie sie funktionieren, hängt von unseren Entscheidungen ab. Das ist der zentrale Gedanke des neuen Buches von Thomas Piketty. Der berühmte Ökonom erforscht darin die Entwicklungen des letzten Jahrtausends, die zu Sklaverei, Leibeigenschaft, Kolonialismus, Kommunismus, Sozialdemokratie und Hyperkapitalismus geführt und das Leben von Milliarden Menschen geformt haben. Seine welthistorische Bestandsaufnahme führt uns weit über Europa und den Westen hinaus bis nach Asien und Afrika und betrachtet die globalen Ungleichheitsregime mit all ihren ganz unterschiedlichen Ursachen und Folgen. Doch diese eindrucksvolle Analyse ist für Thomas Piketty kein Selbstzweck. Er führt uns mit seinen weitreichenden Einsichten und Erkenntnissen hinein in die Krise der Gegenwart. Wenn wir die ökonomischen und politischen Ursachen der Ungleichheit verstanden haben, so Piketty, dann können wir die notwendigen Schritte für eine gerechtere und zukunftsfähige Welt konkret benennen und angehen. *Kapital und Ideologie* ist das geniale Werk eines der wichtigsten Denker unserer Zeit, eines der Bücher, die unsere Zeit braucht. Es hilft uns nicht nur, die Welt von heute zu verstehen, sondern sie zu verändern. *Soziale Ungleichheit ist kein Naturgesetz Ein unverzichtbares Buch für unsere Zeit*

*Churchill and Tito* Jun 25 2019 *The true story of Winston Churchill's fateful decision to side with the Communist Partisans of Yugoslavia in World War II—and seal that nation's fate. One of Winston Churchill's most controversial decisions during the Second World War concerned the United Kingdom's role in Yugoslavia. In 1943, he switched Special Operations Executive support from the Cetniks, loyal to Yugoslavia's exiled royal government, to Tito and his Communist Partisan guerrillas. That choice led to a Communist regime in Yugoslavia that lasted until Tito's death in 1980, and resulted in the horrific ethnic violence of the Balkan wars in the 1990s. Until now, the story has been that SOE was infiltrated by Communists and that Churchill was duped into abandoning the royalists. However, the recently deposited papers of Sir Bill Deakin—Churchill's former assistant and an SOE operative in Yugoslavia—reveal that the decision was based on solid evidence and made in Britain's best military interests. Here, Christopher Catherwood, advised by Deakin himself, has written a definitive history of the SOE in Yugoslavia. Catherwood can now demonstrate that one of Churchill's most significant and consequential decisions of the Second World War was not the terrible mistake that historians have portrayed—but rather an absolute necessity.*

*A Concise History of Finland* Jul 19 2021 *An up-to-date political, social and economic history of Finland from medieval*

times to the present. David Kirby traces the evolution of Finland's distinctive identity and of the Finnish national state from the long centuries under Swedish rule, through self-government within the Russian Empire, to independence in the twentieth century.

Harold Laski, 1893-1950 Jan 01 2020 The young rebel -- The start in North America -- London in the twenties -- The crisis in democracy -- War, fascism, and communism -- Cambridge in wartime -- Revolution by consent -- On being suddenly infamous -- No ease in Zion -- The Jewish question -- Harold Laski and American democracy -- The influence of Harold Laski. The Cambridge Companion to Modern Russian Culture Mar 15 2021 An introduction to modern Russian culture, from language and religion to literature and the arts.

Enemies Within: Communists, the Cambridge Spies and the Making of Modern Britain Nov 03 2022 What pushed Blunt, Burgess, Cairncross, Maclean and Philby into Soviet hands? With access to recently released papers and other neglected documents, this sharp analysis of the intelligence world examines how and why these men and others betrayed their country and what this cost Britain and its allies.

The Cambridge History of Socialism May 29 2022 This volume describes the various movements and parties, across all six continents, that wanted social change through state transformation. It begins with a reconstruction of social democracy's trajectories from the 1870s until the present. The evolution of socialism on different continents is illustrated through a number of national case studies. Experiments at a subnational level (for example, municipal socialism) are also explored, as are the varying experiences of international umbrella organizations. The next part focuses on divergent socialist experiments and ideologies in several parts of the world, including South Asia, Africa, the Arab world, Brazil, Venezuela, and Israel/Palestine, followed by an overview of 'independent' socialist movements, including left-socialist parties of the 1930s and the post-war period, and the global New Left since its beginnings in the 1950s. The volume concludes with critical essays on socialism's long-term and global development.

