*Learning to Rival* Nov 22 2021 *Learning to Rival* tells the inside story of college and high school writers learning to "rival"--to actively seek rival hypotheses and negotiate alternative perspectives on charged questions. It shows how this interdisciplinary literate practice alters with the context of use and how, in learning to rival in school and out, students must often negotiate conflicts not apparent to instructors. This study of the rival hypothesis stance--a powerful literate practice claimed by both humanities and science--initially posed two

questions: \* how does the rival hypothesis stance define itself as a literate practice as we move across the boundaries of disciplines and genres, of school and community? \* how do learners crossing these boundaries interpret and use the family of literate practices, especially in situations that pose problems of intercultural understanding? Over the course of this project with urban teenagers and minority college students, the rival hypothesis stance emerged as a generative and powerful tool for intercultural inquiry, posing in turn a new question: how can the practice of rivaling support the difficult and essential art of intercultural interpretation in education? The

authors present the story of a literate practice that moves across communities, as well as the stories of students who are learning to rival across the curriculum. *Learning to Rival* offers an active, strategic approach to multiculturalism, addressing how people negotiate and use difference to solve problems. In the spirit of John Dewey's experimental way of knowing, it presents a multifaceted approach to literacy research, combining contemporary research methods to show the complexity of rivaling as a literate practice and the way it is understood and used by a variety of writers. As a resource for scholars, teachers, and administrators in writing across the curriculum

studies, writing program administration, service learning, and community based projects, as well as literacy, rhetoric, and composition, this volume reveals how learning a new literate practice can force students to encounter and negotiate conflicts. It also provides a model of an intercultural inquiry that uses difference to understand a shared problem.

Revival Season Sep 20 2021 The daughter of one of the South's most famous Baptist preachers discovers a shocking secret about her father that puts her at odds with both her faith and her family in this debut novel.

"Spellbinding...Revival Season should be read alongside Alice Walker's *The Color Purple* and Chimamanda Ngozi Adichie's *Purple Hibiscus*." —The Washington Post A New York Times Book Review Editors' Choice Every summer, fifteen-year-old Miriam Horton and her family pack themselves tight in their old minivan and travel through small southern towns for revival season: the time when Miriam's father—one of the South's most famous preachers—holds massive healing services for people desperate to be cured of ailments and disease. But, this summer, the revival season doesn't go as planned, and after one service in which Reverend Horton's healing powers are tested like never before, Miriam witnesses a shocking act of violence that shakes her belief in her father—and her faith. When the Hortons return

home, Miriam's confusion only grows as she discovers she might have the power to heal—even though her father and the church have always made it clear that such power is denied to women. Over the course of the following year, Miriam must decide between her faith, her family, and her newfound power that might be able to save others, but if discovered by her father, could destroy Miriam. Celebrating both feminism and faith, *Revival Season* is a "tender and wise" (Ann Patchett) story of spiritual awakening and disillusionment in a Southern, Black, Evangelical community. **Journal of the Royal Statistical Society** Feb 11 2021 Published papers whose appeal lies in their subject-matter rather than their technical statistical contents. Medical, social, educational, legal, demographic and governmental issues are of particular concern. **How to Experience Revival (Journal Edition)** Nov 03 2022 Revival starts with one person. You. Charles Finney—who shook up nineteenth-century America with his preaching, earned the title Father of Modern Revivalism, and became the forerunner of revivalists like Dwight L. Moody and Billy Graham—knew a thing or two about revival. And he claimed it began not in the emotion of the masses but in the repentance of the individual. This new journal edition of a spiritual classic invites readers to record their reflections, thoughts, and prayers in response to Finney's fiery words on how to experience revival. As you let his message soak in and interact with your life, you

might find revival to be closer to home than you ever expected.

**The Holiness Revival of the Nineteenth Century** Jun 29 2022 This new edition expands and updates the only general interpretation of the rise and influence of perfectionist revivalism in America and Europe. Fifteen years of expanding research on the holiness movement reinforce this volume's continuing seminal value to cultural and social research. The new concluding essay describes the history of the revival through the turn of the century. This book expands our understanding of the fragmentation and coalescence of American religion by analyzing the factors which created numerous new holiness denominations. Dieter also outlines the historical and theological factors that separate this largely Wesleyan and Methodist wing of evangelicalism from the fundamentalism of Reformed evangelicals. The

**Islamic Revival in Nepal** Jun 17 2021 This book draws on extensive fieldwork among Muslims in Nepal to examine the local and global factors that shape contemporary Muslim identity and the emerging Islamic revival movement based in the Kathmandu valley. Nepal's Muslims are active participants in the larger global movement of Sunni revival as well as in Nepal's own local politics of representation. The book traces how these two worlds are lived and brought together in the context of Nepal's transition to secularism, and explores Muslim struggles for self-definition and belonging against a backdrop of historical marginalization and an unprecedented episode of anti-Muslim violence in 2004. Through the voices and experiences of Muslims themselves, the book examines Nepal's most influential Islamic organizations for what they reveal

about contemporary movements of revival among religious minorities on the margins--both geographic and social--of the so-called Islamic world. It reveals that Islamic revival is both a complex response to the challenges faced by modern minority communities in this historically Hindu kingdom and a movement to cultivate new modes of thought and piety among Nepal's Muslims.

**Revival Preaching** Apr 27 2022 As part of his passion to bring glory to God, Ernie Klassen is particularly interested in the revival of God's people and the awakening of the lost. He believes strongly that God-honoring, Christ-exalting, and Spirit-empowered preaching plays a critical role in revival and awakening. No one models this dynamic better than Jonathan Edwards. He was a pastor who was a protagonist of the First Great Awakening. He thought deeply and critically about religious movements, and his reflections and sermons provide valuable "fodder" for reflection. Revival Preaching extracts the most important lessons of Edwards's writings and sermons for preaching in today's world.

**Imagining Judeo-Christian America** Sep 28 2019 "Judeo-Christian" is a remarkably easy term to look right through. Judaism and Christianity obviously share tenets, texts, and beliefs that have strongly influenced American democracy. In this ambitious book, however, K. Healan Gaston challenges the myth of a monolithic Judeo-Christian America. She demonstrates that the idea is not only a recent and deliberate construct, but also a potentially dangerous one. From the time of its widespread adoption in the 1930s, the ostensible inclusiveness of Judeo-Christian terminology concealed efforts to promote particular conceptions of religion, secularism, and

politics. Gaston also shows that this new language, originally rooted in arguments over the nature of democracy that intensified in the early Cold War years, later became a marker in the culture wars that continue today. She argues that the debate on what constituted Judeo-Christian—and American—identity has shaped the country's religious and political culture much more extensively than previously recognized.

*Gothic Revival Worldwide* Sep 01 2022 Pugin's global influence on church architecture and

material reform The year 2012 marked the bicentenary of the gothic revival architect A.W.N. Pugin. His influence as a designer not only spread fast globally, but also played a leading part in the transformation of material culture from the mid-nineteenth century onwards. Pugin's work has been comprehensively reevaluated over the last decade. In this volume sixteen leading scholars from across the globe discuss Pugin's direct influence on church architecture and furnishing. Beautifully illustrated with a large selection of new photography, Gothic Revival Worldwide, the successor to the volume Gothic Revival published in 2000, reveals how Pugin's ideas played a profound role in the changing face of material reform in church architecture as an expression of the evolving identity of the churches across the world from North America to Mongolia and the South Pacific.