The Cambridge Apostles Jan 13 2021

Last of the Cold War Spies Feb 23 2022 Recounts the life of Michael Straight, a former Cambridge student, State Department official, and editor of the "New Republic" who was linked to the Philby-Blunt spy ring.

The Cambridge Companion to Shostakovich Jul 27 2019 As the Soviet Union's foremost composer, Shostakovich's status in the West has always been problematic. Regarded by some as a collaborator, and by others as a symbol of moral resistance, both he and his music met with approval and condemnation in equal measure. The demise of the Communist state has, if anything, been accompanied by a bolstering of his reputation, but critical engagement with his multi-faceted achievements has been patchy. This Companion offers a starting point and a guide for readers who seek a fuller understanding of Shostakovich's place in the history of music. Bringing together an international team of scholars, the book brings research to bear on the full range of Shostakovich's musical output, addressing scholars, students and all those interested in this complex, iconic figure.

The Cambridge History of Nineteenth-Century Political Thought Mar 03 2020 This major work of academic reference provides the first comprehensive survey of political thought in Europe, North America and Asia in the century following the French Revolution. Written by a distinguished team of international scholars, this Cambridge History is the latest in a sequence of volumes firmly established as the principal reference source for the history of political thought. In a series of scholarly but accessible essays, every major theme in nineteenth-century political thought is covered, including political economy, religion, democratic radicalism, nationalism, socialism and feminism. The volume also includes studies of major figures, including Hegel, Mill, Bentham and Marx, and biographical notes on every significant thinker in the period. Of interest to students and scholars of politics and history at all levels, this volume explores seismic changes in the languages and expectations of politics accompanying political revolution, industrialisation and imperial expansion and less-noted continuities in political and social thinking.

Gramsci: Pre-Prison Writings Sep 20 2021 A wide-ranging and important 1994 collection of Gramsci's pre-prison writings.

The Cambridge History of Twentieth-Century Political Thought Aug 20 2021 Table of contents

Before the Uprising Aug 08 2020 Examines the specific social, economic, political and intellectual characteristics of totalitarian Hungary, at the critical moment before the 1956 Revolution.

Capitalism and Democracy in Central and Eastern Europe Mar 27 2022 This book addresses the problem of assessing institutional change in the wake of communism's collapse in Europe.

Historical Legacies of Communism Sep 08 2020 Reveals how the legacy of the Communist Party of the Soviet Union affects modern politics, society and economic development in post-Communist Russia.

The Cambridge History of Islam: Volume 1B, The Central Islamic Lands Since 1918 Jun 29 2022 A monograph of Muslim civilization, from before Prophet Muhammad through the post-World War II years, explicating the growth of the Arab Empire and its outward political and cultural extensions. Bibliogs

The Cambridge Companion to The Communist Manifesto Oct 02 2022 Offers the latest contextual and biographical scholarship with innovative interpretations and is supplemented by the first and latest English translations.

Aufstieg und Fall des Kommunismus Dec 12 2020

Misdefending the Realm Nov 22 2021 This is the story of how the Soviet Union successfully infiltrated the UK government in the years leading up to WW2, and specifically when the USSR was an ally of Nazi Germany (August 1939 - June 1941). Historians have previously argued that this success was due to the existence of a Communist 'super-mole' within MI5, and that in the fight against Fascism, multiple indulgences towards communists were an unavoidable strategy. The reality was very different. When a key Soviet defector warned of the deep insertion of agents within the corridors of power, the Comintern were obliged by the Hitler-Stalin pact to launch an aggressive counteroffensive in 1940. Britain's Security Service was persuaded that the threat from communist subversion was minimal. When this most damaging espionage was detected, MI5's officers engaged in an extensive cover-up to conceal their deficiencies. Exploiting recently declassified material and a broad range of historical and biographical sources, Antony Percy here reveals how the Soviet Union caught up so swiftly with Western expertise and weaponry, and so removed a key Western advantage over its Communist adversary as the Cold War ensued.

New Cambridge Opinion Apr 15 2021

The Chinese Communist Party Jun 05 2020 A mosaic of lives and voices illustrating the history of the Chinese Communist

Party over the last hundred years.

**Factionalism in Chinese Communist Politics** Dec 24 2021 Factionalism is widely understood to be a distinguishing characteristic of Chinese politics. In this book, Jing Huang examines the role of factionalism in leadership relations and policy making. His detailed knowledge of intra-Party politics offers a new understanding of still-disputed struggles behind the high walls of leadership in Zhongnanhai. Critiquing the predominant theories on leadership and decisionmaking, he explains that it is not power struggles that give rise to factionalism, but rather the existence of "factionalism that turns power into an overriding goal in CCP politics."

**Building States and Markets After Communism** Apr 03 2020 "Timothy Frye's *Building States and Markets After Communism* is a superb addition to the growing literature on the political economy of postcommunism. Frye develops a powerful and original model to explain the level of comprehensiveness and coherence of economic reform in 25 postcommunist countries. Frye subjects his theory to a variety of empirical tests, using evidence from surveys of business people in the region, data on economic performance, and thorough case studies of Russia, Bulgaria, Poland, and Uzbekistan. Written in a clear and accessible style, the book will stand as an authoritative analysis of the political and economic development of the postcommunist region."- Thomas F. Remington, Emory University "Frye's account of the diverse fortunes of postcommunist states distinguishes itself through attention to a critical intervening political mechanism: the greater or lesser partisan polarization around questions of economic reform that shapes the behavior of politicians, economic producers, and voters in the postcommunist polity. Frye also explains how polarization comes about, is reproduced at the micro-level in the investment behavior of firms, and persists overtime. Such quantitative analysis is complemented by meticulous case studies highlighting the empirics of centrifugal and centripetal political competition and its political-economic consequences. This carefully crafted investigation will command the attention of anyone who plans to study the political economy of postcommunism."- Herbert Kitschelt, Duke University "Tim Frye's book provides a major new perspective on the political economy of investment and growth in the countries of Eastern Europe and the former Soviet Union. His analysis of the effects of party system polarization pushes well beyond earlier theories of partial and inconsistent market reforms. His theoretical claims are built on an impressive combination of econometric analysis, original survey research, and new case studies. This ground-breaking study makes a significant contribution to our understanding of postsocialist countries and will be an important point of reference for analyses of economic reform in other parts of the developing world."- Robert Kaufman, Rutgers University "Drawing on his deep knowledge of the postcommunist experience, Tim Frye demonstrates that history can overwhelm attempts to get the institutions right. Conceptually bold and meticulously researched, *Building States and Markets After Communism* should be read by anybody who wants to understand the political economy of economic reform."- Scott Gehlbach, University of Wisconsin, Madison "Timothy Frye makes a signal contribution to the study of Eastern Europe and Central Asia, and to the political economy of reform, with this study of how political polarization explains the distinct patterns of economic reform and growth since the fall of communism."- Philip Keefer, Development Research Group, The World Bank.

**The Last Cambridge Spy** Jul 31 2022 JOHN CAIRNCROSS was among the most damaging spies of the twentieth century. A member of the infamous Cambridge Ring of Five, he leaked highly sensitive documents from Bletchley Park, MI6 and the Treasury to the Soviet Union - including the first atomic secrets and raw decrypts from Enigma and Tunny that influenced the outcome of the Battle of Kursk. In 2014, Cairncross appeared as a secondary, though key, character in the biopic of Alan Turing's life, *The Imitation Game*. While the other members of the Cambridge Ring of Five have been the subject of extensive biographical study, Cairncross has largely been overlooked by both academic and popular writers. Despite clear interest, he has remained a mystery - until now. *The Last Cambridge Spy* is the first ever biography of John Cairncross, using newly released material to tell the story of his life and espionage.

**The Cambridge History of Atheism** Nov 10 2020 The two-volume *Cambridge History of Atheism* offers an authoritative and up to date account of a subject of contemporary interest. Comprised of sixty essays by an international team of scholars, this History is comprehensive in scope. The essays are written from a variety of disciplinary perspectives, including religious studies, philosophy, sociology, and classics. Offering a global overview of the subject, from antiquity to the present, the volumes examine the phenomenon of unbelief in the context of Christian, Islamic, Buddhist, Hindu, and Jewish societies. They explore atheism and the early modern Scientific Revolution, as well as the development of Charles Darwin's theory of evolution and its continuing implications. The History also includes general survey essays on the impact of scepticism, agnosticism and atheism, as well as contemporary assessments of thinking. Providing essential information on the nature and history of atheism, *The Cambridge History of Atheism* will be indispensable for both scholarship and teaching, at all levels.

**Cambridge IGCSE® and O Level History Option B: The 20th Century Coursebook** Jul 07 2020 Cambridge IGCSE® and O Level History Second edition for Option B: the 20th Century of the syllabus (0470,2147), updated for the revised syllabus for first examination from 2020 and now supporting O Level as well. Help your students take an enquiry-led approach to historical learning with Cambridge IGCSE® and O Level History. Full of activities and primary and secondary sources, this resource encourages the application of historical skills and enables investigative questioning of cause and consequence. Endorsed by Cambridge Assessment International Education for Option B, the coursebook is written by a team of experienced teachers and provides comprehensive coverage of all of the Key Questions and four of the Depth Studies for syllabus Option B: the 20th Century. Sample answers to a selection of the exam-style questions can be found in the teacher's resource.

**The Cambridge Illustrated History of China** Jan 31 2020 *The Cambridge Illustrated History of China* is an illuminating account of the full sweep of Chinese civilisation - from prehistoric times to the intellectual ferment of the Warring States Period, through the rise and fall of the imperial dynasties, to the modern communist state. Written by a leading scholar and lavishly illustrated, its narrative draws together everything from the influence of key intellectual figures, to political innovations, art and material culture, family and religious life, not to mention wars and modern conflicts. This third revised edition includes new archaeological discoveries and gives fuller treatment of environmental history and Chinese interaction with the wider world, placing China in global context. The Qing dynasty is now covered in two chapters, while the final chapter brings the story into the twenty-first century, covering the transformation of China into one of the world's leading economies and the challenges it faces. Lively and highly visual, this book will be appreciated by anyone interested in

Chinese history.

***The Devil in History*** Aug 27 2019 *The Devil in History* is a provocative analysis of the relationship between communism and fascism. Reflecting the author's personal experiences within communist totalitarianism, this is a book about political passions, radicalism, utopian ideals, and their catastrophic consequences in the twentieth century's experiments in social engineering. Vladimir Tismaneanu brilliantly compares communism and fascism as competing, sometimes overlapping, and occasionally strikingly similar systems of political totalitarianism. He examines the inherent ideological appeal of these radical, revolutionary political movements, the visions of salvation and revolution they pursued, the value and types of charisma of leaders within these political movements, the place of violence within these systems, and their legacies in contemporary politics. The author discusses thinkers who have shaped contemporary understanding of totalitarian movements—people such as Hannah Arendt, Raymond Aron, Isaiah Berlin, Albert Camus, François Furet, Tony Judt, Ian Kershaw, Leszek Kolakowski, Richard Pipes, and Robert C. Tucker. As much a theoretical analysis of the practical philosophies of Marxism-Leninism and Fascism as it is a political biography of particular figures, this book deals with the incarnation of diabolically nihilistic principles of human subjugation and conditioning in the name of presumably pure and purifying goals. Ultimately, the author claims that no ideological commitment, no matter how absorbing, should ever prevail over the sanctity of human life. He comes to the conclusion that no party, movement, or leader holds the right to dictate to the followers to renounce their critical faculties and to embrace a pseudo-miraculous, a mystically self-centered, delusional vision of mandatory happiness.

***Freedom and Order*** Nov 30 2019

***The Cambridge Introduction to George Orwell*** Feb 11 2021 An introductory guide to the life, work and legacy of George Orwell - one of the most influential literary twentieth-century figures.

***The Cambridge History of Communism*** Sep 01 2022 The third volume of *The Cambridge History of Communism* spans the period from the 1960s to the present, documenting the last two decades of the global Cold War and the collapse of Soviet socialism. An international team of scholars analyze the rise of China as a global power continuing to proclaim its Maoist allegiance, and the transformation of the geopolitics and political economy of Cold War conflict in an era of increasing economic interpenetration. Beneath the surface, profound political, social, economic and cultural changes were occurring in the socialist and former socialist countries, resulting in the collapse and transformations of the existing socialist order and the changing parameters of world Marxism. This volume draws on innovative research to bring together history from above and below, including social, cultural, gender, and transnational history to transcend the old separation between Communist studies and the broader field of contemporary history.

***The Modern Chinese State*** Sep 28 2019 **Publisher Description**

***The Cambridge World History: Volume 7, Production, Destruction and Connection, 1750-Present, Part 1, Structures, Spaces, and Boundary Making*** Oct 10 2020 Since 1750, the world has become ever more connected, with processes of production and destruction no longer limited by land- or water-based modes of transport and communication. Volume 7 of the *Cambridge World History* series, divided into two books, offers a variety of angles of vision on the increasingly interconnected history of humankind. The first book examines structures, spaces, and processes within which and through which the modern world was created, including the environment, energy, technology, population, disease, law, industrialization, imperialism, decolonization, nationalism, and socialism, along with key world regions.

***Marx: Later Political Writings*** Jun 17 2021 A collection of Marx's important later writings translated and introduced by a leading Marx scholar.
